KIEV TAKEN BY POLES AND UKRAINIANS

Vice-President Explains Attitude of C.P.R. on Dispute

D. C. Coleman Submits Irrefutable Evidence That Company Sought to Treat With Union Representatives on Committees to Effect Settlement.

In discussing the attitude of the strikers in the present seamen's dispute this forenoon, D. C. Coleman, Western Vice-President, C. P. R., who arrived here to-day, explained the company's position as follows:

"The allegation has been made in defence of this strike that the C. P. R. refused to treat with the unions representing the men. On the contrary we offered to treat with committees elected by our own employees representing the sailors, firemen and stewards respectively, and in addition agreed that these committees might be accompanied by the business agent of the unions, in fact the business agents were specifically invited by us. They refused to come, and we have on file from R. Townsend, business agent for the Sailors' Union, a communication in which he refused to participate in the negotiations on the ground that the committees elected by our own employees might include some members of his union who had been suspended for non-payment of dues. In view of this attitude, which is unprecedented, there was nothing for our officers to do but to go ahead and effect a settlement with the committees representing the employees aboard our ships. Settlement was effected and according to the terms of the settlement we agreed to pay a scale which is higher than the scale paid by the United States Shipping Board.

"I feel that Captain Troup and the officers under him have done everything that any reasonable man could do to effect a settlement and if the public is inconvenienced by the cessation of work our company will feel that it has no responsibility whatever."

Services Maintained. There are no material changes in the strike situation to-day. All the steamships of the C.P.R. fleet are in operation with the exception of the Princess Beatrice, Princess Ena and Princess Royal.

The crew of the Princess Royal remained with the ship, but the company is taking the opportunity created by the present trouble to equip the vessel with additional stateroom accommodation which has been contemplated for some time. The Princess Adelaide, which has been undergoing her Spring overhaul, will be put back into commission on Tuesday and will alternate with the Princess Alice in maintaining the night service to and from Vancouver. A few of the seamen and firemen on the Princess Charlotte quit yesterday, but the company was in a position to replace these men (Concluded on page 4.)

NITTI CABINET MAY BE UPSET

Roman Catholic Deputies May Vote Against Italian Premier; Disorder Yesterday

Rome, May 8.—Opinion in parliamentary circles is that Premier Nitti is running the risk of being overthrown. This is said to be due to the decision of the Catholic Party to vote against the Premier, members of the party considering that he showed weakness in his lenient attitude toward the Socialists during the recent disturbances in Northern Italy. The leader of the Catholic Party said yesterday: "If no agreement is reached before a vote is taken in the Chamber of Deputies, Premier Nitti's fall is certain. In fact, all the Socialist Deputies, number 156, despite Nitti's favoritism toward them, must vote against him as a matter of principle."

Disorder. Rome, May 8.—Disorders arose in the Chamber of Deputies yesterday. The men of the Princess Mary and Princess Maquinna are standing by and these ships will continue to operate to Alaska and the West Coast of Vancouver Island respectively.

There appears to be a conspicuous lack of unanimity in the coastwise shipping strike, the greater percentage of the C.P.R. employees apparently having no inclination to obey the mandate of the unions. The future movements of the steamships of the G.T.P. and the Union Steamship Company, however, are indefinite.

FLENSBURG GERMANS DO NOT WANT TOWN INTERNATIONALIZED

Copenhagen, May 8.—Nearly 6,000 persons of the Second Plebiscite Zone of Schleswig have signed a declaration against the proposal to internationalize Flensburg, according to Berlin advices.

CHICAGO TO HAVE LARGEST HOTEL

It Will Have 4,000 Rooms and Theatre and Cost \$15,000,000

In One Section Minimum Charge of \$15 a Day Is Planned

Chicago, May 8.—Plans for the largest hotel in the world, to front three blocks on Lake Michigan and Sheridan Road, were made public to-day.

According to the plans, the hotel will be in five units, with the present Edgewater Beach Hotel as one unit. The architects have planned 4,000 rooms. The cost is estimated at \$15,000,000.

A Theatre.

A theatre which will seat 2,500 is a feature of the plans. A "peacock alley" three blocks long connecting all the units, 400 kitchenettes for those who desire to cook their own meals and one sixteen-story unit for bachelors are other features.

A minimum charge of \$15 a day in one of the units is contemplated.

MADE NO PROMISE TO MENNONITES

U. S. Attorney-General Did Not Promise Manitobans Military Exemption

Washington, May 8.—Attorney-General Palmer, according to officials at the Department of Justice, did not make any specific promises to the Manitoba Mennonites that they would have immunity from military service if they settled in Mississippi. Nothing is known here regarding the promise to the Mennonites, allowing them to conduct their own schools and to use the German language. The State of Mississippi has sole jurisdiction over the conduct of schools in the state.

STRIKERS ASKING ABOUT SENIORITY

Idle Chicago Railroad Workers Want Leader to Clear Situation

Chicago, May 8.—A demand that John Grunau, head of the Chicago Railroad Yardmen's Association, inform the striking switchmen how they can get their seniority rights restored was made public to-day in a letter sent to Grunau by R. S. Naphey, publicity chairman of the Association.

"Great numbers of the members of the Chicago Yardmen's Association are asking: 'When do you expect to land the ninety-five cents and \$1 per hour?' the letter reads. 'It is logical to conclude the Railway Labor Board will not give our members recognition or consideration until we return to work. What have you to offer us?'"

"The question is, how can the seniority rights of the men who have followed the Chicago Yardmen's Association be restored? 'Come out from under cover now and say something definite one way or the other,' says the letter."

French Want Conference Held at Spa as Planned

Paris, May 8.—Reports of a possible postponement of the Spa conference between Allied and German delegates from May 25 to June 10 have caused a universal protest from editors of newspapers here. They fear the meeting may be deferred indefinitely.

Premier Millerand's visit to London next week for the purpose of conferring with Premier Lloyd George as to indemnity payments will be important, it is indicated, as the British Prime Minister is believed to favor the payment of a lump sum by Germany in place of the present plan by which the Allies would be paid an indeterminate amount.

Berlin, May 8.—Germany's delegates to the Spa conference will refuse to attend that meeting if not assured they will be given a hearing, said Dr. Wirth, Minister of Finance, speaking at Dresden yesterday, according to The Nord-Deutsche Allgemeine Zeitung. They will be prepared to lay the true state of affairs before the Allied representatives, he declared, and will not go.

Poor Mr. Consumer, He's Everybody's Target. All in One Week, Too!

Mexico City Is Reported Taken by Revolutionists

El Paso, Tex., May 8.—Three state capitals in Mexico fell into the hands of revolutionists to-day through the revolt of Carranza garrisons coincidentally with an unconfirmed report given out by revolutionists here that Mexico City, capital of the republic, had been taken by General Benjamin Hill.

Saltito, capital of the state of Chihuahua, which borders on the United States, revolted late yesterday, revolutionary advices to-day said. It was announced that General J. Augustin Castro, Carranza troops at Lasvacas, across the international boundary from Del Rio, Texas, revolted, according to local rebel leaders. Coal mines and towns in Northern Coahuila were reported in the hands of the revolutionists.

"Piedras Negras, across the boundary from Eagle Pass, Texas, will fall to-morrow," the announcement said. "General Reynaldo Garza in a telegraphic communication with President Carranza asked him to resign and said he was holding Laredo notwithstanding the fact his soldiers were on the verge of joining the revolutionary movement."

All railway and telegraphic communication between Aguas Calientes, Cazatecas, Torreon and Saltito was reported cut.

Fled. El Paso, May 8.—A message received from Chihuahua said: "It has been confirmed President Carranza left the capital" for Vera Cruz.

Saltito. Eagle Pass, Tex., May 8.—Saltito, capital of the state of Coahuila, was taken over by Mexican revolutionists yesterday, according to unofficial reports received here to-day. The Federal Garrison offered no resistance, it was said. Train service was suspended south of Monclova, about 100 miles south of the border, to-day.

The cause of the suspension could not be learned.

SAN FRANCISCO CHINESE BURN UP JAPANESE IMPORTS

San Francisco, May 8.—Preceded by a parade in Chinatown in which hundreds of Chinese participated, a huge bonfire was made last night of thousands of dollars' worth of Japanese goods imported by Chinese merchants. The merchants carted the Japanese goods, including silks and other finery, from their stores to the street and with a ceremony the torch was applied.

KING AND QUEEN OF BELGIANS CROSS TO ENGLAND IN PLANE

London, May 8.—King Albert and Queen Elizabeth of Belgium came to England by aeroplane to-day. They landed at Farnborough, in Kent, after flying from Brussels in three hours and fifty-seven minutes. They will attend the wedding next Tuesday of Lady Cynthia Curzon, daughter of Earl Curzon, and Lieut. Oswald Ernald Mosley, a member of the House of Commons.

AMERICAN SAW URFA MASSACRE

Gen. Woodward Saw Hundreds of French Soldiers Killed by Turks

Aleppo, Syria, May 8.—(Associated Press)—The slaughter of the little French garrison which evacuated Urfa on a promise of safe conduct by the Turkish Nationalist troops after the town had been besieged for sixty-one days is described in a declaration of General Woodward, accountant for the American Commission for Relief in the Near East, who was an eyewitness of the massacre. He escaped and returned to Urfa after several hundred French soldiers had been killed or made prisoner by the tribesmen.

Ambushed. The French were ambushed by the tribesmen in violation of an agreement entered into by Temik Effendi, who came from Angora as the Turkish Nationalist Government's representative, the account says, and promised the Frenchmen safe conduct if they would evacuate. At that time the French had only four days' rations left, and had eaten all their horses and mules, and evacuation was considered inevitable as the garrison was greatly outnumbered by the enemy.

ITALIAN SHIP WITH GRAIN IS SEIZED BY D'ANNUNZIO

Trieste, May 8.—Capt. Gabriele d'Annunzio to-day captured the Italian steamship Baro Feljary, bound from Trieste to Catania with a cargo of grain. He sent two anti-submarine craft to make the capture, which occurred in Quarnero Bay. The captain of the ship was ordered to proceed to Fiume.

STEEL PLANT AT TORONTO TO CLOSE

Toronto, May 8.—Because the Ontario Hydro-Electric Power Commission cannot supply the amount of power wanted, the Baldwin's big steel plant on Ashbridge's Bay here will close down.

Turks Will Have Month to Consider Peace Pact

Paris, May 8.—The Council of Ambassadors to-day decided to give Turkey a month to consider the peace treaty, which will be presented to the Turkish plenipotentiaries next Tuesday.

Budapest, May 8.—The peace treaty will be submitted to the Cabinet Ministers for a final decision as to its acceptance or non-acceptance instead of being sent to the National Assembly, according to present plans. The Radical Party, led by Count Albert Apponyi, continues to oppose signing of the treaty, while the bourgeois elements are said to favor the signing so as to hasten rehabilitation of the country.

City of Kiev is in Hands of Ukrainian and Polish Troops

Loss of City to Advancing Forces Thursday Night Admitted By Bolsheviks; Troops Had Victory After Breaking Into Outskirts of Town.

London, May 8.—Polish and Ukrainian troops captured Kiev on Thursday night, according to an official statement issued at Moscow yesterday and received here by wireless.

The statement reads: "In the Kiev region during the night of May 6-7 our troops engaged superior enemy forces northwest and southwest of Kiev. Toward evening, the enemy broke into the outskirts of the town but were held up by our counter-attacks. Later our troops, in accordance with orders, started to withdraw in order to the left bank of the Dnieper River.

"In the direction of Pytaloff, our troops repulsed an enemy attack twenty miles south of Krasny. In the direction of Igumen, east of Minsk, the enemy attempted to cross the Dnieper River near the village of Bergina, but was driven back across the river."

Reports that Kiev had fallen were current in Warsaw Monday of this week, but subsequent developments showed these reports to have been erroneous.

Kiev, a city of 250,000 before the war, is the capital of the Ukraine. The town has changed hands several times during the fighting between contending groups in the Ukrainian territory and the conflict between the Denikine forces and the Bolsheviks.

Use Chinese. Warsaw, May 8.—(Associated Press)—Russian marines and Chinese troops were brought up by the Bolsheviks for the defence of Kiev, according to reports received here from the front. The marines defended the ground north of Kiev. The Chinese, the reports indicate, are being used in the front line in places.

The reinforcements sent in by the Bolsheviks, it is said, include Bolshevik Lettish troops, some of whom were captured by the Poles. The ground held by the Poles at various places in front of Kiev was taken by bayonet charges, the Bolsheviks defending the villages and (Concluded on page 4.)

FURTHER QUESTIONS ASKED OF WATSON

Prosecutor Wishes to Learn More From Los Angeles Bigamist-Murderer

Los Angeles, May 8.—James P. Watson, who stands convicted by his own plea of the murder of Nina Lee Deloney and who is alleged to have now confessed the murders of six other women whom he had married, and bigamous marriages with about a dozen others, will be taken before the district attorney again to-day for further questioning about his career of matrimony and murder.

Watson was questioned for hours yesterday and it was unofficially reported that he had added two more names to his previously confessed list of five murders.

The two were Mrs. Agnes Wilson, of Canada, and another unnamed woman. Watson said he could not remember her name, nor the particulars, more than that he had drowned both of them in Lake Washington, Seattle.

SIR ROBT. BORDEN BACK IN OTTAWA WEDNESDAY NEXT

Ottawa, May 8.—Sir Robert and Lady Borden probably will be back in Ottawa at noon on next Wednesday. They are returning from the South by easy stages.

WED DAY AFTER HUSBAND DIED

Mrs. Helen Griffin Bastedo, of Chicago, Will Receive \$9,000,000

Chicago, May 8.—Mrs. Helen Griffin Bastedo, who married Lieut.-Commander Paul Henry Bastedo last Tuesday following the death of her first husband, George Griffin, Monday, will receive Griffin's \$9,000,000 estate by the terms of his will, his attorneys announced to-day.

Mrs. Griffin died in the South Monday and the following day his widow married the naval officer at San Diego. Mrs. Griffin will be buried near Boston Monday. Mrs. Bastedo's mother will represent the widow-bride at the funeral.

VOTE ON GOLF LINKS PROJECT ON MAY 28

But Jitney Bylaw Will Not Be Ready For Electors by That Date

Victoria ratepayers will decide by ballot on Friday, May 28, whether the city will have a municipal golf links. The City Council decided yesterday afternoon. The golf referendum is now being drawn up, and preparations for the balloting are under way. "The vote, it was reported, will be held in the Public Market Building under the direction of W. W. Northcut, who has acted as returning officer in many elections.

Doubtful. The City Council had hoped that, if a by-law on the transportation problem was to be submitted at all, it would sign the referendum along with the golf referendum. This, however, will be impossible in the light of recent developments. Indeed, it is a foregone conclusion whether there will be any jitney by-law at all. The Council does not consider that the representations made to it on the subject yesterday afternoon—as reported elsewhere in this issue—are sufficient to justify the submission of a jitney by-law. If, in other words, Alderman Joseph Patrick, chairman of the Legislative Committee, which is negotiating the agreement between the city and the B. C. Electric Railway Company, observed to-day, "if a section of the public wants a referendum it had better get busy and circulate a petition asking for its submission. If a petition signed by 2,000 voters is properly prepared then there is no doubt we shall have a by-law. But, if there is nothing like a general request for a referendum, we will not be justified in spending the people's money on it uselessly."

Immediate Action. It will be impossible for the Council, as stated, to submit a jitney by-law along with the golf referendum, as no final agreement between the city and the Railway Company, it is expected, will be reached until long after May 28, the day on which the golf referendum will be taken. Some of the aldermen, headed by Alderman Sargent, wanted to have the submission of the golf referendum deferred until the contract with the B. C. Electric Company was ready. It was pointed out, however, that more immediate action on the golf question was necessary, as a nine-hole course must be established by the Fall, in accordance with an agreement with Oak Bay municipality.

## CLAIMS AMERICANS NOT GOOD EATERS

Duchess of Clermont-Tonnerre Says French Much More Discriminating

Paris, May 8.—American food as served in restaurants in that country did not favorably impress the Duchess of Clermont-Tonnerre, who visited the United States last Autumn and has written a book on her trip. The only American foods that appear to have made an appeal to the Duchess were red bananas, California apples and oranges, and "hams of Virginia."

"One must admit," she says in her book, that food in the United States is not good. Too fast. "To a Frenchman, the word 'meal' can not be applied to the boiling down of a club sandwich in five or six bites. The necessity of eating a sort of monotonous and obligatory annoyance and they are bending all endeavors toward simplifying the performance."

The Duchess says she is "unable to comprehend why an American should require less time for his whole luncheon than one of her countrymen needs merely to scan the wine list."

## GERMAN CREW GIVES SHIP TO BOLSHEVIKI

Copenhagen, May 7.—Via London, May 8.—The German steamship Schroeder has arrived at Archangel with sixty delegates of the German Independent Socialists who were smuggled aboard when the steamer left Cuxhaven April 10 for Iceland, according to a message to The Politiken from Archangel.

En route the crew is reported to have overpowered the officers, placed them in irons and made for Murmansk. The steamship has been placed at the disposal of Soviet Russia.

## FOREIGN MEDALS FOR CANADIANS

Ottawa, May 8.—The records branch of the Militia Department has just received a large number of foreign decorations for distribution among Canadian soldiers. They include awards from Italy, France, Roumania, and even from China, and nearly all are accompanied by the official certificates, bearing the account of service for which they are given.

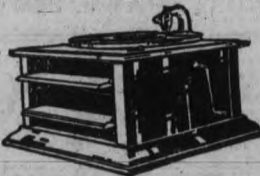

The most picturesque decoration of the entire collection is the Chinese Order of Wen-Hu.

## GOOD SEASON IN OKANAGAN VALLEY

Vancouver, May 8.—"Condition in the Okanagan Valley are good," declared R. Winslow, manager of the B. C. Traffic and Credit Association, on a visit here. "We shall not be able to tell for some time yet just how the early frosts affected the orchards, but I look for a good season. There are greatly increased plantings, which of course means more fruit. Germination and soil conditions are very good."

Facilities, Mr. Winslow added, were being increased in many districts. The Kelowna Growers' Exchange was building a cold storage plant in which 160 cars of apples could be kept. Another Kelowna firm, the Occidental Fruit Company, was putting up a storage plant capable of handling 100 cars. The Dominion Cannery was spending \$40,000 in increasing their facilities at Kelowna. The Vernon Co-operative Fruit Growers now found that their fine building, that was first used last year, was now too small and an additional 150 feet was being added to make its capacity about 400 cars.

## CONSISTORIES HELD.

Rome, May 8.—Pope Benedict yesterday held secret and semi-public consistories preceding the canonization of Joan of Arc and Marguerite Marie Alacoque. The former function was attended only by the cardinals. Numerous patriarchs, archbishops and other prelates who are gathered in Rome were present at the second consistory. The canonization will take place May 23.

## 1,000,000 RETURNS FOR INCOME TAX

Figure For Dominion Will Increase to That, Says Commissioner

Ottawa, May 8.—(Canadian Press).—With a strenuous plea that the Dominion Income Tax system in Canada was as yet in its infancy, and expressing the hope that within five years it would be second to none in the world, R. W. Bredner, Commissioner of Taxation, made a lengthy reply to many critics of the system before a meeting of the members of the Commons yesterday. The Commissioner gave some figures which created considerable surprise among those present and at the conclusion of his address was voted to have cleared the air to a considerable extent of adverse criticism levelled at his department.

About 1,000,000 persons in Canada making returns this year, he showed, as compared with half that number in 1917, when the measure was passed. The system had already won commendation from other countries, including Great Britain and the United States, and it was the ultimate aim to see that no person neglected his or her duty back from 1917. Every class in the community was being reached and there were only two classes now outside the pale of the law. These were coupon clippers and minors or fishermen who had a dozen homes in various parts of the country within a year. He hoped to see legislation passed to get the former into line, and as to the latter they might adopt a system of compelling employers to take one per cent. from the men's monthly salary, provided it went to \$100.

Mr. Bredner denied that the forms were cumbersome or that there was any discrimination. "Every person will be made to do his or her duty," he assured the meeting.

Several members strongly urged wider publicity over the system on the ground that as the people of Canada had to bear increased taxation, they wanted to know that every person liable to pay income tax was being made to do so.

## BRIEF-TILT IN ONTARIO HOUSE

Toronto, May 8.—A brief flare-up between M. M. McBride, Labor member for South Brant, and Andrew Hicks, of South Huron, United Farmers' Whip, ensued at a quiet session of the legislature in committee of supply on the Treasurer's estimates.

The incident arose when McBride protested against the speed with which items in the estimates were being passed by the committee. He expressed objections to what he termed "railroading" the items through.

"Does the member want the votes read item by item?" inquired Mr. Hicks, who was in the chair. "I want to be treated with the respect to which my position entitles me," shouted Mr. McBride. "I am going to give the House some information. The Government Whip, the member who is now in the chair, has told me that if I did not desist from expressing myself, the Labor group would not get the workmen's compensation amendments passed this session. I want to enter an emphatic protest against that kind of thing. I have been threatened before now." The incident closed there.

## Liver Trouble and Heartburn

All liver diseases of whatever character are diseases of the highest importance and demand close attention. The liver is the largest and one of the most important organs of the body. Its duty is to prepare and secrete bile, and serve as one of the filters of the body, cleansing it of all impurities and poisons. Therefore when the liver gets out of order it is the starting of trouble in nearly every part of the body.

Keep the liver active by using Milburn's Laxa-Liver Pills and you will have no heartburn, constipation, biliousness, sick or bilious headaches, dull, yellow eyes, brown blotches, sallow complexion, coated tongue, jaundice, catarrh of the stomach, or the painful protruding internal or bleeding piles.

Mrs. John Kadey, Chipman, N.E., writes:—"I have used Milburn's Laxa-Liver Pills for some time and can recommend them to any one suffering from heartburn and liver trouble. I tried other remedies, but they only relieved me for a short time. I always recommend Laxa-Liver Pills to all sufferers as I think they are a valuable remedy."

Milburn's Laxa-Liver Pills are 25c a vial at all dealers or mailed direct on receipt of price by The P. H. Milburn Co., Limited, Toronto, Ont.

## STORAGE ELEVATORS FOR POTATOES URGED

Toronto, May 8.—T. L. Kennedy, M. P. P. for Peel, has given notice of a motion calling on the Government, on account of the present high prices of foodstuffs, to take steps to remedy the situation by constructing storage elevators for potatoes.

### MOVEMENT SOUTH OF PRAIRIE MENNONITES

Ottawa, May 8.—I. E. Pedlow, of South Renfrew, asked in the Commons yesterday afternoon regarding a dispatch which had appeared in a newspaper to the effect that the Mennonites of Western Canada had decided to leave and seek a new home in the United States. Another dispatch he quoted as saying that 8,000 Mennonites were leaving Saskatchewan. He asked whether the Government had any information regarding this exodus, and if it proposed to take steps to induce this people to remain.

Sir George Foster asked Mr. Pedlow to defer pressing the question until the Minister of Immigration was in the House.

Winnipeg, May 8.—A number of the leading Mennonites of the ortho-

dox Mennonite Church, as a result of the meeting held at Rhineland Tuesday, when it was decided to transfer the colonies at present in Manitoba and Saskatchewan to Mississippi, have been appointed as a committee to proceed to the Southern State and purchase the tract of land upon which they will settle.

Ottawa, May 8.—In the Senate yesterday Senator McSweeney brought the proposed emigration from Canada of prairie Mennonites.

Senator Dandurand asked for the opinion of the Manitoba representatives on the desirability of these as citizens.

Sir James Loughheed said the Government had no information on the subject, but if these people were seeking the kind of liberty they were said to be seeking, the people of Canada would be reconciled to their departure.

### AMERICAN MONEY AND THE FAR EAST

Other Influences Will Have Better Results, Says Frank Vanderlip

Tokio, May 3.—Delayed—The best contribution of the United States to the economic readjustment of the Far East will be something more than financial engagements, said Frank Vanderlip, who is visiting Japan at the head of a commercial mission, to a correspondent of Reuter's to-day. "I feel," he declared, "there will be far more important things for the United States to do than merely to make loans, and I particularly doubt the wisdom of making loans to meet the expenses of Governments and military operations. American capital can earn a large return at home, and the needs of Europe are extreme. Therefore, the East can not expect capital to flow to it unless it offers security comparable to that offered in America and Europe as well as a comparatively attractive rate of interest."

### SAVED FROM LIFELONG MISERY

And a Dangerous Operation, by Taking "FRUIT-A-TIVES"

MRS. M. J. GORSE

3928 Union St., Vancouver, B.C. "I suffered with all the symptoms of Female Trouble, with chronic Constipation and constant Headaches. I had pains low down in the back and sides of the body. I tried various remedies without relief, and then put myself under a doctor's care and he advised me to have an operation. I refused.

Then I started taking 'Fruit-a-tives,' and from the outset I felt better, and this medicine has completely relieved me of all my misery and suffering. My weight was only 143 pounds and now it is 168 pounds. I am free of pain and headaches and the terrible Constipation; and what saved me from misery is the splendid fruit medicine, 'Fruit-a-tives.'"

MRS. M. J. GORSE.

50c. a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa, Ont.

his throat yesterday afternoon. He was the object of much interest and for a few moments in the lobby he was surrounded by photographers.

### SOME FARMERS SOLD THEIR WHEAT NOTES

Traffic in Wheat Board's Participation Certificates on Prairies

Calgary, May 8.—That a systematic campaign was conducted during the winter to relieve farmers of their wheat participation certificates for small sums and that a large number of these were sold for from two to five cents a bushel, has been revealed by a prominent man in this city in touch with the situation. These receipts were resold in some cases for twenty-five cents a bushel. Farmers antagonistic to the Wheat Board, foreigners who knew no better and farmers in the drought area who needed money were those who most readily disposed of their certificates. The reputable grain firms refused to indulge in this campaign. It is estimated that more than five per cent. of the farmers in this district sold at the lowest prices and many more sold at prices ranging up to twenty and twenty-five cents.

### RESEARCH BUREAU TO BE ESTABLISHED

Ottawa Commons Decides Dominion Needs Bureau of Scientific Research

Ottawa, May 8.—Creation of a Canadian Bureau of Scientific Research at an initial cost of \$500,000 for the site and construction and equipment of the building, and \$50,000 for the first year's salaries and upkeep, was endorsed by unanimous vote of the House of Commons yesterday. Hume Cronyn, London, laid the proposal before the House for the special committee which investigated.

The Industrial Disputes Act and the Franchise Bill are on the order paper for Monday.

As a result of a caucus held yesterday afternoon by the National Progressive Party, it is believed that support will be given by the party to the Euler amendment to the Franchise Bill which seeks to relieve wives of naturalized aliens from appearing before a judge to obtain a certificate of franchise for Dominion elections.

Yesterday's was the first caucus attended by Hon. T. A. Cresser, leader of the party, in six weeks, and he was warmly welcomed. Sub-committees were appointed to deal with various phases of the budget debate, and they will report back to a further caucus fixed for Tuesday.

### IMMIGRATION BILL IN OTTAWA SENATE

Ottawa, May 8.—(Canadian Press).—Hon. Gideon Robertson's bill repealing a number of the deportation clauses of the Immigration Act aroused strong opposition in the Senate yesterday, and after considerable discussion, the bill was laid over until after the Senate adjourned.

A number of Senators expressed strong antagonism to any relaxation of control over British citizens who came to Canada and challenged constitutional authority.

### PRINCE OF WALES MAY VISIT JAPAN

Honolulu, May 8.—The Prince of Wales is expected to visit Japan next year, according to a Tokio message to The Nippon Jiji, Japanese vernacular newspaper here. The cable added that on the tour he would visit India and also Australia for a second time.

### BIG GERMAN WORD Baffles Experts

Los Angeles, May 8.—Linguists in the probate department of the county clerk's office here yesterday acknowledged themselves unable to translate the following word, which they found in a letter from Germany about an estate: "Erbauseinandersetzungverfahreineinzelliclit."

### Night Coughs Prevent Sleep WEAR OUT THE SYSTEM

The dry, hacking cough, cough, day and night is very wearing on the system. The constant coughing disturbs the rest and keeps the lungs and bronchial tubes in such an irritated and inflamed condition they get no chance to heal.

You will find in Dr. Wood's Norway Pine Syrup a remedy without an equal for curing coughs and colds, soothing the lungs, loosening the phlegm, strengthening and healing the breathing organs and fortifying them against serious pulmonary disease.

Mrs. Fred Fairburn, Copper Cliff, Ont., writes: "I caught a heavy cold, got a sore throat and had a terrible hacking cough that I could not get rid of. I could not sleep at night. I had tried quite a few remedies, but they did not seem to do much good until I took Dr. Wood's Norway Pine Syrup. By the time I had taken two bottles my cough was all gone. It seemed to loosen the cough right away so that I could spit up the phlegm that gathered in my throat, and also took that hot, raw, burning fever out of my bronchial tubes. I feel that Dr. Wood's has no equal."

Price 25c. and 50c., at all dealers. Put up only by The T. Milburn Co., Limited, Toronto, Ont.

allowed to the Hungarian peace delegation in which to consider the reply of the Allies to the Hungarian objections to the peace treaty.

# The Actual Strength

WOOD—JOHNSON—HOOVER—McADOO—WILSON—BRYAN—COX—EDWARDS—LOWDEN

And the Other Presidential Candidates Is Clearly Shown

## In "The Digest's" Mammoth Poll Of 11,000,000 Voters,

These are from fifty to sixty thousand votes being received daily in THE LITERARY DIGEST'S great presidential poll of 11,000,000 voters. As the vote grows and all sections of the country begin to be represented, a number of editors comment on the really popular expression of opinion which these ballots represent. The Troy Record makes the interesting suggestion that by means of such polls "it may be possible for the people to shake themselves free from paid publicity and artificially stimulated candidacies and indicate the men they want to that class of representatives who really want to know." In trade and labor circles, in political clubs, in fact wherever men and women congregate throughout the country, THE LITERARY DIGEST poll is arousing the most intense interest, as is evidenced by our daily mail.

More than 700,000 votes are tabulated and shown in THE LITERARY DIGEST for May 8th. When it is remembered that eleven million voters, almost two-thirds of the vote cast in the last presidential election, are being canvassed some idea of the magnitude of the enterprise will be gained. Every ballot is mailed in an envelope, and delivered through the U. S. Post Office personally to the voter address. Return postage on the ballot is prepaid, and the voter has only to check or write the name of his or her party and the first and second choice for Presidential candidates. Thus every vote cast is absolutely a secret ballot.

If you are not following this unique poll through the pages of THE DIGEST weekly begin to do so this week. Other important articles in this number of THE DIGEST are:

## WHAT THE GENERAL SAID.

Brigadier-General McLean disclaims the slightest intention of disparaging any individual or suggesting class distinction in his recent remark during the sitting of the Pensions Committee of the House of Commons to which wide-spread exception was taken and which prompted Colonel Peck and Colonel Cooper to retire from the Committee. He quotes from the stenographer's notes to show that what he actually said was that "most of the private soldiers who married servant girls were in that class who were earning their living before."

Strictly interpreted this remark refers chiefly to privates and not to their wives, since it states that "those who married servant girls were in that class who were earning their own living before." This, however, is so obvious that it is clearly not what the General meant, so let us assume that he intended to say that the servant girls who married private soldiers "were in that class who were earning their own living before." But it is also so obvious that servant girls who married soldiers "were in a class who were earning their own living before" that it was wholly unnecessary for the General to mention it.

The General certainly was unfortunate in his use of language, particularly in his mention of servant girls, since there was no more occasion to refer to them as a type of women earning their own living than there was to any of the other numerous callings in which that sex is represented. It was the implication of class distinction in the first version of the General's remark which provoked most of the criticism, and the Canadian public will be glad to learn that no basis for such an impression was intended in General McLean's statement.

There is no room for social subdivisions of that kind in Canada and perhaps it is well that the incident in the Pensions Committee occurred to lend emphasis to this fact. It is the hostility of Canadian sentiment to the idea of class limitations and restrictions which underlay the resolution against the bestowal of titles upon residents of Canada which was passed by Parliament last year.

## DR. TOLMIE'S WAY.

An Ottawa Citizen pays the following compliment to Dr. Tolmie:

"Dr. Tolmie, Minister of Agriculture, evidently believes in treating the House of Commons as something more than a rubber stamp for the Cabinet. Last week, before presenting a certain agricultural bill to the House, namely an Act to regulate the sale and inspection of commercial feeding stuffs, he discussed it with the Committee on Agriculture. The Minister and the parliamentary committee together went over the bill clause by clause, so that the practical experience of members might be utilized in the preparing of an Act of Parliament. The remarkable thing about this mode of procedure is that it should be remarked upon as unusual; but the general practice of Cabinet Ministers has been to introduce new bills to the House without condescending to ask the opinion of private members in any committee about it. Government followers have been expected simply to put their stamp of approval upon it; opposition members could swallow it, or kick, as they pleased. The new Minister should be commended in breaking away from a bureaucratic tradition of Cabinet Government, and consulting the members."

Dr. Tolmie is more concerned in getting things done than in the observation of sacrosanct precedent. He is not afraid to introduce innovations if they will help him to make his Department as effective an agency for the promotion of Canada's agricultural development as he wants, and intends, it to be.

## THE SPLIT WIDENS.

Independent Liberalism in Great Britain is losing no single opportunity to impress upon the people of the country its determination to have nothing to do with the coalition form of Government. At the National Liberal Federation conference in Leamington yesterday the split between the Liberal-Coalitionist and the followers of ex-Premier Asquith was very considerably widened, and supporters of the present Prime Minister left the gathering amid a literal holocaust of verbal bombardment from those now known as "wee frees."

Yesterday's assembly was the final test and the tumult with which the proceedings were punctuated suggests that the Asquithian wing has made up its mind to sink or swim by clinging to the official spar of the party whose recent return to Westminster for Paisley was heralded by the independent section as the precursor of a complete rehabilitation of old Liberalism under its logical chief. But the independents fail to appreciate the fact that the war and the changed minds of people have created resentment against indecision, a policy for which Mr. Asquith was very largely responsible during the early stages of the recent conflict and by which he is remembered by the electorate.

Political judgment, the ex-Premier very probably has learned by this time, takes little stock in the general good record of a party leader; his latest failing, no matter how trivial,

more often than not decides his fate. Although he made mistakes, therefore, it is the insistent fact that Mr. Lloyd George stirred the nation to its gigantic war effort, and did much to obtain final Allied victory that will retain for him a dominant position in the political life of Britain for some time to come.

## PARLIAMENTARY INDEMNITIES.

It is quite likely the sessional indemnities of members of Parliament will be increased this year. They are now \$2,500 and however adequate this amount may have been a few years ago it is considerably short of present requirements. The American Congressman received \$7,500 a year and, we think, an allowance for clerical help. It is true he is operating in a bigger field and is required to spend more time at Washington than the Canadian member has to spend at Ottawa, but the difference is not worth \$5,000. Further, we are quite sure the demands—let us call them "overhead" charges—upon the pocket of the American Congressmen are no greater than those which must be met by the Canadian member of Parliament. His name must be on virtually every subscription list presented to him and well to the fore at that. He must assist his party's political activities, contribute to the building fund of the new hall or help to furnish the party headquarters; sometimes he has to pay his party's debts or suffer the consequences at the next election. As things are now it is impossible for anyone not possessed of independent means, especially if he comes from any considerable distance, to get along at Ottawa on \$2,500 a year. This is not a healthy condition for the public life of the country since much of the best ability of Canada lies in those who have not independent means, and therefore cannot be devoted to the public service.

## NOTE AND COMMENT

Gabriele d'Annunzio would be well advised to end the farce in which his particular brand of national aspiration has involved him. The outbreak of mutiny among his own followers yesterday would indicate that all is not well with this remarkable expedition.

According to a dispatch from Australia the entry into the Commonwealth of a United States pamphlet entitled "Bond Certificate for the First Loan of the Elected Government of the Republic of Ireland" has been prohibited. The Federal Government apparently needs no instruction in the matter of dealing with the type of propaganda upon which de Valera is depending to reach the presidential chair of Erin's Isle.

Fortunately for Victoria there is to be no police court proceedings against its Mayor, who is alleged to have committed the heinous offence of "winking" at a recent raffle held in the city in contravention of the law. Now that the mysterious charge against His Worship is out it is to be hoped that the City Council will allow itself to be further stampeded into wasting time over such nonsense.

The Federal Member for South Renfrew is concerned about the exodus from this country to the United States of a few thousand Menonites. He asked in the House of Commons if something was not being done to induce them to remain. Our reply would be to the effect that Canada had no room for people who never intended to satisfy the fundamental requirements of Canadian citizenship.

An excerpt from a letter from a New York firm to the Board of Trade at Regina reads as follows: "Sir, we would like to get in touch with a firm in Regina to handle our goods . . . as Canada helped the United States to win the war." Blessed are the meek!

If a single paying mine is discovered and developed as a result of the policy of the Minister of Mines in assisting returning soldier prospectors the scheme will have had ample justification. We shall be very much surprised, however, if the results of the Minister's courageous course are not very much more impressive than this, for our mineral resources have been only partially developed and their future will depend more upon well directed and intelligent prospecting than upon anything else.

Mr. Carter's illuminating address before the Board of Trade yesterday reminds us that half the human race live on the other side of the Pacific with trade possibilities of unimaginable extent and variety.

## OTHER NEWSPAPERS' VIEWS.

**CANADA AT WASHINGTON.**  
(New York Times.)  
Canada carried on the war brilliantly on her own hook. Her representatives were among the signers of the Treaty of Versailles. She will not be content with a less personal and immediate management of her everyday business with the United States. There is little doubt that the British Government will agree to a Canadian plan of diplomatic representation at Washington. Ottawa and Downing Street have been conversing on the matter. Perhaps it may be assumed that Great Britain will consent that the Canadian representative at Washington shall have direct charge of matters immediately relating to Canada and the United States and would merely ask that when those matters are of imperial interest the Canadian representative act with the British Ambassador.

**WHAT IS A PIKER?**  
(From The Worcester Telegram.)  
In these days of extravagance the answer propounded to the question, "What is a piker?" by a former member of the Stock Exchange deserves consideration as well as attention. The answer came after a moment's deliberation and reflection and was:  
"A piker is a man who lives within his income."  
Like similar answers, it has, beneath its light-heartedness, material for thoughtful consideration.

**AND FRANCE?**  
(From The Chicago Daily News.)  
At present the only two nations at war with Germany are the United States and Germany.

## D. C. COLEMAN HAS RETURNED TO CITY

C. P. R. Vice-President Is Now Head of Kettle Valley Railway

An excellent prospect for the prairie farmers this year is forecast by D. C. Coleman, vice-president of the Western Lines of the C. P. R. system and newly-appointed president of the Kettle Valley Railway of British Columbia, who has just rejoined Mrs. Coleman here for the purpose of a visit to Victoria.

Discussing the grain prospects for the coming harvest, Mr. Coleman said:  
"The season is exceptionally late. Horses on which the farmers rely have come through the winter in poor condition owing to shortage of feed. The result is that the acreage in wheat will be less than it otherwise would."

"On the other hand, coarse grains have increased and conditions in respect to moisture are better than at any other time in the past five years."

"It is too early yet to make any prophecy of the crop, but the Spring indications are for a total yield above normal, and a very exceptional crop of coarse grains."

"The shortage is felt everywhere and Western Canada," says Mr. Coleman, "and the lumber business on the prairies is experiencing a temporary lull owing to the policy of the Federal Reserve banks of the United States in restricting advances for investment."

"It seems to me," he added, "that there is bound to be an immense legitimate demand for lumber for many years to come and British Columbia, owing to its immense resources of timber, is bound to receive the benefit of that demand."

## VICTORIA GUNNERS FORM ASSOCIATION

Committee Named to Draft Bylaws and Constitution; Arrange Social Function

As the outcome of a meeting held in the British Camp "rooms" last evening the Victoria Gunners' Association was formed. The only qualifications for membership in the new organization will be that the applicant must have seen overseas service.

Major W. B. Shaw, presided over the gathering. After considerable discussion it was decided to form the association and a committee consisting of the chairman, Capt. Aitken, F. Hatcher, F. W. Moulton and Major McDonald was appointed to draft a constitution and by-laws. A second committee, consisting of Major McDonald, Major Crockett, Capt. Robertson, E. L. Fawcett and Major Goodeve was appointed to arrange details for a dinner or social gathering in the near future.

Major Robertson, D. S. O., the new O. C. of the Fifth Regiment, gave a short address, and outlined the work which he had been assigned. His duty, he had been told, would be to take over the unit as a completely new unit. He had a clean slate with respect to officers and non-commissioned officers, and his recommendations in this direction would be sent down to Ottawa in due course.

In order to find out how many men would line up with the new Fifth Major Robertson expressed the hope that everyone interested in the reorganization scheme would communicate with him, giving names, addresses, and a full history of their service. Those who anticipated some announcement of the officers within the next few days were quickly disillusioned when Major Robertson stated that it would be a few weeks at least before he could get even his register made up to the point wanted

prior to the selection of his officers. There would undoubtedly be more applicants than there would be vacancies, he thought. In the reorganization scheme it would make little difference whether a man had been in the regiment before or not; but, everything else being equal, he would, of course, prefer men who had been interested in the artillery before the war to men who had not been. But the fact that a man had served in the war should count before everything.

## COMRADES DECORATE PAST PRESIDENTS

Messrs. McKenzie and Abrahams Given Gold Badges For Services

Following up action taken some time last year to the effect that past presidents be accorded a gold badge for their valuable services, the Comrades of the Great War last night presented Comrades J. MacKenzie and F. Abrahams with a gold badge each. The proud recipients of the decoration made neat little speeches protesting their pride in the occasion, and were fittingly received by the gathering.

Although a short session, much business was covered at the meeting, amongst which was to order a night letter to Sir George Foster protesting against the remarks of Bdgr. Gen. McLean, of the Pensions Committee. Comrade McNicol made a report on the Cholberg Company from the employment view-point, and Messrs. Peace, Whittingham, and Chitty were appointed committeemen to interview the company.

J. B. Clearhugh addressed the gathering on the aims and objects of the Returned Professional and Business Men's Association, and was cordially received. A donation of \$15 was accorded to the Boy Scout Association.

## VICE-PRESIDENT EXPLAINS ATTITUDE OF C.P.R. ON DISPUTE

(Continued from page 1.)

and the steamship, in conjunction with the Princess Victoria, is continuing to give the usual service on the triangular route. The dispute during debate on the Government's foreign policy and prevented the taking of a vote of confidence in Premier Nitti's Cabinet.

Negotiations conducted by the Premier at the San Remo Allied Conference, especially regarding the Adriatic question, were made the basis for sharp criticism by a number of Deputies. The attack gradually changed into criticism of the whole policy of the Government.

The Socialist members nearly came to blows with neighboring groups and the session became so disorderly that it was adjourned by Signor Orlando, former Premier and President of the Chamber. Premier Nitti made a brief address, insisting his course was approved by a majority of the members.

## CITY OF KIEV IS IN HANDS OF UKRAINIAN AND POLISH TROOPS

(Continued from page 1.)  
The entrenchments on the hills until they were killed or taken prisoner. Crossed River.  
Warsaw, May 7.—Via London, April 8.—(Associated Press).—Pushing northwards towards the Dnieper, the Poles and Ukrainians to-day crossed the Bzpr River and captured Bialatserkiev, forty miles south of Kiev, and Rokitna. The drive began in the Skvira region, continuing eastward and then northeasterly as part of the encircling movement about Kiev.  
Bialatserkiev was the Polish gateway during the Tartar invasions.

## TOLMIE ASSOCIATION ELECTS OFFICIALS

At a meeting of the Parent Teachers' Association at the Tolmie School last night Commissioner James Owens was elected president, with Mrs. Wright, vice-president. The position of secretary-treasurer was given to Miss Bean.

An interesting feature of the meeting was an address by Harold C. Cross, Boys' Work Secretary of the Y. M. C. A., who talked on "Organized Play." Mr. Cross is making a lecture tour of the district speaking on boys' work generally.

A discussion followed on the question of improving the state of the school grounds at Tolmie School at present unfit for any organized play

on account of poor condition and lack of space.  
A resolution was endorsed asking the Saanich School Board to put the ground in shape, and approach the Council to see that additional grounds be bought.  
The question of the salary of the teaching staff of Saanich schools was also touched, the members of the Association agreeing that they could not expect underpaid teachers to give their best effort to the schools.  
Miss Wood contributed several songs that were much appreciated.

**LIEUT. BROWN NAMED AS COMMISSIONER**

Will Assume Important Duties in the East Immediately

Appointment of Lieut. Loren L. Brown, M.C., to the position of Provincial Lumber Commissioner for Eastern Canada, in succession to Major Brechin, who recently resigned, is announced by the Forest Branch of the Lands Department.

Mr. Brown at present is superintendent of the Dominion Forest Products Laboratory, attached to the University of British Columbia, and he is possessed of valuable technical knowledge of all phases of the lumber industry and building trades. He is a graduate civil engineer with the degree of B.Sc. and an associate member of the Engineering Institute of Canada. Not only has he made a special study of British Columbia woods, but he also had had practical experience in a number of lumber mills, and under the former Government was superintendent of important building construction in the Province.

When the war started Mr. Brown was attending McGill University, Montreal, and he enlisted as a private in the Spring of 1915. After his arrival in France, in the Fall, he transferred to the Canadian Engineers and, in appreciation of his excellent work he was given a commission in May, 1916. For his work with the First Canadian Tunnelling Company he was awarded the Military Cross in June of the following year. Later he was wounded and gassed, and in June, 1918, he was discharged as unfit for further military service.

Mr. Brown is thirty-three years of age. His wife is a native daughter of Victoria, Miss Hazel Jaeger, daughter of the late Capt. Jaeger.

The new commissioner will leave for the East to assume his new duties immediately.

**RETURNED MEN WANT TWENTY OTHERS FOR AREA**

Two returned men, Robert Murray and P. C. Gibson, have returned from the Kootenay district after inspecting prospective soldier settlements in the interior. They report an exceptionally good proposition as being available in Fire Valley.

The area consists of approximately 1,000 acres of rich bottom land, of which nearly four hundred acres have been cleared, with the balance easy to slash. The growth is so light that it is possible to put a plough through the slashed land with a gasoline tractor. The clearing already done makes the sub-division of the property into forty-acre plots extremely practical as each one of the twenty-four prospective settlers would get an adequate tract of cleared land along with the uncles.

The soil is of the very best quality, with no weeds, land or stones. The valley is admirably adapted for dairying, and fruit growing can be carried on with as much success as in the Okanagan Valley or at Creston. Higher up the valley the land is heavily timbered, and an excellent opportunity is afforded for logging, with a good market for logs when taken down the river to the Arrow Lakes.

The area is the most satisfactory one discovered out of the large number of places visited and every effort will be made to induce the Soldier Settlement Board to inspect the area at an early date so that settlement may be effected at an early date.

Twenty men are required to make up the required number and full information will be given to interested parties by Robt. Murray, 2709 Avebury Avenue, or F. E. Gibson, 1331 Esquimalt Road.

**TUXIS BOYS AND TRAIL RANGERS BY FIRELIGHTER BELMONT BOYS.**

On Thursday last the boys of the Belmont Sunday School organized a Trail Ranger Group, and called themselves the "Huskies." During the meeting the following officers were elected: Chief Ranger, Randolph Tervo, Sub-Chief Ranger, Lionel Huxtable, Tally, Franklin Levers.

Some ten members were initiated into the club, and all the boys displayed a keen interest in the proceedings. They are at present organizing a baseball team, and are going to compete in the Trail Ranger Baseball League. As soon as possible they will take up the tests for badges, as offered in their programme.

Other activities for the Summer are being planned, and the Huskies are looking forward to a lively time.

**National Athletics.**

The local boys who made the highest records in the National Athletic Contest were as follows: Harold Edwards, Metropolitan S. S., 441 points; Ben McMillen, Reformed Episcopal, 412 points; K. Aylard, Reformed Episcopal, 341 points; Harry Nelems, Reformed Episcopal, 321 points.

Next year it is hoped that a much larger number of boys' classes will represent Victoria.

**Baseball Leagues.**

It has been decided to form two Baseball Leagues for Boys' Sunday School classes, one for boys under 15, and one for boys under 18 years. The following Sunday Schools expect to enter teams: Belmont, First Presbyterian, James Bay, St. Andrews, Oaklands, Reformed Episcopal and others are taking the matter up. A meeting to organize the two leagues will be held in the Y.M.C.A. on Tuesday evening next, at 7:30 o'clock. The leagues will probably run till the end of June. Classes are requested to take up this matter at once, and appoint representatives to Tuesday's meeting.

"And now, gentlemen," piped the orator, "I just wish to tax your memory."

"Good heavens!" exclaimed one of the audience, "has it come to that?"

### A BEDTIME STORY

UNCLE WIGGILY AND JACKIE'S HOUSE.

By HOWARD R. GARIS.  
Copyright, 1920, by The McClure Newspaper Syndicate

Uncle Wiggily was hopping home through the woods one day, with a cabbage cutter knife he had bought for Nurse Jane, when, all of a sudden, he met Jackie Boy Wow, the puppy dog boy. And just then there was a rustling in the bushes and a growly-growly sort of a voice boomed out from behind a sassafras bush and Jackie cried:

"Come on, Uncle Wiggily! Run! I guess this is an adventure, and it isn't a very nice one either."  
Uncle Wiggily gave one look back over his shoulder and cried:

"I should say not! The skillery-scillery alligator is after us. Oh, Jackie! How shall we ever get away?"

"You can't get away!" growled the skillery-scillery alligator with the double-jointed tail.

"Well, we can try!" barked Jackie, as he caught hold of Uncle Wiggily's paw in his own. "I'll help you run, and we can hide away from the alligator in my house."  
"In your house?" panted Uncle Wiggily. "Why your kennel house is far, far from here Jackie. We'll never get there before the alligator catches us."  
"Oh, I don't mean the house where I live," barked Jackie. "I mean a play house that my brother Peetie and I built in a hollow log in the woods. It isn't far from here. You and I can crawl in the hollow log and high away from the skillery-scillery."

"Come on, Uncle Wiggily! Run! I guess this is an adventure, and it isn't a very nice one either."  
Uncle Wiggily gave one look back over his shoulder and cried:

"I should say not! The skillery-scillery alligator is after us. Oh, Jackie! How shall we ever get away?"

"You can't get away!" growled the skillery-scillery alligator with the double-jointed tail.

"Well, we can try!" barked Jackie, as he caught hold of Uncle Wiggily's paw in his own. "I'll help you run, and we can hide away from the alligator in my house."  
"In your house?" panted Uncle Wiggily. "Why your kennel house is far, far from here Jackie. We'll never get there before the alligator catches us."  
"Oh, I don't mean the house where I live," barked Jackie. "I mean a play house that my brother Peetie and I built in a hollow log in the woods. It isn't far from here. You and I can crawl in the hollow log and high away from the skillery-scillery."

Just then there was a rustling in the bushes.  
Uncle Wiggily and Jackie ran on as

### ANNUAL MEETING OF COLUMBIAN WOMEN

The Columbian Diocesan branch of the Women's Auxiliary to the Anglican Church will hold their sixteenth annual meeting at Christ Church Cathedral schoolroom on May 13, 14 and 15. Many delegates from all over Vancouver Island are expected to attend the sessions, and many matters of importance to church women will be considered on the agenda.

The complete programme of the sessions follows:

Thursday, May 13.

10 a.m.—Holy Communion and presentation of thank offering; celebrant, the Dean of Columbia; sermon by the Dean.

11.15 a.m.—Roll call; minutes of last annual meeting; address of welcome to visiting delegates, Mrs. Luxton; reply, Mrs. Lischlager, Duncan; announcements; greetings; diocesan officers' reports, recording secretary, treasurer, corresponding secretary and leaflet secretary; distribution of ballots; reports continued, church emb. secretary; Columbia Coast Mission; prayer partner secretary; hymn No. 182.

1 p.m.—Luncheon at Y. W. C. A., Yates Street.

2.15 p.m.—Hymn No. 184; prayers, Mrs. Quantin; president's address; reports, Dio. Dorcas Sec. Organizing Sec., Literature Sec., Construction Camp Sec., Girls' and Candidates' Sec., Dio. Junior Sec., Babies' Branch Sec., Extra Cent. a Day Sec., Oriental Sec., United Thank Offering Sec. and Leaflet Editor; address, "The Meaning of Social Service Work and Linking-up of the W. A.," by Rev. H. T. Archibald; statement of appeals accepted by the Dominion Board for 1920; statement of ballots to be voted on; hymn No. 624.

Friday, May 14.

10 a.m.—Hymn 410; prayers by the president; Bible reading, Mrs. Hartley; silent St. Matthias W. A.; minutes of previous day; general report of city branches; address on "The Origin and Work of the W. A.," Mrs. Dickson; reports of out-of-town branches.

12 noon—Devotional address, Rev. F. A. P. Chadwick; hymn No. 495; collection for appeals; announcements; correspondence.

1 p.m.—Luncheon at Y. W. C. A.

2.15 p.m.—Hymn No. 299; prayers, Mrs. Hiscok; voting on balance of various funds; the pledge for next year; best methods for carrying on the work of the Forward Movement; discussion opened by Mrs. P. Goepel, and followed up by other branches; resolutions; question box; result of election of diocesan officers; address, "Sunday School by Post," by Rev. H. T. Archibald; paper, "Rural Sunday Schools," by Miss Marjory Littler; unfinished business; concluding address, the Dean; hymn No. 318.

FAVORS COBBLE HILL.

The Shawngnan Lake Women's Institute met on Friday afternoon. The members had an interesting discussion on the advisability of establishing a "Health Centre." The majority were of the opinion that the Cobble Hill would be the most convenient and central for Cowichan and Shawngnan.

Mrs. Roney gave a demonstration of cake making, and was heartily thanked for her kindness and helpful hints.

Local Council of Women.—Owing to a misunderstanding in the arrangements for the use of Room 292, Union Bank Building, the Local Council will be unable to meet there on Monday afternoon. The council will therefore hold its meeting in the I. O. D. E. headquarters in the Jones Building.

The natives of the Andaman Islands, Bay of Bengal, average three feet in height and weigh under seventy pounds.

fast as they could, and the bad alligator crawled after them, but the bunnny gentleman and the puppy dog boy managed to get to the hollow log first.

"You crawl in first, and I'll crawl in after you, Uncle Wiggily," said Jackie. Then the bunnny gentleman tucked his red, white and blue striped rheumatism crutch under his paw and crawled into the log. Jackie crawled after him and there the two hid.

They could hear the alligator come up and they heard him stop. Then the bad chap spoke and said:

"Well, I saw them here a minute ago, but they have disappeared. I guess they must have run on. But I'll catch them."  
Then the alligator ran on and, after a while, Uncle Wiggily said:

"I guess we can go now, Jackie."  
"I guess so," agreed the doggie boy. But, alas! When he went to crawl out backward into the log, he was stuck fast in the log.

"What's the matter?" asked Uncle Wiggily. "Can't you back out, Jackie?"  
"No," answered the doggie chap. "I can't. You had better crawl out of your end."  
Uncle Wiggily tried, but he couldn't. He was stuck fast too.

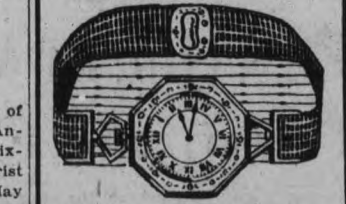

"Oh, shall we have to stay in my log play house forever?" barked Jackie.

"No, I can make a hole in the side with Nurse Jane's cabbage cutter," said Uncle Wiggily, and this he did. Then he and Jackie crawled out. And the alligator had no sense that day.

And if the June bug doesn't ring the front door bell and make the ash can believe he's a rug man, I'll tell you next about Uncle Wiggily and Lulu's shoes.

### MISSIONARY SOCIETY ELECTS OFFICERS

Methodist Missionary Convention Comes to Successful End

Yesterday was brought to a close the 29th annual convention of the Women's Missionary Society of the Methodist Church of British Columbia. This convention has been a decided success spiritually, numerically and financially.

Mrs. E. Abell of this city, was again elected as the District Superintendent. The secretary's report showed that the Society has done wonderful work during the year, having more than achieved its objective, both in numbers and financial matters. The session was taken up chiefly with the election of officers for the ensuing term, which were appointed as under:

President, Mrs. W. J. Sippell, Vancouver; vice-president, Mrs. F. Adams, Victoria; second vice, Mrs. N. Miller, Vancouver; third vice, Mrs. F. C. McDonald, New Westminster; recording secretary, Mrs. McDuffee, Vancouver; corresponding secretary, Mrs. C. A. Wickens, Vancouver; treasurer, Mrs. H. M. Derbyshire, Vancouver; superintendent of Christian Stewardship, Mrs. Lewis, Vancouver; secretary-treasurer of supply committee, Mrs. A. E. Bolton, Vancouver; secretary department of strangers, Miss K. Nixon, Vancouver; corresponding secretary for circles, Mrs. McIntyre, Victoria; corresponding secretary for band, Mrs. A. E. Bruce, New Westminster; treasurer for circles and bands, Miss M. Cookman, Vancouver; assistant superintendent Christian Stewardship, circles and bands, Miss Clara Todd, Vancouver; auditor, Mrs. Casselman.

### MAKE PRESENTATION TO S. S. SUPERINTENDENT

At the home of Mr. and Mrs. W. H. Spofford last evening a very enjoyable staff of the first Baptist Sunday School, together with the Brotherhood and Adult Bible Classes, met in a social way to take the opportunity of bidding farewell to Miss C. B. MacGregor, the superintendent of the primary department, who will shortly leave to make her home in Seattle.

During the evening an address of appreciation was read by Mrs. R. George, the assistant superintendent, and the superintendent, Dr. W. Russell, on behalf of the school, presented Miss MacGregor with a beautiful oak and silver serving tray suitably engraved.

After an impromptu programme and the serving of delicious refreshments by the hostess, to whom a formal vote of thanks was tendered, the singing of "Auld Lang Syne" and "Blest Be the Tie That Binds" terminated the happy gathering.

Literary Matron—"What does Shakespeare mean by his frequent use of the phrase 'Go to?'" Matter-of-fact Husband—"Well, perhaps he thought it wouldn't be polite or proper to finish the sentence."

### COLLISHAW CHAPTER HELPS NANAIMO PUBLIC LIBRARY

Nanaimo, May 8.—Among the objects which the Collishaw Chapter, I. O. D. E., has undertaken to assist this year, is the Public Library, and bearing this end in view, a very successful tea was held at the home of the regent, Miss S. E. Hardy, Machelary Street, Wednesday afternoon.

Each guest was asked to bring as her contribution, one or more books, while all the members of the Chapter were asked to send books if they could not attend in person. So successful was the affair that almost one hundred volumes were contributed, and these will in due course be handed over to the library.

Nearly fifty guests were present during the afternoon, the decorations of the rooms which were carried out with chery and dogwood blossoms being much admired.

The total number of volumes issued by the Nanaimo Free Public Library for the three months ending April 30, was 3,337. This was made up of 1,087 juvenile books, 1,809 adult fiction, and 441 adult non-fiction. The Library Board of Management have requested the Victoria Library Commissioner to send up a further selection of books in the juvenile and adult non-fiction sections, as the heavy demand for these has occasionally left those shelves rather bare.

He—"If you had two wishes come true, what would you wish for?" She—"Well, I'd wish for a husband." He—"That's only one." She—"I'd save the other wish until I saw how he turned out."

### PROHIBITIONISTS

#### PLAN WARD DRIVE

Series of Meetings Set; No Further Importations

The ward meetings, in connection with the proposed drive for the prohibition referendum next August, will commence next week, at the dates and places named below:  
Ward 1, Monday, 8 p. m.—Social Hall, Victoria West Methodist Church. Convener, A. J. Daniel.  
Ward 2, Tuesday, 8 p. m.—Centennial Methodist Schoolroom. Convener, C. Harris.  
Ward 3, Tuesday, 8 p. m.—Schoolroom of the Emmanuel Baptist Church, Gladstone and Fernwood. Convener, J. M. Campbell.  
Ward 5, Monday, May 10, 8 p. m.—James Bay Methodist Church. Convener, F. W. Davey.  
The organizers of this series are asking that all churches, young peoples' societies, brotherhoods, temperance societies and private citizens desirous of a sober Canada, and in favor of giving the present amended British Columbia Prohibition Act a fair trial—attend the meetings.  
In reference to the above drive it is interesting to note that after Monday next no liquor may be imported into British Columbia from Alberta warehouses. This follows from the action taken by the Alberta Legislature in closing the warehouses from that date. The prohibitionists hold that importation into the Province was one of the chief reasons for the failure of the Prohibition Act.

### INDIAN SET FREE

Charge Against Simon John of Breaking Into Chief Lazar's House Falls

Simon John, held for breaking into the house of Chief Lazar, of the Sooke Indians, where there was \$1,000 cash in a trunk, defended at night only by the chief's little daughter with two other little girl children, was given his liberty by Judge Lammiman in the County Court to-day. The chief's daughter, Mary, swore she repulsed Simon on the run with only an empty shotgun.  
The judge said that the evidence against Simon John was not strong enough to convict him.  
"Are you a Christian?" the judge asked Chief Lazar when he entered the box.  
"Oh yes, I go to church sometimes when the priest comes down," replied the chief.  
"Do you believe in a future state of rewards and punishments?"  
"I don't understand that."  
"You don't like Simon John?" asked D. S. Tait, defending Simon John.  
"No, I don't like him," replied the chief.  
Mr. Tait said that Chief Lazar and the father of Simon John were old enemies.  
"I am not going to talk about that, that is a long time ago," replied the chief.  
"The trouble is that Simon all the time says you are not chief," said Mr. Tait. The chief admitted that

### DOG CRUSADE PROCEEDS

Mayor Announces Clean Up of Beacon Hill Park Set For Next Week

The crusade against Victoria's stray dogs has commenced in earnest, Mayor Porter, as the only member of the City Pound Committee, announced to-day. "The new pound-keeper has started right in to clean up the town," his Worship stated with evident satisfaction.  
"So far as I mentioned, we have captured a goodly number of dogs, but we have done better than that. Officials have visited the houses of dog owners, who so far have failed to provide their pets with tags and have forced them to come through. In some cases, I am informed, they visited owners when their dogs were in the neighborhood and, of course, the dogs might be packed away in the pound wagon forthwith.  
Special attention will be given stray dogs in Beacon Hill Park.

### OBITUARY RECORD

The funeral took place on Thursday of Anne Belmore Morase, whose death took place Monday at the home of her son, Captain George Morase, skipper of the tug Joyful, Comox. Interment took place in the Anglican cemetery at Sandwick. Mrs. Morase was seventy-four years of age, and one of the oldest pioneers of Victoria. Born in Cape Town in 1846, she came to live in British Columbia in 1860. Mrs. Morase camped at the foot of what is now Johnson Street with her parents, until they could build a home of their own. Her husband died twenty-four years ago, while the family was living on Salt Spring Island. Mrs. Morase has thirteen children, of whom seven are still living. They are L. W. Morase, of Vancouver, J. E. Morase, of Port Simpson, J. H. Morase, of Port Eslington, and Captain George Morase, of Comox. While three daughters are Mrs. L. Harris, of Coquitlam, Mrs. R. Lemeyer, of Vancouver, and Mrs. W. C. White, of Port Eslington.

The funeral of the late Mrs. Martha McConnell took place at 8.30 this morning from the B. C. Funeral Chapel. The cortege proceeded to St. Andrew's Catholic Cathedral, where the Rev. Father MacDonald officiated. Many friends and quantities of floral offerings testified to the esteem in which she was held. The casket was borne by Messrs. D. Boulton and Capt. W. O'Leary acted as pall-bearers. Mrs. McConnell was the wife of Thomas McConnell, of the city, interment being made in Ross Bay Cemetery.

### LINEN SHOWER

A linen shower was held on Wednesday at the residence of Mr. and Mrs. G. H. Fuller, 1015 Johnson Street, in connection with the forthcoming marriage of Miss Olive Hall, only daughter of Mr. and Mrs. E. Hall, 649 Government Street.  
The guests numbered from twenty to thirty. During the afternoon a dainty tea was served, Mrs. Roche and Mrs. Joe Moore assisting the hostess with the usual duties.  
The tables were effectively decorated with beautiful flowers and foliage, the color scheme being yellow and white. Music was the order of the afternoon and many songs were rendered, among which Miss Hall and Miss Ivy Fuller took part, the accompanists being Mrs. Pitzer, Miss Savage and Miss Murray. Miss Hall was the recipient of many beautiful pieces of linen.

### REDUCTION IN LEAD PRICE IN STATES

New York, May 8.—The American Smelting and Refining Company to-day reduced the price of lead from 9 1/2 to 8 1/2 cents a pound.

### WHOLESALE TO ISLAND

#### Party Under Board of Trade Will Start Monday at Noon

Headed by Charles Gardner, G. F. Wilson and L. W. Slade, five motor cars loaded with Victoria wholesalers will start their Spring swing through Vancouver Island on Monday.

The tour has been arranged by the Jobbers and Manufacturers' Section of the Board of Trade, so that Victoria wholesalers may show themselves alive to the trade opportunities on the island and also that Up-Island houses may learn something about the business houses of this city.

Boards of Trade and other public bodies in the Up-Island cities are arranging receptions and meetings for the members of the Victoria Board who are to make the trip.

The party will leave here at one o'clock Monday, arriving at Duncan about 4 o'clock. They will stay all night there and will leave for Ladysmith at 9 o'clock Tuesday morning. They will spend part of the morning and will lunch at Ladysmith, leaving for Nanaimo at 2 o'clock Tuesday afternoon and evening will be spent in Nanaimo. Wednesday morning the motor caravan will leave for Alberni and Douglas Bay in the middle of the afternoon. They will leave Alberni Thursday morning and from Qualicum go up to Union Bay and Courtenay. Friday and Saturday will be spent in Cumberland and Comox. Representatives of every wholesale interest are joining the party.

Room Entered.—Mr. Howard, of 126 Humboldt Street, reported to the police that his room had been entered in the night and a watch stolen. Investigations are being made.

### NEWS IN BRIEF

L'Alliance Francaise.—The regular monthly meeting of the L'Alliance Francaise will be held on Monday at the Victoria Club, Campbell Building.

United Co-operators.—The store of the United Co-operative Association, corner of Fort Street and Douglas Street, will open for business on May 14.

For Health Centre.—A silver tea will be given at the home of Mrs. Birkett, Jasmine Avenue, Garden City on Wednesday afternoon, May 12. The proceeds are to be donated to the Saanich Health Centre.

To Give Funds to Charity.—Mrs. Cassidy announced that the proceeds from the sale of lady's slipper orchids next week will be given to the Frothingham Home. Last year she undertook a similar effort which was appreciated.

Married at Vernon.—Mr. T. G. Norris, of the Soldier Settlement, and Miss Jean Mary Denovan, of Victoria, were married at Vernon last Friday. The ceremony was performed by the Rev. E. P. Laycock at All Saints Church.—Vernon News.

Police Court News.—The case of Jack Duffy, on remand from yesterday, was the only matter on the charge sheet this morning. Magistrate remanded the case on remand until May 10. Duffy is charged with vagrancy, and is expected to leave town.

Epidemic of False Alarms.—A veritable epidemic of false alarms has been disturbing the Fire Department of late. Rarely a day goes by without some mischievous person summoning the firemen to some distant part of the city without any reason whatever. Fire Department officials are about to prosecute if the condition continues.

North Ward Red Cross.—The last entertainment held under the management of the North Ward Red Cross Branch will be a card party on Tuesday, May 18, postponed from Monday 13. The furniture will then be disposed of and the rooms closed. Will the members of the executive please note that a meeting will shortly be called, time and place to be announced in the press, to conclude all business.

At Esquimalt Hospital.—A concert was held at Esquimalt Convalescent Hospital last night. The opening of the programme was a humorous song by Tom Dooley, Miss Lily Dooley and Miss Elsie Humbleton presented a song and dance. A series of songs were sung by Jack Trace, Miss Rita Humbleton, Miss Lily Dooley and Miss Elsie Humbleton. Harold M. Diggon gave a characteristic legerdemain act. Mr. and Mrs. Hunt contributed a song.

Signalling Company Authorized.—Gen. Ross, G.O.C., announced this morning that a Fortress Signalling Company of Militia has been authorized for this district. The new unit will be active militia, and will be a signalling company separate from the Engineers. No details as to establishment or equipment have yet been received. The unit will be known as No. 11 Fortress Signal Company.

Gordon Head W. A. Meet.—The monthly meeting of the Gordon Head Women's Institute is scheduled to take place at the Gordon Head Hall on Wednesday 12, at 2.30 o'clock. Mrs. Ballantine will give a demonstration, and general business is to be taken up for discussion. The secretary-treasurer, Mrs. J. Ballantine, asks that members pay their dues prior to June 30.

Parade For Week.—No. 1 Company will parade at 7.30 p.m. Thursday, May 13, at new Drill Hall, Victoria, B. C. Dress: Drill order. Stripping, mechanism and swimming.

Note.—Full attendance of all officers, N.C.O.'s and men is expected at this parade.

J. M. CUMMING, Captain and Adjutant, 11th Canadian Machine Gun Brigade.

ELEVENTH MACHINE GUN BRIGADE

Parade For Week.—No. 1 Company will parade at 7.30 p.m. Thursday, May 13, at new Drill Hall, Victoria, B. C. Dress: Drill order. Stripping, mechanism and swimming.

Note.—Full attendance of all officers, N.C.O.'s and men is expected at this parade.

J. M. CUMMING, Captain and Adjutant, 11th Canadian Machine Gun Brigade.

### Bad Breath IS CAUSED BY CATARRH

Canadians suffer more from Catarrh than from any other disease. On this account Catarrh is dangerous and should be checked at the outset.

It isn't necessary to take internal medicine to cure Catarrh. There is a far better method.

Doctors now treat Catarrh by sending a purifying, healing vapor through the breathing organs. In this way the germs of Catarrh are destroyed.

The only successful vapor treatment is CATARRHOZONE, which the patient breathes through a special inhaler to the real seat of the trouble. The rich, piney essences of Catarrhzone heal and soothe all inflamed surfaces. They effectively treat the nose, throat and lungs with a powerful antiseptic that destroys irritant germs.

Catarrhzone brings into the system the balmy air of the pine forest. It cures completely colds, coughs, catarrh, weak throat, and bronchitis. Once tried, Catarrhzone is always used. Nothing so pleasant, so simple, so quick to relieve, so absolutely sure to permanently cure. Accept no substitute. Large size lasts two months, and costs \$1.00; small size 50c.; sample trial size 25c., at all dealers.

### KIDDIES WILL HAVE NEW PLAYING FIELD

Strip of Land Outside Stadium Set Aside For the Children's Use

Children who live in the neighborhood of the new athletic stadium, Douglas Street, are going to have a playing field of their own, Mayor Porter announced this morning.

At the northwest corner of Belleville and Blanshard Streets, the Mayor pointed out the city owns a considerable strip of land which is not being used for any purpose whatever. This land is not included in the property leased to the Foundation organization, promoters of the stadium project. However, in clearing the stadium site the Organization also leveled this particular strip and it is now in fairly satisfactory shape for children's athletics.

"This land," the Mayor remarked, "is not in use, and is useless as far as the stadium itself is concerned. But it will make a very satisfactory playing field for the children of the district, I should think, and we intend to allow it to be used by the children as such."

It is probable that the city will erect a fence around this strip and keep it in shape.

### ARE GRATEFUL FOR ASSISTANCE RENDERED

The committee of the S.P.C.A. desires to express sincere thanks to the Action Club, for Eva Hart and Miss Lucille Hall for so generously giving a concert on May 6, in aid of the Society's funds; also to the accompanists, Miss Barfoot and Miss Brosey, at the Ladies' Musical Club. The officers of the Society also wish to thank those of the clergy who recognized and supported the appeal for "Humane Sunday," the press, the theatres, and stores, especially D. Spencer's, Ltd.; Mr. A. J. Woodward; subscribers, new and old, and the many friends and helpers who have in any way assisted the cause of the Society for Prevention of Cruelty to Animals during "Humane Week."

### Old Folks Need Mild Bowel Tonic

And Should Avoid the Use of Harsh Pills and Drastic Purgatives

Old people, no matter how sound and healthy, should avoid cathartic pills, purgative water, salts and all such temporary relief measures. They ease conditions to-day, but bind you up worse than ever to-morrow.

It is better to get the bowels into the habit of performing their needful function at a certain time each day and this can be done by strengthening the muscles of the stomach and bowels by the tonic action of Dr. Hamilton's Pills, a mild laxative that acts as close to nature's way as possible.

Thousands of people, old and young, prevent and cure habitual constipation by using Dr. Hamilton's Pills, a mild yet active medicine that is noted for its promptness in curing headaches, belching gas, sourness in the stomach, fullness after meals. You'll have the best of health, feel good, eat well, digest and sleep well if you regulate the system by Dr. Hamilton's Pills of Mandrake and Butternut, 25c per box at all dealers.

### BATTLEFIELD TOURS FOR U. S. DOUGHBOYS

Coblentz, May 8.—American doughboys may hit points of interest in the former battle zone of France. Army authorities have arranged ten different tours of two weeks' duration for men on leave.

### TO INCREASE PRODUCTION

Madrid, May 8.—Courses of study planned for instructing farmers in the use of modern farm machinery and relative to methods for increasing production will be inaugurated throughout Spain by the Department of Agriculture. Hope is expressed that this may make Spain independent of importation of cereals.

### Some Reasons Why You Should Be a Co-Operator

- 1—BECAUSE Co-operation enables you to save money without effort;
- 2—BECAUSE Co-operation makes it possible for you and your fellow co-operators to become your own storekeepers, manufacturers, and traders;
- 3—BECAUSE by purchasing all your requirements at the Co-operation Stores you can obtain goods at full weight and honest value at a fair price;
- 4—BECAUSE it is only by being a Co-operator that you can protect yourself from being exploited by Profiteers.
- 5—BECAUSE Co-operation makes it possible for working men and women to outwit the profiteers, and will enable them to end the profiteering system;
- 6—BECAUSE the growth of the Co-operative movement will enable the workers to employ themselves in co-operative undertakings owned and controlled by co-operators;
- 7—BECAUSE Co-operation enables the workers to keep down prices and to increase the purchasing power of their wages;
- 8—BECAUSE it is your duty to join your fellow workers to be a Co-operator just as it is your duty to be a trade unionist;
- 9—BECAUSE more than Four Million British working men and women are already united in the Co-operative movement;
- 10—BECAUSE Co-operative Societies are educating working men and women in the principles of social and industrial;
- 11—BECAUSE social and industrial reconstruction will be impossible apart from Co-operation;
- 12—BECAUSE the spread of international Co-operation will establish peace on earth and good-will among men;
- 13—BECAUSE Co-operation benefits all without doing injury to any; and
- 14—BECAUSE Co-operation affords the greatest hope of a permanent improvement in the condition of the people.

## LETTERS

Letters addressed to the Editor and intended for publication must be short, and legibly written. The longer an article the shorter the chance of insertion. All communications must bear the name and address of the writer, but not for publication unless the owner wishes. The publication or rejection of articles is a matter entirely in the discretion of the Editor. No responsibility is assumed by the paper for MSS. submitted to the Editor.

### PREFERS DAYLIGHT SAVING.

To the Editor:—I should be glad to know why the city should be put to the expense of two referendums within six months on the golf links scheme, which is of interest to only a comparatively small number of persons, while the citizens have never been given the chance of expressing their wishes with regard to daylight saving, which is of interest to all.

R. UNWIN.  
2178 Beaver St., Victoria, May 7.

### THE NEW AIR MILITIA.

To the Editor:—Is it a sign of the times that no one is satisfied with what he has without clamoring for a second share before even the first has been received?

This might apply to some people as far as it concerns the new Canadian (Militia) Air Force, judging from the various criticisms that have appeared in the press recently. No doubt they voice the opinions of a certain section of the community who ought to know better than to take such a narrow view of a scheme which has been evolved in order to place Canada in one of the foremost positions in flying among the nations of the world.

We have the trained personnel in abundance, and the problem is obviously how to make use of it. Apparently a certain limited sum of money for the purpose has been voted by the Government, and the Air Board has put forward its scheme for the most efficient expenditure of same, which the former body has accepted. Now to ensure its success it is up to every flying man in the country to support it, or else valuable time will be lost and a similar opportunity may not be offered again.

Those who advocate a permanent air force I would ask to consider the results obtainable from the same limited expenditure of money as for the militia force. With a month or six weeks' efficient training every two years under the latter there would be an approximate minimum turnover (allowing for delays for Winter, etc.) of fifteen times; or, in other words, for one squadron in a permanent force there would be fifteen squadrons of trained personnel in the militia force. The militia force would be continually moving on, vacancies being filled as soon as the man preceding had completed his training, so that the same accommodation and machines (except for extra wear and tear, upkeep, and more frequent replacements), and a staff and administration but slightly augmented, would suffice, and the overhead expense would be hardly increased at all, except chiefly for transportation.

At the present time the country is not disposed to spend more than a very few millions annually on an air force, and two or three permanent squadrons would be the utmost that could be kept up. In a permanent force pensions would begin early, as soon as pilots reached the age limit, and after a comparatively few years this alone would take a

### CHILDREN NEED HELP

Spanking doesn't cure bed-wetting—the trouble is due to weakness of the internal organs. My successful home treatment will be found helpful. Send no money, but write me today. My treatment is equally successful for adults, troubled with urinary difficulties. MRS. M. SUMMERS, Box 951 Windsor, Ont.

country—police, firemen, switchmen, etc.—who thought they were the "whole cheese," whereas their places were easily filled, and their houses requisitioned for workers. Labor men themselves say, "he who will not work shall not eat." Quite true. It works divers ways. The word "scab" is obsolete, and merely means a worker who has the nerve to decide for himself who his boss shall be and what shall be his wages. A "scab" may be a mechanic with 40 years' experience behind him; a "unionist" may be a greenhorn with three months' experience (watching flour go into a hopper) and a brand new union ticket.

### THE COST OF EDUCATION.

To the Editor:—The cost of education continues to increase. At Victoria, B.C., the schools this year are costing much more than in 1919, and what education together consumes about three-fourths of the city's revenue. At Vancouver, B.C., conditions are very similar, and the new school building at the University will add nearly half a million dollars to the city's expenditure eventually. These increases constrain us to ask, what does the inspector say about the schools? But I submit that this habit of considering the inspector's opinion is as though we asked a drill sergeant concerning the quality of an army. Is a drill sergeant the sole judge of an army's capabilities? Is a school inspector qualified to decide concerning the character of the present treatment of children?

We need to take a broader view of the matter than that of an inspector's report. For what purpose are the public schools established? They were instituted, presumably, to uplift and improve and benefit the whole body of human society in the present time and throughout the world. The purpose of the schools was to promote general prosperity.

Have they done that? We have not had more than fifty years of fairly strict scholastic education in Europe and America, and we may ask, is the condition of the world to-day such as to suggest that the great scholastic experiment of the past fifty years has been satisfactory and beneficial?

Do I need to mention the havoc of the recent war; the huge debts of the various nations; the excessive cost of living; the graft in political affairs; the plagues of influenza and other diseases; the looseness of married life; the fierce struggle between capital and labor and many other causes of trouble and perplexity at the present time? These things are well known to most people. Yet they show the condition of modern society after more than fifty years of fairly strict scholastic education.

Anyone who criticizes the public school system in this way is liable to be assailed as a friend of ignorance and illiteracy and an enemy of child welfare. People ask, would you rob the child of his birthright of education? But that reply begs the question. The quantity of a tree, is shown by its fruit, and we must ask whether the scholastic tree has yielded good fruit or the reverse. Illiteracy is certainly the danger, for the child who is not taught to read is often being taught to read in that

time. There the illiteracy argument does not justify the present huge expenditure on the public schools.

During the eighteenth century and the early part of the nineteenth century people attached most value to religious principle and moral rectitude as the bases of general prosperity. The opinion then was that "righteousness exalts a nation." But during the nineteenth century this regard for religious principle was gradually set aside by the growth of greater ad-

miration for secular education as the chief means of human improvement. Darwinism and other scholastic philosophies usurped the place of religion in the public favor. Now we may ask whether that change was entirely beneficial. It is doubtful whether the present public school system is such an improvement on former methods as some people think it to be.

This subject is so vast that I cannot discuss it fully in a brief letter. The limitations of your space compel me to close. But I suggest that the troublesome state of human society in Europe and America today, after more than fifty years of fairly strict scholastic education, justifies us in asking whether the public school system is really worth the many millions of dollars that are being expended on it.

Mission, B.C. JAS. PHILBERT.

# Chorea—St. Vitus' Dance

When children's nerves become starved and exhausted their trouble usually takes the form of Chorea, St. Vitus' Dance or Convulsions.

Rapid growth—physiological changes—urgent school work and examinations mean a tremendous strain on the nervous system of the child who is naturally of a nervous temperament.

The child becomes fretful and irritable. Restless, wriggling movements of the limbs and face—inability to sit still—tendency to drop things from the hands tell of the development of these troubles.

Later, speech is affected and there is irregular twitching of

<h3>St. Vitus Dance</h3> <p>Mrs. Wm. Matt, Cordova, Man., writes: "My little girl, ten years old, was not very well, and I noticed some rather odd ways about her. She used to act very strangely at times. I asked the doctor what could be the matter, and he said she had St. Vitus' Dance, to keep her quiet and out of school. He said treatments weren't of any use for her. She was affected in this way for a year. I thought something ought to be done, so in looking over Dr. Chase's Almanac I read several testimonials from people who had used Dr. Chase's Nerve Food for six boxes, and started this treatment with my daughter. Before she had finished the first box I could see a great change in her, and by the time she had taken the six boxes, she was completely cured. She is really well now, and going to school every day."</p>	<h3>Twitching Nerves</h3> <p>Mrs. M. E. Robson, 170 Dublin St., Peterboro, Ont. writes: "When about the age of 14 or 15 my daughter was on the verge of nervous break-down. She had a very poor appetite, lost all her color, and at times had a twitching of the nerves in her limbs. I secured some of Dr. Chase's Nerve Food and gave her a treatment, using five or six boxes. The results were splendid, entirely curing her of her nervous trouble, and restoring her appetite. I find Dr. Chase's Nerve Food a splendid Spring tonic, and best results to be found by taking some of the Kidney-Liver Pills at the same time."</p>	<h3>St. Vitus' Dance</h3> <p>Mr. S. F. Flarity, Warton, Ont. writes: "My daughter, eleven years of age, was in a run down condition, and suffered from a nervousness which showed a tendency toward St. Vitus' Dance. I got a few boxes of Dr. Chase's Nerve Food for her, and by the time she had taken three boxes there was a big change in her. She is much stronger, and her system in general is built up. She has recovered from her nervous weakness, and you could not detect a trace of it now. I gladly recommend Dr. Chase's Nerve Food to anyone suffering from nervousness of any kind."</p>	<h3>Convulsions</h3> <p>Mrs. Xavier Albert, St. Francois, N. B. writes: "My daughter, Imelda, was troubled for four years with nervousness. Almost every night, she used to take nervous convulsions. We took her to a doctor, but he did not do her any good. Finally we began to use Dr. Chase's Nerve Food, and gradually the convulsions were less and less frequent, until they disappeared altogether. It was two years ago that she used the Nerve Food, and six boxes completely cured her. We are very grateful for what Dr. Chase's Nerve Food has done for her."</p>

## CATHEDRAL MEMBERS ORGANIZE WORK

Continuation of Forward Movement Planned; Programme Outlined

At last night's meeting of laymen and women of Christ Church Cathedral parish in the schoolroom, the recommendations of the Diocesan Forward Movement committee for the continuation of the work received unanimous support, and a parish Forward Movement committee was appointed, with R. Ross Sutherland as chairman, to carry out the Diocesan committee's proposals for the stimulation of church work and social activities by the laity in a greater measure than has heretofore been attempted.

**Dean Supports Recommendations.**  
The Very Rev. C. S. Quanton formally opened the meeting, and stated that the success of the parish Forward Movement depends on the co-operation and activity on the part of the lay membership of the church. The success of the thithering fund campaign in connection with the Forward Movement was due largely to the laity, and that success made immediate action along other lines all the more imperative. He hoped that they would not let their interest drop, but would carry on and forward the church's work along all lines of service to the parish and the community.

Mr. Ross Sutherland explained that the Diocesan Committee's report called for the appointment of a parish forward movement committee, which would include active members interested in all departments of church life and Christian service, the idea being that smaller groups or sub-committees, acting under separate chairmen, would study and work for the promotion of the various objects named in the report, gathering into their membership all interested in that particular branch of the work. Among the suggestions made were the selection of "pivot men" and women who would be expected to visit five or six families living within a district allotted to them, welcoming newcomers and seeking to secure the attendance and participation of all in the services and work of the church. Women will be asked to volunteer to spend part of a Sunday morning or evening caring for a household with small children to allow a mother or widow to attend church. Church members possessing automobiles will be encouraged to call for invalids, retired soldiers and others incapacitated to a degree which prevents their attendance at church without such means of conveyance. Other suggestions included the importance of a vital interest on the part of laymen and women in the training of children and young people through the Sunday School and Bible classes, and providing leadership for their mid-week meetings and activities. More general interest in social service work was also urged, while one clause adopted called for the promotion and daily practice of prayer and Bible reading in the family circle as well as in private.

**Diocese Leads Way.**  
Several speakers pointed out that the Diocese of Columbia was in a position to lead the way in continuing and extending the church's activities through the Forward Movement, and the opportunity of blazing new paths of progress for other dioceses and parishes in the Dominion was urged as an added incentive to the call to pursue the work in co-operation with fellow-church members in both country and city parishes throughout the diocese.

After the adoption of the report had been carried unanimously on the motion of Messrs. John Harvey and Geoffrey Frampton, the election of the first members of the parish Forward Movement committee was proceeded with, it being agreed that all members would meet again in the schoolroom on Friday, May 21, to organize the necessary sub-committees and draw up a programme of work.

The following men and women were declared elected: Messrs. R. Ross Sutherland, chairman; W. B. Boucher, secretary; F. Allbutt, C. Bliss, W. O. Cockett, T. Elkington, G. Frampton, A. R. B. Reynolds, Salmon and C. Williams; Mrs. Quinton, Mrs. Hiscocks, Mrs. Yates, Mrs. Dickson, Mrs. Elkington, Mrs. John Harvey, Mrs. Murray, Mrs. Thibault, Miss Annew, Miss Gregory-Allen and Miss Winslow.

The pessimist always gets snowed under—diversity of writers we dread in life never happen.—Lord Leverhulme.

## IMPASSE HAS LEFT BILLS UNLIQUIDATED

Saanich's Case Is Repeated Regarding Watershed and Parks

As an outcome of the differences between the Victoria and Saanich members of the Beaches and Parks Committee, the treasurer of the committee, H. Cowper, the Saanich Clerk, finds himself in a position of difficulty as to the billing and payment of the accounts of the committee. The city has not paid its contribution this year, it is stated, and therefore the situation is serious.

Officials of the municipality repudiate the suggestion that Saanich is taxing city parks, and declare that the aldermen are deliberately misleading the public in allowing an impression to prevail which they know to be erroneous. The properties of the city in Saanich were included in the assessment roll in 1914, and there being then no legislation to prevent their taxation, the sum was contributed by Saanich towards the establishment of the Victoria City market. Since that year the whole markets have been applied to the parks and beaches, about a half of the total appropriations going to improve city property, to which Saanich has made substantial contributions.

The Saanich people maintain that the city should be assessed on its property, Saanich is paying for the service of city institutions in the High School, the Isolation Hospital, the library, water supply and other ways in which the whole of which would be lost, and without which the city would still have to carry on the services which were being provided at a very little reduction in present cost.

So strongly do they feel on this point that it is proposed to prepare a statement for the information of city people, hundreds of whom are taxpayers in Saanich.

## MR. LYNE TO ATTEND QUARANTINE BOARD

Joint Organization Seeks to Protect Importation of Plant Pests

W. H. Lyne, Chief Inspector of Imported Fruit and Nursery Stock, at Vancouver, has been appointed delegate for the first annual meeting of the Western Plant Quarantine Board to be held in Salt Lake City, Utah, on May 11 to 13.

G. H. Hecke, Director of Agriculture, California, is Chairman of the Board.

The Western Plant Quarantine Board was organized at Riverside, California, in May, 1919, with a membership composed of the quarantine officers of the eleven western states, the territory of Hawaii, the Province of British Columbia, and the northern district of Lower California.

The purpose of the organization is to protect the western states, provinces and territories as a whole against the introduction of plant pests and diseases not established in the Rocky Mountains by promoting uniformity of action in the promulgation and enforcement of quarantine regulations and to protect each other through close association.

The efficient and harmonious solution of many complex problems which have arisen during the first year of the existence of the Board has proven conclusively the need for such an organization. It has become more and more apparent that there is much good to be accomplished through co-ordination of effort by the different states, and the programme for the second annual meeting embraces subjects of vital importance to the United States in general and to the West in particular.

## PLAN BIG RESORT AT ELK LAKE

City Hall Meeting Deals With Scheme Inspection; Excursion There May 19

Plans to develop Elk Lake and the watershed around it as an inland tourist resort, along the lines described in a story in The Times last Saturday were considered at a meeting of motorists of the Automobile Club, real estate men, aldermen and Mayor Porter last night.

The features of the scheme are:  
1. A grille and a quarter fresh water flowing course for rapids.  
2. Fresh water swimming tanks of various depths and all beautifully sanded, with continuously running water, all produced with no capital outlay by the conversion of the old filter beds.  
3. Picnic grounds in the woods around the lake.  
4. A golf course.  
5. A tourist hotel, which, because of its setting and being only eight miles from Victoria, would be steadily patronized by Victorians.

The details of the scheme have been worked out by D. E. Campbell and promulgated by him.

Alfred Carmichael, President of the Victoria Real Estate Exchange, promised that all real estate men would be behind such a resort centre proposal.

Joseph Bridgman, another real estate man, said that none of the land should be sold.

**Fear Saanich Taxes.**  
Mayor Porter, however, said Saanich will just wait until the city gets the park fixed up and started, and will then pounce on it and tax it as park land, as it is taxing Mount Douglas Park \$2,000 a year.

"The reason this matter was not dealt with years ago is that the Council has feared all along that any move on our part would be met by Saanich with the threat of taxation, and it would be a substantial amount," said Alderman Todd. Year after year Saanich elects councillors who are just waiting an opportunity to tax the city for that property."

Alderman Johns urged that a committee should see the Saanich Council to get the members to act reasonably.

**To Hold Big Picnic.**  
Thos. R. Cusack declared that the whole trouble should be settled by an organized effort to secure legislation to exempt this property from taxation while it is being used as a great park resort in the centre of Saanich for Saanich people as well as Victorians. He asserted that the endorsement of a majority of Saanich property owners should be quite readily secured as the park will be such a great asset to the district.

To take in the possibilities of the scheme a public automobile picnic is to be held at Elk Lake on Wednesday, May 19. This is to be carried out by the Automobile Association, with Michael, Gilbert D. Christie, president of the Island Automobile Association, Alderman Andros and D. E. Campbell.

## BISHOP BREWING DELIGHTS HEARERS

Addressed Two Gatherings Last Night Before Leaving For Mainland

Addressing a large and enthusiastic audience in the Church of Our Lord on Humboldt Street, Right Rev. Willard Brewing, D. D., delivered a stirring address on the conditions to be seen "Through Stricken France."

Treating his subject from close personal intimacy the Bishop paid a glowing tribute to the heroism and stoical self-sacrifice of the French in the late war. He referred to the splendid courage of the women, who steadfastly believed that France would "carry on" no matter what befall, and told tales of unbelievable heroism and patient suffering that had been the lot of that brave population during its ordeal.

Bishop Brewing made his last appearance in the city Friday, as he left later to attend a conference at New Westminster of the Reformed Episcopal Churches. The Rev. A. de B. Owen will accompany the Bishop to the conference.

Previous to his address in the Church of Our Lord, Bishop Brewing was the guest of honor of the Girls' Corner Club. The occasion was that of "Mother's Day," and a full gathering was on hand to share in the events of the evening.

In a short address the Bishop spoke on the influence of Christian Domianhood in the Home and in the Church. His address was received with marked attention and on the conclusion the Bishop was tendered a very cordial vote of thanks.

A musical programme of originality and merit concluded the entertainment of the evening.

## VICTORIA BOYS SCOUTS' ASSOCIATION

Patron, His Majesty the King; patron for British Columbia, His Honor the Lieutenant-Governor.  
Third Troop.  
Acting scoutmaster, R. A. Wootton; headquarters, Willow Camp; meets every Friday at 7:30 p.m. The following have passed their tenderfoot tests: J. H. Watson, A. J. T. Laundry, E. T. Laundry and Fred Wormald. Fred Wormald also passed his second class tests.

**James Bay Troop.**  
Scoutmaster, C. J. Cherry; meets every Thursday and Friday at 7 p.m. Recruits Norman Dornfield and Louis Prior passed their tenderfoot tests.

**Collegiate Troop and Pack.**  
Scoutmaster, G. H. Scarrett; meets every Wednesday at 3:30; band same day.

**MacLean Troop.**  
Scoutmaster, P. A. Trowdale; assistant scoutmaster, A. MacArthur; meets Friday at 7:30 p.m. at 601 Esquimalt road. This troop is busy practising for their concert to be held in Saanich's Hall on Friday, May 14, at 8 p.m. General admission 25 cents. A fine programme is being arranged, and every one is assured of an enjoyable evening. Tickets may be obtained from any scout or wolf club belonging to or attached to this troop.

**MacLean Wolf Cub Pack.**  
This pack is now in full swing; recent losses of a troop meets every Thursday at 7 p.m. Joint leaders, P. A. Trowdale and A. MacArthur. Thirteen boys have been enrolled. Twenty is the limit set for the present.

**St. Aidan's Troops and Pack.**  
Formerly known as the Victoria preparatory; scoutmaster, P. Hughes; meets Mondays and Thursday at 3:30 p.m.; headquarters, Saratoga Avenue, Oak Bay.

**First Presbyterian Pack of Wolf Cubs**  
Headquarters, Quadra Street; meets every Thursday at 7:30 p.m. at the First Presbyterian Church, Fairfield—Christ Church Cathedral.

**Boy Scout Troop.**  
This troop is going ahead well now, having only started on March 1 of this year. It has now two patrols and ten second class scouts. Of these latter one has two proficiency badges, two others having one each.

The following promotions have been confirmed: Patrol leader, J. Atkins; patrol leader, W. Locke; second K. Shapland; second, J. Howshall.

On Saturday, May 1, the troop went for the day to Prospect Lake, in charge of A. M. W. Gill, and a very enjoyable time was spent in swimming, signalling and other scout work.

**Fairfield—Christ Church Cathedral Wolf Cub Pack.**  
Last Saturday the pack leader and the two senior sixers went with the Fairfield Scout Troop on their outing to Prospect Lake, while the other First Star Cubs practised subjects in preparation for obtaining their second star cub as soon as possible. Every cub is expected to provide himself with a semaphore signalling flag.

**Oak Bay Pack No. 2.**  
Cubmaster, Seymour de P. Greene; assistant, R. M. Greene. This pack is just formed, under Sixer Leonard Duffield, and has four sixers with twenty-four cubs. This pack hope to be up to full strength of thirty-six cubs by the end of May, and will then be able to compete with No. 1. No. 1 pack will have to work hard to keep ahead. No. 2 is so keen on their work. All the sixers will qualify as two star cubs as soon as possible. Every cub is expected to provide himself with a semaphore signalling flag, regarding size see orders of this week.

**Scouting Notes.**  
Bathing parade is growing, and both scouts and cubs are fast learning to swim. Some excellent swimmers have been developed, and others are now taking steps to learn life-saving.

The pool at the new Drill Hall is excellent, and is greatly enjoyed. The scouts will take part in the Hudson's Bay Company's parade. Ap-

qualified for the following badges and passed his tests with credit, namely: Cyclist, musician and horseman. It is expected to form baseball and football teams as soon as funds permit.

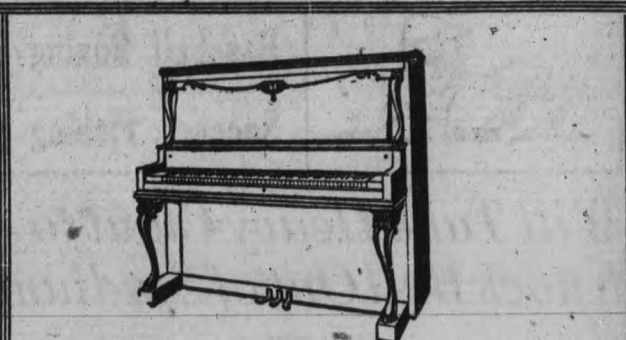

**Oak Bay Pack No. 1.**  
Headquarters, Mitchell Street, Oak Bay; cubmaster, Seymour de P. Greene; assistant, R. M. Greene. This pack has had to mark time owing to changes being made, but is now up to full strength of thirty-six cubs, with six sixers, all of whom are hoping to qualify for two star cubs before long. Last Saturday the pack went for a run to Gonzales Hill. Every cub is asked to provide himself with a semaphore signalling flag.

**FIREMEN ASK FOR HIGHER INCREASES**  
Requesting that they be granted a fifteen per cent increase instead of the ten per cent recently decided upon, a delegation of firemen met the City Council yesterday afternoon.

The firemen pointed out that in other cities—some of them, which they named, no larger than Victoria—members of the Fire Department received much higher wages than those paid here. Victoria, however, they observed, was possessed of a department fully as efficient as any in Canada, as the annual fire losses and official statistics showed. They remarked, too, that the firemen were on duty twelve hours a day, seven days a week, and consequently were entitled to more consideration than employees who worked only eight hours a day and were given holidays Sunday and Saturday afternoons.

Mayor Porter assured the delegation that the efficiency of the department never was in question and that the arguments presented would receive full and earnest consideration. He promised, moreover, that the Fire Warden would meet the firemen and discuss the wage question again.

Wiley: "The police won't let that blind pedlar stand on the corner any more."  
Hubby: "Poor man! That's the second time he's lost his site."

## The Children's Musical Education

## Will Take Heavy Clout to Knock Ball Out of Stadium

Fences Are Lot Farther From Home Plate Than at Royal Athletic Park; Putting Down Diamond Next Week; Large Crowd of Workmen Getting Grandstand and Bleachers Ready.

Work on the new stadium is proceeding at a rapid pace. The ground has been well leveled and the diamond of burnt clay will be laid next week. A large gang of carpenters and helpers are making feverish efforts to have the grandstand and bleachers completed for the opening day.

The Stadium is proving a centre of attraction at the present time. Hundreds of people are visiting the field daily and are passing their approval upon the plan. The grandstand is being constructed on the most modern plan and will give a splendid and unrestricted view of the whole field of play.

### FOUL TIPS

Size of the Field. Many questions have been asked as to whether or not the new field is smaller than the Royal Athletic Park. A few figures will probably assist the fans in their deliberations and prove that the Stadium is considerably larger and a great improvement on the old site.

Design of Stands. The fans will welcome the information that there will be little room for confusion in filling in and out of the big grandstand and bleachers. The people will enter from the back and proceed to their seats in front, and after the game is over doors in the wire netting will be thrown open and the crowd will be able to get away quickly.

The fans will welcome the information that there will be little room for confusion in filling in and out of the big grandstand and bleachers. The people will enter from the back and proceed to their seats in front, and after the game is over doors in the wire netting will be thrown open and the crowd will be able to get away quickly.

The club has arranged to have long leads built so as to get the fans in single file and thereby eliminate the scrambling about for position.

### TURN IN ONLY WIN

"LEFTY" LAWSON who held the Tigers to five hits on Thursday and put Victoria in the winning column. Lawson is a southpaw with a lot of stuff and a fast ball.

The Giants were lucky to have a good second string catcher on their staff when Boogie got his thumb busted the other day at Vancouver. "Dutch" Hoffman, who was holding down first base, donned the mask and is now doing the catching. "Dutch" is a good one and once worked with Victoria.

Cy Forsyth just missed a hard panning in Vancouver the other day. He dropped a fly ball in right field, and the crowd went after him. Cy quickly retrieved the ball and nailed the runner at second. The old fox then got a big hand.

Tealey Raymond's squad handed out an awful licking to the Spokane Indians yesterday. It was the biggest score known in these parts for a long time.

Cadman, the old fellow who barks through his mask, is doing the catching for Yakima. He is a reliable backstop and knows most of the wrinkles of baseball.

Tealey Raymond's squad handed out an awful licking to the Spokane Indians yesterday. It was the biggest score known in these parts for a long time.

## Times Baseball Guessing Contest

Open to Every Lady Reader

The Times will present a season's ticket for the Victoria Baseball and Lacrosse seasons, to the lady who guesses nearest the number of hits, runs and errors which will be made in the opening game between Victoria and Vancouver at the Stadium on May 18. To the next ten nearest guesses The Times will give passes for all Wednesday afternoon games.

Fill in the following and mail it to the Sporting Editor of The Times before noon on May 17:

Form for guessing contest with fields for Name and Address, and a table for recording Runs, Hits, and Errors for Victoria and Vancouver.

## WILLIAMS TURNS IN SIXTH STRAIGHT WIN

Pitches Chicago to Victory Over Cleveland; Cincinnati Wins Funny Game

### American League

Chicago, May 8.—Chicago defeated Cleveland yesterday in the third game of the series, 6 to 1, the game marking the sixth straight win of the season for Claude Williams, Ray Caldwell pitched effectively until the seventh, when Chicago scored four runs. Chicago is now in first place. The score: R. H. E. Cleveland 1 7 2 Chicago 6 10 1 Batteries—Caldwell, Niehaus and O'Neill; Williams and Schalk.

Athletics Beat Boston. Boston, May 8.—Perkins hit timely and hard for Philadelphia against Boston yesterday, his triple in the fourth scoring two mates and his single in the eighth accounting for another run. Philadelphia won 5 to 4. The score: R. H. E. Philadelphia 7 5 2 Boston 4 8 2 Batteries—Naylor and Perkins; Russell, Karr and Schang.

Got Five Hits. Washington, May 8.—Washington tallied enough runs the first two innings yesterday to defeat New York 6 to 5. Judge was credited with a perfect batting mark in five trips to the plate. The score: R. H. E. New York 9 9 2 Washington 6 14 0 Batteries—Shore, Thormahlen, Quinn and Ruel; Snyder, Erickson and Pielnich.

Tigers Bumped Again. Detroit, May 8.—Detroit lost the third game of the St. Louis series yesterday, 10 to 4. Leonard was hit freely and was relieved by Ayers at the beginning of the eighth. Four runs were scored by St. Louis in the sixth, when Jacobson and Gerber delivered home runs with a man on the bases in each case. The score: R. H. E. St. Louis 10 11 1 Detroit 4 11 4 Batteries—Cathorn and Billings; Leonard, Ayers and Ainsmith.

National League. Philadelphia, May 8.—Although outbatted by Philadelphia yesterday, Boston won its third straight victory of the series, 8 to 6. Powell followed up a sensational one-hand catch, robbing Stengel of a home run, by driving the ball over the right field fence himself two minutes later. The score: R. H. E. Boston 8 12 1 Philadelphia 6 14 1 Batteries—Jones, McQuillan and O'Neill; Cantwell, Smith and Wheat.

Cubs Grab Another. Pittsburgh, May 8.—Chicago defeated Pittsburgh yesterday, 6 to 4 in a game featured by long hitting. The home team played loosely in the early part of the game, and was weak at the bat until the last three innings, when it scored all of its runs on six hits. The score: R. H. E. Chicago 6 12 1 Pittsburgh 4 8 2 Batteries—Alexander and Killifer; Carlson, Meador and Schmidt.

Giants Win Out. New York, May 8.—The New York Giants won an exciting eleven-inning game from Brooklyn here yesterday, 7 to 6. The score: R. H. E. Brooklyn 6 15 1 New York 7 11 4 Batteries—Marquard, Mitchell, Grimes and Elliott; Benton, Barnes and Snyder.

A Weird Game. St. Louis, May 8.—Cincinnati defeated St. Louis 15 to 11 in a weird exhibition here yesterday. Schupp was removed in the first after walking five of the eight men who faced him. Fisher was taken from the box

in the fifth after walking one man and allowing three hits. The score: R. H. E. Cincinnati 15 17 2 St. Louis 11 15 3 Batteries—Fisher, Sallee and Rariden; Schupp, Goodwin and Sherdel, May and Clemons.

Coast League. At Seattle—R. H. E. Portland 4 9 2 Seattle 1 4 2 Batteries—Jones and Koehler; Geary and Baldwin.

At Los Angeles—R. H. E. Oakland 1 4 1 Vernon 15 11 1 Batteries—Kremer and Mitze; Fromme and Devomer.

At San Francisco—R. H. E. Los Angeles 1 8 0 San Francisco 4 6 3 Batteries—Keating and Basler; Scott and Agnew. Sixteen innings.

At Salt Lake—R. H. E. Sacramento 6 12 1 Salt Lake 10 15 1 Batteries—Fittery, Kuntz and Cady; Bromley, Thurston and Jenkins.

Western Canada League. At Regina—Moose Jaw 7, Regina 1. At Edmonton—Calgary 6, Edmonton 5.

At Saskatoon—Saskatoon 10, Winnipeg 7. International League. At Toronto—Reading 1, Toronto 7.

At Buffalo—Buffalo 4, Baltimore 5. At Rochester—Rochester 9, Syracuse 4.

At Akron—Jersey City 11, Akron 5. American Association. At St. Paul—St. Paul 4, Minneapolis 5.

At Louisville—Indianapolis-Louisville game postponed; rain. At Toledo—Toledo 11, Columbus 4. At Kansas City—Kansas City 10, Milwaukee 3.

## WON TITLE ON FOUL

JOHNNY MORGAN who won the B. C. championships at 158-lbs. at Vancouver last night. He was twice fouled by T. Gann, his opponent.

## CANADIAN LADIES ENTER BIG GOLF TOURNAMENT

London, May 8.—Fifty-seven entries have been received for the British ladies' golf tournament, which begins at Newcastle, County Down, Ireland, next Tuesday. In addition to the two Canadian entrants, Miss Florence Harvey, Hamilton, Ont., and Miss A. Mackenzie, Toronto, there are four Americans and many prominent English and Irish champions and former champions.

A match between married and single players was played yesterday and to-day, an English-Irish contest for international honors. Monday there will be a stroke competition and on Tuesday the championship matches will commence.

## SIX-ROUND DRAW

Ketchikan, Alaska, May 8.—Chet Neff, of Prince Rupert, and Karl Reuter, of Ketchikan, boxed six rounds to a draw at the American Legion smoker here last night.

## VICTORIA BOXERS GRAB TWO TITLES

Al McKinnon and Johnny Morgan Win at Vancouver; Scotty McKay Lost

With two British Columbia amateur boxing championships to their credit the string of Victoria boxers returned to Victoria this morning from Vancouver. Al McKinnon scored an easy victory over Joe Nestman in the 145-lb. class, and Johnny Morgan took the 158-lb. honors on a foul from T. Gann. Scotty McKay was beaten by Joe Nestman in the lightweight class and Teddy Yates withdrew from the contest. Yates considered an injustice was done him in the method of weighing in and refused to go in the ring.

A number of championships were at stake but there were few entries. The two heavyweight classes were won without a bout. There was lots of punch and speed in the bouts in which Victoria and Vancouver fighters mingled. Scotty McKay took on Joe Nestman and then went through three fast rounds. Nestman was given the decision.

Won in Third Round. Later in the evening Al McKinnon took on Nestman in the 145-lb. class. It was a nip and tuck affair in the first two rounds but Al cut loose a wicked left in the third round and won handily.

Johnny Morgan had the misfortune to hook up with Gann, a new hand at the boxing game, who has a bad habit of swinging with his eyes shut. In the first round Gann struck Morgan low and was warned and in the third round the Vancouver fighter repeated with a dangerously low blow, which upset Morgan. The referee gave the decision to the local boy.

Leaves Contests. Teddy Yates, a rugged boy, entered in the 135-lb. and 145-lb. classes, had some trouble making the lightweight class. He starved himself most of yesterday and on reaching Vancouver last evening went to the arena to weigh in prior to eating. There were no scales and an official told Yates that it would not matter if he was a pound or two over. On this guarantee Teddy did full justice to a meal, and when he returned to weigh in found he was two pounds overweight. He was told that he must reduce or else forfeit his right to box at 135 pounds. This was disappointing to Yates, but he donned a few overcoats and did a little shadow boxing. His efforts, however, only took off half a pound. He then decided to retire from the tournament.

# SPORTING NEWS

## Stevens's Home Run Gave Tigers Yesterday's Game

### Big Catcher Caught One of Young's Floaters on Nose and Beat Victoria; Jimmie Church Turns In Three More Hits; Another Double-Steal Pulled.

Tacoma, 5; Victoria, 3.  
Stevens, the giant catcher of the Tacoma Tigers, stood at the plate with his war club on his shoulder. It was the lucky seventh innings and the score was tied at three runs apiece. The fans were praying their constant prayer for a home run. Cy Young, the Victoria moundsman, made a grotesque move and sent forth the ball on a line for big Tom Cunningham, waiting patiently for it behind the plate. But the ball never reached him. Stevens espied the lonely pill floating up to him and he just picked it. His bat caught it fairly on the nose and the ball took an aerial journey that landed it outside the ball park. Stevens made the circuit without interruption and Graham, who had reached first on a scratch hit, went home ahead of him.

That tells the story of the Capitals' defeat at Tacoma yesterday afternoon. The local crew got away on first. They got away with the score. These runs came through the hitting of Jimmie Church and the sensational base running of Bill Leard and Carmen. Leard and Carmen pulled another double steal. The captain was on second and Carmen on first. They got away with the steal and then Leard cantered home when the Tacoma infield commenced to boot the ball around. Church chased Carmen home with a single.

### Tried Hard to Win.

The Tigers touched up Young for a few hits and aided by good base-running, managed to even the score. Then Stevens got a home-run out of his system and Victoria was held helpless over the rest of the route. The Caps tried hard in the ninth and "Toots"-Brown was sent in to bat for Young, but he failed to come through with a hit.

Jimmie Church again displayed his ability with the club by clouting out three safeties. This makes eight safe hits for the third sacker in three games. His average is somewhere up in the seven hundred.

Dempsey handled fourteen chances at first base without a slip. He was credited with a sacrifice hit and drew a pass.

### The Box Score.

The box score was as follows:

Victoria.	
AB.	R.
Elliott, ss	5 0 1 0 2 1
Leard, 2b	3 1 0 1 4 0
Zienke, cf	3 0 0 1 0 0
Carmen, rf	2 1 1 1 0 0
Gohlie, lf	2 0 0 2 0 0
Church, 3b	4 1 3 0 2 0
Dempsey, 1b	2 0 0 1 4 1
Cunningham, c	1 0 1 2 0 0
P. Edwards, p	2 0 0 1 1 0
Young, p	3 0 0 2 3 0
Brown	1 0 0 0 0 0
Totals	28 3 6 24 13 1

\* Batted for Young in ninth.

### Tacoma.

AB.	R.
Davis, lf	5 0 1 0 0 0
Cuyler, cf	4 0 1 4 0 0
Gomes, cf	4 0 1 5 0 0
Graham, 1b	3 2 1 8 1 0
Stevens, c	4 2 2 3 3 0

## AMATEURS TO OPEN AT ROYAL ATHLETIC

### Will Stage Double-header Next Saturday; Forming Intermediate League

Owing to the fact that the Stadium will not be completed in time the amateurs will not have the honor of opening the new ball park and will have to stage their double-header on May 15 at the Royal Athletic Park. This announcement was made at a meeting of the delegates to the Victoria Amateur Baseball League held yesterday afternoon.

The amateurs were hoping that they would be able to hold the opening games of the city league in the Stadium, but the workmen will be busy next Saturday afternoon. However, efforts will be made to put the old diamond at the Royal Athletic Park into good shape.

### Intermediate League.

A special meeting of the league will be held on Friday afternoon to attend to the formation of an intermediate league. All teams wishing to enter in this league, are requested to send their delegates with \$3 to the meeting. The schedule will be drafted and umpires appointed.

### Hold a Work Out.

The Collieries-War Vets' ball team held a fast practice last evening and from the way they are slugging the old pill around, Manager MacFarlane need have few worries over the position of his team in the league.

## NO END OF CLASS TO CARPENTIER WHO IS AT TORONTO FOR BOUT

Toronto, May 8.—(Canadian Press)—George Carpentier, European heavyweight champion, and "prize fighter de Luxe" arrived in Toronto this morning in his special car the "Mayflower," the private car of the late President Roosevelt. He was met at the station by Mayor Church and after being extended the "glad hand," and welcomed by the civic dignitaries, he was given the freedom of the city. In Carpentier's party were his bride of a few weeks, Descamps, his manager; Jules Laeners, his Belgian sparring partner, and Wilson, his trainer.

## JOHN UTTERBACK DIES

Lexington, Ky., May 8.—John B. Utterback, 63, light harness horse driver and trainer, died here yesterday.

## ROGER HORNSBY STAR IN NATIONAL LEAGUE

### Leading All Hitters and Shows Speed on Bases; Ruth and Cobb Begin to Hit

Chicago, May 8.—Roger Hornsby, the St. Louis star, is showing the way to the batters of the National League with an average of .460 and Lebrun of Philadelphia with .375 is the runner up, according to averages released to-day. The averages include games of Wednesday.

### Rousch Pulling Up.

Ed Rousch, of Cincinnati, who held the batting honors of the league last season, gradually is getting his stride, boosting his average to .262, forty-six points during the week.

Robinson, of Chicago, leads in home runs with three. Williams, Philadelphia and Paskert, of Chicago, are tied for second place with two each.

### Other leading batters for ten or more games:

Groh, Cincinnati, .359; Z. Wheat, .357; Daubert, Cincinnati, .336; Duncan, Cincinnati, .338; Bancroft, Philadelphia, .324; Rath, Cincinnati, .324; Burns, New York, .319; Flick, Chicago, .309; Janrin, St. Louis, .306; Fournier, St. Louis, .302; Caton, Pittsburg, .302.

### Ruth and Cobb Coming.

"Babe" Ruth, of New York, celebrated his return to the game by cracking out two home runs. The home run king has a batting average of .261 for 13 games, having made 12 hits in 46 times at bat. His hits, besides the two home runs include a triple and three doubles.

Ty Cobb, the Detroit star, who held the batting championship last season, is rounding into form, and has boosted his mark from .162 to .214 within a week.

### Jackson Still Leads.

Joe Jackson, the Chicago White Sox slugger, continued to top the batters in the American League who have participated in ten or more games. There are three batters in

## LOCAL OARSMEN WORK OUT—STRIKING A LOG

## WILL GET A CHANCE AT NATIONAL HONOR

### Winners in Doubles at Spokane Tennis Tournament Will Be Sent to New York

For the first time in the history of tennis in the United States and Canada, the doubles championship of the United States will be played under an elimination process, by the various sections of the country playing off and the winners of each section going to New York to play in the finals. The North Pacific International Doubles Championship is to be considered as a section, therefore players winning that event at Spokane are entitled to compete for the United States doubles at New York. The Pacific Northwest championship at Tacoma from August 2-7 is an entirely different event.

### RELEASE TWO PITCHERS

San Francisco, May 8.—"Casey" Smith and Tom Seaton, leading pitchers on the San Francisco team in the Pacific Coast League, were given their unconditional release yesterday following charges of gambling placed against them by Manager Charles Graham.

## GREAT PAGEANT IN CALGARY NEXT WEEK

Calgary, May 8.—The historic pageant to be held here Wednesday next in connection with the Hudson's Bay Company anniversary will be nearly five miles long, according to present estimates. There are about 100 floats planned, with many other features.

"Mother," inquired the small daughter of the house, wrestling with her home work, "which is correct, 'Girls is' or 'Girls are'?"

"Girls are," of course," promptly replied mother.

Then came the plaintive reply: "That was what I thought, but this does not sound right: 'Girls, are my hat on straight?'"

## PARIS SPORTS EDITOR KILLED IN AUTO SMASH

Sisteron, France, May 8.—Jacques Cels, sporting editor of the Journal, and his chauffeur were killed and two others were slightly injured when an automobile in which the party was driving, turned turtle near here.

At the time of the accident the automobile was being driven by another editor, M. Velosport, who is organizing the coming international bicycle race from Milan to Antwerp, by way of Lyons and Paris.

## DOMINION

Douglas MacLean, the youthful movie star, is an ardent golf fan. In fact, he is so addicted to the game that he might be classed as a "bug." Every spare moment he can spare from his picture work is spent on the links. He has already beaten handily every person at the Ince studio whom he can induce to match his skill with him and he is hungry for new worlds to conquer.

That's why Mr. MacLean felt like kicking over the traces when he read the script of his new picture, "What's Your Husband Doing?" For, according to the story, the star is halted before a police judge who is a "golf nut." And when the judge learns that Mr. MacLean is a (screen) lawyer, he forces Douglas to take his place on the bench while he takes a vacation to play golf.

"That could never happen in real life," said Douglas ruefully, "and it's

## TO-DAY'S AMUSEMENTS

Royal Victoria—Orpheum vaudeville.  
 Pantages—Vaudeville.  
 Dominion—"What's Your Husband Doing?"  
 Variety—"Crooked Straight."  
 Columbia—"She Loves and Lies."

a big sacrifice to make even in the movies."  
 "What's Your Husband Doing?" which Thomas H. Ince produced for Paramount-Artcraft release will be the attraction at the Dominion Theatre for the last time to-night.

## VARIETY

Charles Ray has another of those country roles which he has made famous on the screen in "Crooked Straight," his new photoplay, produced by Thomas H. Ince, which is at the Variety Theatre this week. It is about a small town youth who goes to the city to make his fortune, falls into temptation and becomes the accomplice of crooks, then returns to the little country village and makes good with a vengeance. The story was written by Julien Josephson, who has supplied Mr. Ray with most of his entertaining vehicles of the past, including "The Egg Crate Wallop." The youthful star is said

not only to have an opportunity to show his athletic prowess, but also to shine in the brand new sideline, that of safe-cracking. Margery Wilson is Mr. Ray's leading lady, and the cast includes the veteran Otto Hoffman, who is getting to be as familiar a part of a Ray picture as the Paramount-Artcraft label. Jerome Storm was the director.

## COLUMBIA

Norma Talmadge has the chance of her life for fine comedy portrayal in the role she plays in "She Loves and Lies." Select's special production which is at the Columbia to-day. In fact it is rather a triple role, as Miss Talmadge appears as Marie Callender, known on the stage as Marie Max, an impersonator, and June Dayne, a Greenwich Village girl. The two roles outside of her own personality are assumed so that she can marry the man of her choice, obtain a large fortune and replenish the finances of the young man she loves. How she accomplishes this is shown in a series of real comedy scenes that start with the opening of the play and continue until its end. Miss Talmadge's charm and versatility were never displayed to better advantage than in this play.

## PANTAGES

Personal interest is getting close to home in the bill of Pantages vaudeville which is being offered this week. With Girard, formerly a musical and vocal artist of Seattle and the author of one of the most famous of musical comedies some years ago, for whom Mr. Joseph Bietheon, of the Seattle Times, wrote the lyrics, as the headline feature, with the presentation of "The Luck of a Totem," and Kay Hawley, a former Seattle High School girl, as premier danseuse of "The Japanese Revue," the special added attraction, the programme has much of the homey feeling. Mr. Girard is also assisted by Miss Agnes Cain Brown, well known to light opera on this coast. Their musical melodrama is filled with the valuable assistance of a capable male quartette supporting them. The "Japanese Revue" is a pictorial affair embellished with dancing, singing and posing. It is a stellar feature.

## GALLI-CURCI CONCERT.

There has been the greatest rush for seats for the Galli-Curci concert at Vancouver, and the booking office in that city is literally inundated with small orders. Eight thousand, six hundred tickets have been printed, and it is certain the enormous Arena will be packed to its capacity on May 24 when this wonderful artist, referred to as the goddess of song, and who is unquestionably the greatest living coloratura soprano the world has known, gives her concert, assisted by Manuel Berenguer, flutist, and Homer Smead, pianist.

Galli-Curci is one of the few great singers whose triumphs on the concert stage are quite as notable as in opera. This is her fourth consecutive concert season, and she is booked for nearly one hundred appearances throughout Canada and the United States.

For the convenience of Victorians who may desire to attend, the concert several blocks of reserved seats are available at Kent's Edison Store and the plan of the building can be seen there.

Unreserved tickets are \$1.10, reserved are \$2.20 and \$2.75. Those desirous of hearing this great artist are advised to make early reservations.

## GOES ON TOUR WITH CITY'S BEST WISHES

Buller's Is Living Advertisement of Home Town

Having pleased four big audiences under its canvas top, Buller's Dog and Pony Show concluded its second season's series of performances at the Stadium last night. That it met with such success here must have been gratifying alike to the proprietor and to the performers, for the approval given here was the approval of the show's own home town.

Since the show was seen here last season it has continued to expand. More animal recruits have been added until now they number somewhere about 100. Ponies of assorted sizes, colors and temperaments and varied gifts as entertainers make up the bulk of the four-footed concourse, and there are also full-sized horses of extraordinary intelligence, educated dogs and some monkeys.

The performance is so multi-faceted that space is lacking here to set it out in detail. The numbers vary all the way from a mass drill by the ponies to a slack-wire balance by a small dog. Among the human entertainers there are a clever child contortionist, slack-wire, trapeze, ring and chair-balancing performers.

There was an interest apart from the entertainment for those who saw the show here, for they were seeing a living advertisement of Victoria. Not very frequently in the past have successful shows of any sort been built up west of the Great Lakes and put and kept on tour. This is what has been done by the Buller people, however, and when the show travels it carries with it the name of Victoria. The novelty of a visit to any town to the eastward of a show which comes to its home anchorage at Victoria is striking, and the greater the success of the circus the better the advertisement for this city. Such success, as all seasoned theatrical and circus managers know, comes only from the attractive quality of the performance offered. Hence the continued prosperity of Buller's show indicates that it will go on carrying abroad publicity for this city.

## FRECKLES

Don't Hide Them With a Veil; Remove Them With Othine—Double Strength

This preparation for the removal of freckles is usually so successful in removing freckles and giving a clear, beautiful complexion that it is sold under guarantee to refund the money if it fails.

Don't hide your freckles under a veil; get an ounce of Othine and remove them. Even the first few applications should show a wonderful improvement, some of the lighter freckles vanishing entirely.

Be sure to ask the druggist for the Double strength Othine; it is this that is sold on the money-back guarantee.

## ORPHEUM PRESENTS EXCEPTIONAL BILL

Henri Scott; Magnificent Vocalist Shares Honors With Engaging Company

What is undoubtedly one of the best all round programmes ever seen in this circuit is appearing on the Orpheum bill this week. Nicely balanced with color and variety of action—the numbers make up a completely engaged whole—in which several offerings stand out as exceptional in their novel treatment. Capacity houses greeted this bill in its travels and last night's gathering augurs well for the run in this city.

Henri Scott, formerly of the Metropolitan Opera Company, a bass-baritone with an exceptionally brilliant range and depth of expression to his audience, and with difficulty escaped from their appreciative reception of his work. His "Valentine's Farewell" from Faust was a distinct change out as spontaneous and genuine as it was prolonged and thunderous. His encore, "By the Waters of Minnetonka," only acting, and his subsequent number, "Toreador," earned such a reception that he was forced to grant yet another encore, a singing of "On the Road to Mandalay," brought this talented vocalist the premier ovation of the night.

A distinct change from the delicacy of the operatic renditions of Henri Scott, but none the less brilliant in its novel portrayal was the farce, "Married," in which Homer Mason and Marguerite Keeler captured all hearts, and reduced the house to a state of weakness from merriment. The farce is a one-act screamer that in spite of the conventional burglar, absent-minded lady, and dipsomaniac husband, contrives to be thoroughly witty and genuinely comical.

Rudnor, a black cat was as popular from the Folies Marigny Theatre, Paris, won instant recognition for his brilliant work, and became very popular to his audience, parting from them with mutual regrets, at the close of a very clever and well sustained presentation of clean and vivacious comedy. He was ably assisted by Frank Herbin and Evelyn Wells, who combine to make the act one of the "Nuttiest" but most engaging ever seen here.

Mr. and Miss Rossella provide a musical act of clever variety, in which Miss Rossella delights her hearers

## "Instead of Going to the Hospital"

writes Mr. Lewis MacPherson, from Halifax, N.S., "I sent for a box of Gin Pills—with the result that I am a well man. I recommend Gin Pills to everyone suffering from kidney trouble."

Mr. MacPherson had suffered untold misery, and, after treating with the best medical help available for 10 months he decided to go to Victoria Hospital, Halifax. He had inflammation of the kidneys and bladder. Two days before his intended departure a neighbour called and gave him some Gin Pills. "Six hours after taking the first dose," he writes, "the effects were simply miraculous." Then he sent for a box of Gin Pills and was cured.

This is just one of the many instances which are being brought to our notice continually. People, out of pure joy and gratitude for release from pain, write these letters to us. What Gin Pills have done for them they can do for you.

# Gin Pills

FOR THE KIDNEYS

The formula on which Gin Pills are prepared was attained only after long and profound study and experimenting. It is unique. It embraces the beneficent properties of the Juniper in the Gin, but eliminates all the alcohol. Combined with seven other diuretics and antiseptics, it goes right to the seat of the trouble, allaying the congested kidneys, healing inflammation, restoring weak tissues, and enabling these delicate organs to resume their work of purifying the blood. Thus the poisons are soon taken out of the system, the pain is stopped, and the debilitated body becomes strong and healthy.

If you have a backache, gravel or any of the symptoms of kidney trouble, get a box of Gin Pills at once. Your druggist or dealer has them at 50c a box with money-back guarantee. Gin Pills taken now may help you to avoid an operation. Do not delay.

## DOMINION ALL NEXT WEEK

Auspices Island Arts and Crafts Club

In co-operation with Amputation Club of Victoria AN EXHIBITION OF PAINTINGS AND DRAWINGS  
 By Mrs. Mary Rita Hamilton Of Vimy Ridge District, will be held in the Arts and Crafts Club Rooms, 202-3 Union Bank Building, from MONDAY TO WEDNESDAY, MAY 10 to 12, from 2 p.m. to 5.30 p.m., and 7.30 p.m. to 9 p.m. Admission, 25c.

## DRINK MORE WATER IF KIDNEYS BOTHER

Eat less Meat and take Salts for Backache or Bladder trouble.

Uric acid in meat excites the kidneys, they become overworked; get sluggish, ache, and feel like lumps of lead. The urine becomes cloudy; the bladder is irritated, and you may be obliged to seek relief two or three times during the night. When the kidneys clog you must help them flush off the body's urinous waste or you will be a real sick person shortly.

At first you feel a dull misery in the kidney region, you suffer from backache, sick headache, dizziness, stomach gets sour, tongue coated and you feel rheumatic twinges when the weather is bad.

Eat less meat, drink lots of water; also get from any pharmacist four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean clogged kidneys and stimulate them to normal activity, also to neutralize the acids in urine, so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive, cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active. Druggists here sell lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

## WHAT A VETERAN CAN DO IN A FEW MONTHS ON THE FARM

Sergeant R. M. King's Otter Point Home, The Homestead

The above pictures show the Dods farm at Otter Point, which was occupied by Sergeant R. M. King, in June last. Mr. King has taken over the land from the Soldier Settlement Board, and is featuring Yorkshire pigs and Bronze turkeys. In the

ten months he has accomplished considerable improvements, and drainage has added 10 acres to reclaimed land, which is under crop. The acreage now is 40. Much of the arable land is in oats. Mr. King was one of the best

known figures in the city, and among veteran associates before he moved his family out on the land. He served overseas in the Western Scots, and was returned to Victoria in December 1917. After he recovered his health again he took an active

share in the welfare of the Comrades of the Great War, to whose head he was elected as president in December 1918, at a casual vacancy, and was chosen president in January, 1919. He continued in that office until May when he laid down his work to take up the farm.

### SAANICH FARMERS BUSY SEEDING

Operations in Hand Throughout Peninsula; Soft Fruit Crop

Seeding operations are in full blast on the Saanich Peninsula both with horses and tractors. Tractors are in use to a slightly larger extent than twelve months ago. Most of the high land is ready for attention, but the lower levels, which are drying out rapidly, will be ready also in a few days.

The reports from the two berry districts of Saanich, Keating and Gordon Head, are conflicting. Two factors, the dry summer of 1919, and the January frost, are set down as being responsible for a number of the plants being pulled out at Gordon Head, while in the Keating district the crop prospects are good. However, Gordon Head growers are looking expectantly for a crop, the measure of which will be largely dependent on the advent of early summer rains.

### ROTARIAN AIMS SUBJECT OF ADDRESS

Craigflower Parent-Teachers' Association Welcomes President Scott

The Parent-Teachers' Association of Craigflower School was last night treated to a spirited address on Rotary work by J. F. Scott, president of the Victoria Rotarians. Outlining in general the aims and objects of the club, the speaker traced the influence for good that the Rotarians had exercised in cities throughout the entire North American continent. He cited the institution of a boys' hotel at Kansas, tubercular clinic at Vancouver and added that the local organization was backing the boys' camping movements this year at Patricia Bay. One telling claim made by Mr. Scott was that in Rotary, when the minority found that they had lost out on any question, they get solidly behind the majority and help to boost—instead of sulking. Mr. Scott spoke for a considerable period and was warmly received.

The regular monthly meeting of the West Saanich Women's Institute will be held at their rooms, Sluggs Station, Tuesday afternoon, May 11, at 2:30 o'clock. Miss Olive Hayes, provincial instructor of Household Science, will address the meeting on "Newer Nutrition." A demonstration on First Aid will be given.

### WINDING UP NAVAL BASE AT ESQUIMALT

May 15 Set As Date of Official Closing; Rainbow to Be Sold

With May 15 set as the date for the final closing of all naval activity at Esquimalt—the dockyard personnel is now busily engaged in winding up affairs. Captain E. H. Martin, Senior Naval Officer, told The Times to-day that by the appointed date all will be completed as far as the personnel is concerned. A large mass of stores and the settlement of accounts will, however, keep the accounts and stores department busy for some time yet.

The other vessels will be turned over to the various departments as under: The Armentieres, to Tidal Survey work; Givenchy to Fishery Patrol Service; Stadacona and Malaspine to Fishery Protection work. The dockyard and other branches of the works department will of course, continue as before—as will the wireless shops under the Dominion control. Some twenty men will be left at the Yard to clean boilers and tidy up generally. The accountants will be some little time finishing off their work, and no word has yet been received as to the disposal of the large quantity of stores on hand.

Captain Martin and the Imperials will go back to England but the popular commander will be back here again after his retirement.

### RECITAL AT SIDNEY

Although there was not a very large number of people at the Edison Recital in the Berquet Hall last Monday evening, those who did attend enjoyed the entertainment from start to finish. The selection of records for the Edison phonograph was a varied and pleasing one. Those who took part in the dancing found that the Edison gave excellent music for this pastime. There were also songs, instrumental duets and quartets, and these, combined with the dance records, furnished excellent music for the evening's entertainment.

During the evening refreshments were served by members of the North Saanich Women's Institute; under whose auspices the entertainment was given.

A hearty vote of thanks was extended to Mr. Kent by Mrs. B. Deacon, president of the Institute, for the pleasure given all those in attendance. Mr. Kent replied briefly, and expressed the hope that it would not be the last time the Edison would be called upon for like entertainments.—Sidney Review.

### SPRING ACTIVITY MARKED IN OAK BAY

Would-be Residents Find Houses Scarce; Beaches Popular

This year as never before, Oak Bay district is experiencing an influx of would-be residents, says Mr. Carmichael, President of the Real Estate Exchange. The difficulty is that of securing suitable houses for the visitors, and, in spite of the cost of building not a few are seeking a way out by construction.

Road improvements are now under way, amongst which will be the completion of the marine drive around Gonzales hill and several important connections in that district. The projected baths are being perfected, and a meeting of the promoters has been called for eight o'clock next Monday night at the Oak Bay Municipal Hall.

### VANCOUVER ISLAND NEWS

Ladysmith: The Newcastle Court of the Ancient Order of Foresters kept up the reputation they have gained in the city for doing things well when they successfully held a social evening and whist drive on their last meeting night.

The evening's festivities opened with a whist drive which occupied all the available space that could be given to the players. The drive was well managed and highly successful. The prize winners were as follows: First prize, lady, Mrs. D. Gourlay; second prize, lady, Mrs. W. Joyce; first prize, gent, Mr. H. Forward; second prize, gent, Mrs. W. Joyce.

Port Alberni—Work on the construction of a new shingle mill for the Alberni Shingle Company, an organization of returned soldiers, is to be started and it is planned to have the industry in operation within a month from the commencement of pile driving, says The Port Alberni News.

### ESQUIMALT WON OUT IN DRYDOCK FIGHT

Tenders Will Be Called Shortly and Provision Made For Initial Work in Estimates

Referring to the decision of the Federal Government to build the drydock at Esquimalt, a special wire to The Vancouver World from Ottawa says:

"The long fight over the location of the big drydock in British Columbia is practically settled. The plans for the first unit are completed, and tenders will be called for shortly. The site will not be at Lang's Cove, which was originally selected, and the land purchased there, but at Skinner's Cove, the land contiguous to which belongs to the Hudson's Bay Company. The land will be expropriated from that company.

"The first unit will cost about \$5,000,000. When completed, the work, it is estimated, will cost \$8,000,000. A re-vote of \$500,000 is in this year's estimate to commence the work. Sir John Jackson's representatives have been here for some time and the name of this big firm is mentioned in connection with construction.

"A hard battle has been going on between the Vancouver and Victoria members with respect to the location, but the capital seems to have won the day.

"The dock is of the first class graving type, 1,150 feet long, 125 feet wide at entrance."

### COTTAGE GARDEN MOVEMENT BRISK

Saanich Small Holders Are Fighting Cost of Living Bogey

The Cottage Garden movement in Saanich is making good progress in the urban wards of Saanich, and several successful shows are promised this fall. Most of the associations are organized for the season, and garden and lot cultivation is proceeding steadily.

As already stated, the applications at the municipal hall under the Great Food Production Act are steadily increasing and the year will achieve a record or such application. The formation of the various Parent-Teachers' Associations in connection with the schools will secure a great interest in school grounds, and incidentally in school gardens. Some of the chief schools are still handicapped by lack of space and physical conditions of the site from the fullest measure of success in this

## CHEERED CONVICTS

BY HER SINGING

Mrs. Macdonald Fahey Was Warmly Welcomed by Singing Inmates

On no less than three occasions during Mrs. Macdonald Fahey's stay in New York last Winter she had the opportunity of singing at the New York state prison, at Auburn, Sing Sing, and there communicated her message of love to the unfortunate inmates.

Mrs. Fahey's visits were red-letter days in the routine of prison experience. Her wonderful voice created a profound impression and brought cheer to many who had seen much of the sombre side of life and little of the light. After her first appearance at Sing Sing, the men gathered about, thanking her heartily for singing to them, and on her return visits they were always overjoyed to see her. There were many personal expressions of gratitude. One particular instance stands out.

One of the songs Mrs. Fahey sang at her first concert was "Leave it to Him." When she visited the prison the second time one of the long-termers walked up to her. "You have been a great help to us down here, Mrs. Fahey," he said. "Last time you were here a chum of mine seemed all broken down; his spirit seemed gone. Then he heard spirit sing that 'Leave it to Him' song. Well, he's leaving it to Him now. He's got back his spirit, too, and finds a new pleasure in even this kind of life."

Mrs. Fahey will give a recital in the Royal Victoria Theatre on May 20. This will be her only recital before she returns to New York.

## GALLI-CURCI TO SING

AT VANCOUVER ARENA

World's Most Famous Soprano to Give Recital on May 21

The claims of the west as a music-loving and musical centre are gradually coming to be recognized by the impresarios and managers of the East and a noticeable increase in the number of really great artists coming to this Coast has been observed during the past few months. The latest announcement of unusual interest to music-lovers is that Amelita Galli-Curci, the world-famed coloratura soprano, is to give a recital at the Arena, Vancouver, on Friday, May 21.

Of her it is said that: "When Amelita Galli-Curci was crowned by the world of music-lovers as their reigning queen of song it was the charm of novelty which drew them to her with a suddenly awakened impulse. She was a new sensation. Her advent marked the birth of an epoch in vocal art. Amid the acclaim was heard, here and there, a note of warning: 'Wait and see. Sensations are transitory. Some epochs are very brief.' Time, the true test of all things, has left her secure in her reign. She is no longer a new sensation, but a perennial delight.

The art of Galli-Curci blossomed to the world as some hitherto unknown flower. It constantly discloses fresh beauties all its own. It inspires in us an ever-increasing interest and a livelier sense of the opportunity such art as hers affords us to bring new pleasure into our lives."

The seat plan for the recital opens on Monday, May 10, and mail orders will be accepted at Kent's Edison Store, Victoria.

## CHANGE IN SENTIMENT REGARDING CHURCH ORGANS

About 200 years ago a musical enthusiast wished to donate an organ to a Puritan church in Boston. The gift was refused by an overwhelming vote taken among the members of the church for the Puritan Fathers said: "We do not think it proper to use the same in the public worship of God." At this time when the Pilgrim Fathers landed at Plymouth, America 30,000 people crowded St. Peter's church at Rome to hear a recital at the organ given by the great Frescobaldi. It is said that Sebastian Bach walked fifty miles to hear a well-known organist play, at almost the same time the Puritans refused the gift of an organ. But the organ has survived the Puritanical ban, and is now reigning supreme in the church; in the concert halls throughout the world; it is in the home, and has become a prime requisite in the music of the "movie" houses. Persons to-day do not have to walk fifty miles to hear the grandest of instruments, organs now are everywhere, and the opportunities to hear organ music of all epochs and schools are many indeed. Of all instruments the organ is the greatest interpreting medium for musical literature, and there is no doubt, whatever that music lovers by the thousand are being created by the unusual and opportune conditions that now exist on all sides. In nearly all cases the instrument itself is invisible, and there is nothing

## To Appear in Joint Recital

MRS. GERTRUDE HUNTLEY GREEN

whom Leopold Godowsky described as his favorite pupil, is to give a recital with Miss Mary Izard, the violinist, at the Royal Victoria Theatre on May 13. The programme will include several very attractive numbers including the Tachalkovsky Concerto, by Mrs. Green, with Mrs. James Cameron at a second piano, and the Kreutzer Sonata (Beethoven) with Mrs. Green and Miss Izard. This sonata is considered the greatest of the Beethoven sonatas, being composed by the master for Kreutzer, and dedicated to him. It is intensely dramatic in conception and has never before been played in Victoria.

MISS MARY IZARD

the gifted young violinist, will make her last public appearance before returning to England at a joint recital with Mrs. Gertrude Huntley Green at the Royal Victoria Theatre on May 13.

which makes its appeal through the ear alone. That music is the art form which best stimulates musical appreciation.

## MUSICAL NOTES

(By George J. Dyka.)

"Samson and Delilah," by Charles Camille Saint-Saens, "A Sacred Drama," was sung in concert form as an oratorio many years before its presentation with dramatic action. It is an opera so strictly following the account given in the Bible (Judges XVII, 4 to 30), that the text might almost be called a poetic sermon. The poetry and pathos of the tragedy of Samson's temptation and fall, with the consequent re-subjugation of the Israelites to the Philistines; the piteous entreaty of God, in which Samson begs to be permitted to expiate his sin and save his people; the revelry of the multitude in the temple of Dagon, where, in the midst of their revelling God, Samson's penitence is rewarded by the recognition of his returned strength and he is permitted to strike a mighty blow for the Lord and His chosen people by the destruction of the temple and the thousands within it, and on the roof; all are graphically set forth with music which has been pronounced the composer's masterpiece. Upwards of 25 years ago Saint-Saens was in the audience as guest of honor when a performance of the opera was given in Philadelphia.

We note this week the passing of several well-known English musicians, who, no doubt, are known to many musical people of this city. Raymond Rose, died suddenly after having attended an extremely successful theatrical performance. One of the foremost of English conductors, Raymond Rose was for years an active figure in the musical life of London, and only recently had been prominent in his efforts to further the interests of orchestral players, who had served at the Front during the Great War, by the formation of the British Symphony Orchestra. In November last, this orchestra had the honor of being invited by King George to play one evening at Buckingham Palace. He was born in 1875, and first made his reputation at the Lyceum Theatre where he was musical director to Sir Henry Irving. Later he filled a similar position at His Majesty's under Sir Herbert Tree, and wrote overtures and incidental music to many of Shakespeare's plays. His own Opera "Joan of Arc" was first given in a concert version at Queen's Hall in 1911, and was later produced at Covent Garden, which he directed.

Lt. Samuel Suckley, well known in the Midland counties. Lt. Suckley was born in 1855, beginning as a drummer-boy at the early age of eleven. He was conductor of the Sheffield Choral Union and the Collegiate Orchestral Society, and chairman of the Sheffield Local Board of Examiners for the Royal College of Music. Samuel Kramer Suckley, his son, is bandmaster of the Yorkshire Hussars.

J. A. Rodgers, died after a brief illness at the age of fifty-four. Mr. Rodgers was also well-known in the Midlands. For several years he held an important post with the chorus of the Sheffield Musical Festival, and for many years he was director of the Sheffield Musical Society. He had been organist at several well-known Sheffield churches, his latest appointment being at St. Mark's. He frequently acted as adjudicator at important musical festival competitions; was a leading critic, an author and lecturer. He was managing director of a prominent music house in Sheffield.

Sedley Taylor, born eight-five years ago. Mr. Taylor was a distinguished acoustician. He was formerly fellow and librarian of Trinity College, Cambridge. The first edition of his well-known book, "Sound and Music," appeared in 1873, and his "The Indebtedness of Handel to Works by Other Composers" was published in 1905. He was twice president of the University Musical Society and acting of the University Musical Club from 1893. Mr. Taylor passed away in Manchester.

The concert in New York's famous Temple of Song—The Metropolitan—a few weeks ago, was the 1,000th free concert given under the auspices of a newspaper, the "Evening Globe," of New York. The "Globe" concerts are gala nights, the best artists are engaged, no expense is spared; addresses are given; and immense crowds join the huge auditorium. John C. Freund, the editor of "Musical America," during the course of an inspiring address said: "The whole culture of any nation will be raised by development of the love of music." "Music belongs to all humanity, its divine mission is to cheer, console, uplift, to humanize and civilize." "It is the universal language, begins where words end, and whispers to us of immortality." Concluding his address, Mr. Freund answered his own question, which proved the climax of the evening. "What is the world cry? but 'the cry of a better life.' It is estimated that over two million people have attended the 'Globe' concerts.

The tour of an American orchestra through England, France and Italy, was initiated by the departure of Walter Damrosch, conductor of the New York Symphony Orchestra, on the 22nd of April, on the S.S. France, for Paris. The orchestra left New York a week later. The English arrangements are under the personal supervision of King George (God Bless him for it). Doctor Damrosch, when departing for Europe said: "I consider this the very one of the highest honors ever paid to an American orchestra." One cannot but think that many of those orchestra players will thus have an opportunity of visiting their home towns, for many of these musicians came originally from Europe. May they all have a

### ALONG VICTORIA'S AUTO WAY

Up-to-the-Minute Activities and Sayings of Local Motor-  
dom Boiled Down to Facts and Put in a Form So  
They Can Be Digested Most Effectively.

Victoria Motor car distributors are already getting down to formulating plans for the handling of used cars along the lines intimated in this column last Saturday.

At a meeting of the dealers this week, under the automobile section of the Board of Trade, the whole problem of handling the traded-in car was taken up.

Dealers decided that the time has come for standardizing the values of used cars, so that distributors will not be forced to bid against one another for an old car in order to make the sale of a new car and in the transaction sacrificed all their commission.

It is proposed to introduce to the Victoria trade a table of used car values, covering every make of car and every model. These prices will be maximum prices beyond which each dealer will agree not to go when it comes to making allowances on traded-in stuff.

The scale will be based on a certain percentage of discount for each year in the age of the car. This will be the basis of valuation. Allowance for the condition of the car will be considered after that.

The Vancouver trade now has such a plan in operation. Details of this are to be brought to Victoria at once by one of the motor houses having a Vancouver connection.

When the plan is working, the owner of a used car who wishes to trade it in on a new car will be offered the same allowance by each dealer in the city.

This, the dealers explain, will be to the advantage of the buyer as he will then be able to pick the new car that really takes his fancy and not feel himself forced to take a make which is not his preference simply because its distributor, to make a sale, is willing to allow him more than the other fellow on his old car.

Tom Plimley has just completed the Spring-cleaning of used cars that his firm has taken in as part payment for new cars. Al Plimley, in charge of the clean-out, has disposed of every used car that is saleable except one.

Jack Cartier, of Cartier Bros., Johnson Street, is leading the move for the improved status of the used car trade. His firm has already adopted the policy of standardizing used cars as much as possible and placing a blanket guarantee on every machine he puts out—a guarantee that protects the customer just as if he were taking a new car.

The first of the new Gray-Dort roadsters has been brought to Victoria by Jameson & Willis. It has been delivered to Mrs. C. M. Roberts, of The Angela.

The Gray-Dort Roadster is finished

this week to the Victoria Baggage Co. It is a 1 1/4-ton model for fast and heavy delivery work. Plimley's are building a special body for the truck.

The more people who get their tires made puncture-proof, the more people who came along and want theirs so treated.

This is the interpretation of the announcement from Carmichael Bros. that this is the heaviest week they have yet had in the Kor-ker business.

Here is the list of the last few days of persons and firms who have had their tires Kor-kerized so that all worries of punctures will be eliminated this season.

Dr. Bechtel, H. Craven, David Spencer, Ltd., Mr. Hall, Manager Bright, of the Island Auto Traction Co., Vickery & Fisher, Weller Bros., Dr. Milne, and Arthur E. Kent.

J. C. Macdonald, who is now operating the fleet of thirty "drive yourself" rent cars has decided to remove all fear of puncture trouble from his clients. He started out this week by having the tires on two of his cars Kor-kerized.

Frank Moore has been appointed special city installation representative for Kor-ker under Carmichael Bros.

So much did one of the new light Grant trucks appeal to the officials of the Victoria Lumber Co., at Chemainus the other day when Ed Revercomb made his trip to Nanaimo with the truck, that they bought it on sight.

A carload of new Chandlers arrived during the week at Tom Plimley's. They were all delivered to buyers at once.

Those who got the new Chandlers are: Arthur W. Coles, J. C. Macdonald, J. R. King and Paterson, the clothier.

Another shipment of Studebakers leaves the factory this week for Victoria, according to an announcement to-day from C. H. Willis, of Jameson & Willis. From now on Studebakers will be coming through in greater numbers, he says, because of increased factory output and restrictions on exports.

The next shipment of Traffic, known as the fastest selling truck in the world, is on the way to Ashton's, Ltd. It will arrive within two weeks, according to an announcement from Stuart Clark, the manager.

The latest model Giant truck has come to Victoria, in care of Jameson & Willis. It is a two-ton model, with superlong wheelbase and extra heavy springs.

Another noteworthy feature of the new Giant is the Brown-Lite transmission.

Ed Revercomb, of Revercomb Bros., tried out one of the new Grant Light Sixes over the Malahat the other day. Going up and coming back she took everything on high gear.

Kolterman, Bros., of 721 Johnson Street, who are operating the Island Auto Livery, on the "drive yourself" plan are making their arrangements for the busy Summer tourist and travel season by sketching out a series of tours which they send their clients out on. These tours are arranged by experts who know all the roads and beauty spots on the Island.

"The Scripps-Booth Corporation believes that the policy which will best protect the interests of Scripps-Booth owners is the policy which will best maintain the reputation of Scripps-Booth cars.

"This is the business creed which Jack Cartier, of Cartier, Bros., has brought to Victoria, in his selection as Victoria and Island distributor of the Scripps-Booth. Here are some other things he says about Scripps-Booth business policy:

"With this ideal in mind, the Scripps-Booth Corporation has used all the vast resources at its command. The new models are products of the ripened experience of the best automotive engineers.

"Continual advancement and betterment irrespective of price, and the constant maintenance of the highest standards and ideals is reflected throughout Scripps-Booth cars in their originality of design, mechanical excellence and sturdy construction.

"The new Scripps' models possess in greater measure than ever before, marked characteristics of quality, value, beauty and exclusiveness.

"Scripps-Booth beauty reflects the inherent quality of the car. From the lustrous finish on the body to the bronze bushings in the mechanism, utmost skill, engineering progress and careful construction are evident in this exceptional six-cylinder car.

"These new models are designed, machined and built in the new Scripps-Booth factory, which provides ideal facilities for the continuance of Scripps-Booth standards.

"The prospective purchaser, therefore, is certain of securing the fullest equivalent of the money he proposes to invest, feeling sure that he will secure full service and satisfaction from his purchase.

"These new models represent the greatest possible attainment of Scripps-Booth ideals—results of a determined and conscientious effort to build the finest motor car in its class, sponsored by unlimited resources, engineering skill and experience."

## OPEN ALL NIGHT

Overlands are still going up the Island. The Duncan garage took two more during the week.

Another Overland went from Victoria to Alberni. It was taken by W. LeHuray.

Mr. and Mrs. LeHuray came to Victoria by train to take their new car home with them. At Cameron Lake the car suddenly stopped. The only trouble, however, it turned out, was that in buzzing up the Island roads, Mr. and Mrs. LeHuray were enjoying themselves so much that they forgot all about the necessity of seeing that there was gasoline in the tank. Their gasoline had all been used up. They had to walk back to the Cameron Lake chalet, eight and one-half miles, send word to have gasoline sent out from Port Alberni.

The Dominion tire people are featuring this season, the Royal Cord.

The Royal Cord is built up of thousands of strands of cord so woven that they largely eliminate friction. This on the road proves to be a big factor in the saving of gasoline.

Dr. C. A. Boyd is one man who wants to spend most of his time these days burning up the road between here and Shawnigan Lake, where he has an estate.

Dr. Boyd has bought one of the new Mitchell Sixes from the Mitchell Motors, of which P. B. Graves is head. The car is so lively on the heavy grades of the Malahat that it is now the chief joy of the doctor's life.

One of the features of the new Mitchell, on the country touring, according to Dr. Boyd, is the absence of sideways. The car clings to the road perfectly, he says, and in this respect is quite different from the big car he drove until recently.

First of the Commerce trucks to be delivered by the sales force of Tom Plimley, since he took over the agency from Milliken & Downer went

## WHAT KEEPS YOUR CAR GOING IN THE STRAIGHT PATH?

Steering Gear, How It Works and How to Make Sure It Goes on Working

For the benefit of the motor novice and the man who expects to own his first car this season, The Times is publishing a series of articles on the construction and operation of motor cars. This is the twelfth and deals with the steering apparatus, its care and upkeep. Another article will appear next week.

You don't have to carry a good and shout "Gee" and "Haw" until your lungs are sore to steer the auto out of ruts and away from broken glass or other obstructions. It slides about the streets, turns corners and moves up to the curb at the precise six-inch distance prescribed by the police. A simple turn of the wrist—and not much of that—does it. Why is it that you can steer the car so easily? Well, it took a lot of midnight oil and a lot of gray matter to produce this result. Here are some of the reasons why you have so little trouble:

The first car had a long bar like a tiller on a boat, such as you sometimes see on an electric to-day. There was not much else except the shaft and several levers below to attach the shaft to the axle, first, and then to the steering knuckles. It was a genius who studied out the latter, after it was discovered that an auto could not go very fast with a loose front axle like a wagon. Improvements followed, until to-day we have an almost vibrationless, easily controlled steering mechanism which does not tire one's arms as though engaged in hard manual labor. Not is the wheel wrenched out of one's hands as was the old bar, or early wheel when there was only a gear and rack to transmit direction to the wheels.

**Mechanics Of It**  
The common steering mechanism to-day consists of a wheel attached to a rod or tube mounted in a housing in which it turns. On the lower end is a worm, or spiral gear, which meshes with a worm gear or sector, through which proper motion is transmitted by a lever, called a drag link, to one of the steering knuckles on which a wheel is mounted. A rod known as a tie bar, connects this knuckle with its mate, on which the other front wheel turns, so that they move in common.

Where the throttle and spark control levers are mounted on the hand wheel the steering post is a tube. Within it is another tube to which is attached a lever, controlling, with

## SPEED FIENDS PREPARE FOR BIG RACES HERE

GUS DURAY

The Furious Driver of Stutz Special No. 7

The automobile races at the Willows, on Saturday, May 22 are attracting widespread attention, as every well known speed king of the Pacific Northwest will be at the wheel of a fast racing car.

From Vancouver will come the Canadian crack drivers Carl Erickson and Jim Healey. From American cities will come Geo. Lott, Jack Rose, Gus Duray, Walter Blume, Henri North, Chas. Latta, "Wild Bill" Giddings, Will McDonnell, Jim Butera, Ira Hayes, Bill Alexander, Lloyd Bulger, Cliff Macbeth, Hugh Swartz and others. The official entries will close on May 12. Indications point to the largest list of nominations that have ever made for a dirt track race meet in the West.

A point of interest to local mechanics and speed fiends is the fact the local executive committee have been notified that very few of the visiting speed kings will bring mechanics with them. Victoria mechanics will be given the opportunity for some fast riding during the racing by acting as mechanics for the drivers.

In the heavy car racing division can be mentioned Lott's Stutz Special, Lott's Special, Romano Special, Ross's Stutz Special, Vancouver

Special, Yakima Special, Hayes Special, Healey's Stutz Special, Swartz's Mercer Special and probably others, as entry blanks have been requested by drivers of Portland and California.

The Victoria meet is the first big auto racing event of the auto racing season in this part of the world. For months the drivers have been working on their racing cars and there will be several new racing machines that have never been raced in the Northwest before. There will be six races on the programme, including the Victoria International Sweepstakes, free-for-all for a distance of twenty-five miles, and the drivers' race for fifty per cent. of the gross gate receipts which is divided into percentage purses, with four moneys in each event. The drivers have had years of experience in the racing game, but they race for the sport and excitement of the racing and it is not money consideration with them. Clean sports and sportsmen is the motto of most of the men who will contest in the various events on May 22.

All racing cars and drivers are required to be in Victoria on Friday, May 21, but some of them will arrive several days before that to try out the track.

proper linkage, the throttle. Within this inner tube there is a rod, with a lever on the lower end, and linkage from this controls the spark advance. All the linkage mentioned here has ball and socket connections, easily kept lubricated and clean, and the entire mechanism usually is easy of access, so that there is no excuse for not keeping it in order. And, inasmuch as upon its condition much of the comfort of steering depends, the wise motorist will spend a few minutes occasionally looking after it.

**Wear in One Spot**  
Fortunately there is little trouble with the several devices which make up what usually is dominated the steering gear. About the only wear there is comes to the worm and worm gear or sector. These move together for such a limited part of the thread and gear that all the wear comes practically in one worm. The worm gear is fastened on an eccentric to take up this play, but this only moves the parts together and there might be a binding when the wheel is turned for a sharp curve. So that on an old car where there is much play it is wiser to take off the worm gear and turn the steering wheel half around, then replace the worm gear or sector in a new one, and it will engage a part of the worm which is not worn.

If not kept lubricated, the ball and socket joints will wear and give an annoying play, besides making the front wheels wobble excessively, but there ordinarily will be little trouble between the steering wheel and the steering knuckles with slight attention regularly, according to book.

As has been stated previously, the front axle does not move, but is rigidly attached to the frame. On each end of the axle is a steering knuckle mounted in a yoke and moving on a pin. A spindle on which the wheel hub revolves is attached to or a part of the knuckle. A tie rod connects the knuckles and is provided with a turnbuckle or other device for keeping the wheels parallel.

Although in theory the wheels should be at all times exactly parallel in practice they are not, and the reason why they are not is exactly why the auto steers so easily. No matter how perfect the steering devices may be, to prevent vibration, wheels turning straight ahead would magnify every little unevenness of the road and turn the wheels aside, producing a wabbling effect.

A square prow scow does not steer easily in the water; with the pointed bow the water presses equally on both sides and keeps the vessel straight. So with the auto. The wheels are very slightly toed in, and there is equal pressure from either side, tending to keep the wheels straight ahead. But beware any excess in the toe-in of the wheels, for then there is a grinding of the tires over the roadway, with great wear. I have seen a pair of tires worn through the fabric in a seventy-five-mile run because the tie rod had been bent enough to throw the wheels off true. There could be no replacement, for it was not the fault of the tire but of the mechanism.

The wheels do not run perfectly vertical, either, but are slightly off the upright—narrower at the bottom than at the top—so that the load is brought directly over the tire; that is, a vertical line of weight would intersect the knuckle and tread contact, and there is thus no undue strain upon the knuckle. The steering knuckle pins also, are often set

## What The Experts Say

While every effort has been made by manufacturers of electric starting and lighting systems to ensure that the various units should function as nearly automatically as possible, it is evident that some attention on the part of the car owner is necessary.

The generator must be examined every so often, and should any carbon dust be worn from the brushes by the commutator and deposited in the lower part of the casing, it should be blown out with the tire pump.

An accumulation of this dust may result in a short circuit between the brush carrier and the generator case.

The brushes are a part of the generator which demand the most care, and, usually, when trouble develops it starts with them.

They should be examined to see that they are in perfect contact with the commutator and that they do not stick in the brush holders.

One of the most usual causes of imperfect contact between the brush and the commutator is insufficient spring tension.

The commutator must be kept clean, as any dust or grease on the segments will collect carbon dust and produce short circuits.

The starting motor is also subject to electrical ills, among which are: Improper contact with some metal part of the generator or car, short circuits, brush and commutator troubles.

All wiring should be protected from the rotting action of grease, oil and water, and when a wire is run where these substances are apt to accumulate the regular insulation should be supplemented by a conduit of insulating material such as fibre tubing or armored cable.

If the wires are removed from the generator for any reason care must be taken to insure that they are put back to the same terminals, as they were originally connected.

In fact, whenever any wires are disconnected from any of the units of the system, the wires and the terminals should be marked so that they can be correctly replaced.

If the wires are reversed the ammeter will indicate a dead short-circuit by swinging to the extreme on the discharge side of the scale when the engine is started, and if this defective condition is not corrected the battery will be soon discharged.

Special care should be taken with the connections in the lamps and at other points.

A short circuit occurs when two wires of opposite polarity are in metallic contact.

Under such conditions the storage battery will be discharging, and there will be no lights at the lamps.

A short circuit may occur at any point in the wiring system, but is usually found at terminals that have

been carelessly made or by worn insulation on wires.

A short circuit will be indicated by the position of the ammeter's hand.

Consequently it is advisable always to note the position of the index hand of that instrument when the car is stopped.

With the engine stopped and no lamps alight the hand should point to zero.

If it does not do so the ammeter either needs to be properly calibrated or there is a leak of current from the battery at some point in the wiring.

To make sure the ammeter is correct, uncouple one of the battery terminals of the lighting system.

Obviously, if the hand swings to zero the trouble is leakage of current which should be immediately traced and eliminated.

If the index hand does not point to zero, the instrument should be tested and repaired.

## Operating Costs Affect Design in Motor Cars

Manufacturers, According to Scientific American, Are Striving to Reduce Weight of Vehicles and to Secure Greater Mileage From Gasoline.

The present era of high prices and the prospect of a great increase in the cost of gasoline are playing their part in determining the characteristics of the motor car of the near future.

During a recent trip through the automobile manufacturing centres, the editor found that there was a decided effort both to reduce the weight of the car and secure a greater number of miles per gallon of fuel. In several cases leading manufacturers are developing cars of medium weight and power, whose fuel consumption is less than one-half that of their heavier cars and whose weight does not exceed 3,000 pounds.

In one instance, the manufacturer stated that the lighter car, with half the number of cylinders and only two-thirds of the weight of their heavier cars, would, nevertheless, show an all-round performance that was within 90 per cent. of that of the more powerful and heavier machine.

It is noteworthy that in the case of the medium-weight and medium-priced cars above referred to, the avowed object aimed at by the designing engineers was to obtain much greater mileage per gallon of fuel and so prepared to meet the inevitable increase in the cost of gasoline. To this end builders are disposed to abandon the multi-cylinder engine in favor of four or six cylinders and raise the revolutions from 2,700 to 3,000 per minute.

Develop High Speed Engines. Obtaining power through increase of the speed factor means a proportionate reduction of the weight factor, and experience has shown that for the same output of power a small high speed engine is far more economical than a larger engine running

## "GAS" AT 95 CENTS

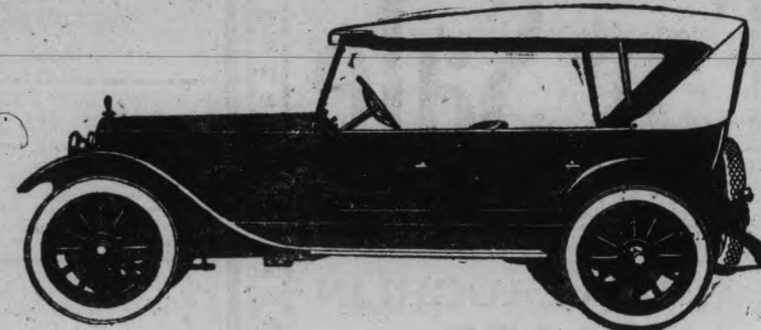

That is the Price in England, Which May Be Made League of Nations Problem.

In connection with the increasing price of gasoline, which is a more serious question for foreign countries than in America, the London Board of Trade recently prepared a very comprehensive report dealing with the costs of production and transportation, which was published in full in The London Times. Gasoline was advanced a few weeks ago in England; the price there now being from 90 to 95 cents retail per gallon.

"We are strongly of the opinion," states the committee compiling the report, "that the whole question of the production, price and distribution of motor fuel should engage the attention of the League of Nations, or otherwise be made the subject of international agreement between the Governments of the principal importing nations, with a view to co-operation in fixing at a fair level the price chargeable for so vital a necessity of modern industrial life."

"We find," adds the report, "that the present high prices for motor fuel are mainly due to a demand which is tending to outstrip the world's present supply, and that advantage is being taken of this tendency by powerful financial interests to raise prices."

# GRANT SIX

## Other People's Comments

One man says, "I never saw a car of the same wheelbase that is so easily handled. It turns in small space and steers with remarkable ease."

"The clutch engages and disengages so easily and the brakes are so gentle and yet so positive that even a 70-pound woman can operate it without effort," says another.

"I never sat in a more comfortable car, and even at speeds over 25 miles, it runs along so smoothly and with so little effort that one needs to keep his eye on the speedometer. 2200 miles already driven around the state have convinced me that you are

producing the easiest riding, easiest handled light six in the world."

These remarks are not surprising to us, for the Grant Six is not only an unusually good looking car—it is unusually fine mechanically and it is built to last as well as to serve.

Come and see it at your convenience. Only 20,000 of these fine cars will be built. We suggest early orders.

## Be Ready With a Cletrac

You will find the tireless all-round handiness of the Cletrac useful for every kind of work on the ranch.

The Cletrac farmer doesn't need to lose time. He can handle the big jobs as they come along and he always has the odd jobs done. Weather conditions or short seasons make no difference, the Cletrac keeps going more hours—longer days.

All the year round—ploughing, disking, harrowing, seeding, pulling logs, hauling loads, sawing wood, mixing cement—the Cletrac Tank-type Tractor will buckle down to work and save you money.

The Cletrac, with its big wide tracks—800 square inches—is better because

it goes over rough spots, in sandy places, and across soft ground. It does not pack the soil or injure seed beds—rides on top.

The Cletrac is easy to control—no more trouble to drive than a team of horses. Operates on coal oil (kerosene), perfectly.

The improved Cletrac has more power and tracks one-third wider. There is an exclusive steering device and a new water air cleaner that takes out the dust that would grind the pistons and overheat the motor.

Buy now. We can give you prompt delivery and every service you need with your Cletrac. "Selecting Your Tractor" is a booklet you want. Write for it.

# GRAY-DORT

Built in Canada by Skilled Canadian Workers and Canadian Capital

## Thousands of Gray-Dort Owners Endorse its Value

All the sterling qualities which made the Gray-Dort dominant value in the past are embodied in the Gray-Dort of to-day.

Ten major improvements and a dozen refinements have heaped value on value.

Gray-Dort dealers will show you these improvements—will explain how they add life, comfort and beauty to the car.

They will also tell you that everything points to a shortage of Gray-Dort cars this year in spite of doubled production. It would be wise to see your dealer at once.

The Gray-Dort 5-passenger touring car is \$1465 f.o.b. Chatham, war tax extra.

The 2-passenger roadster is the same.

The Gray-Dort Special, with extra equipment and beautifully finished, is \$150 extra on the standard.

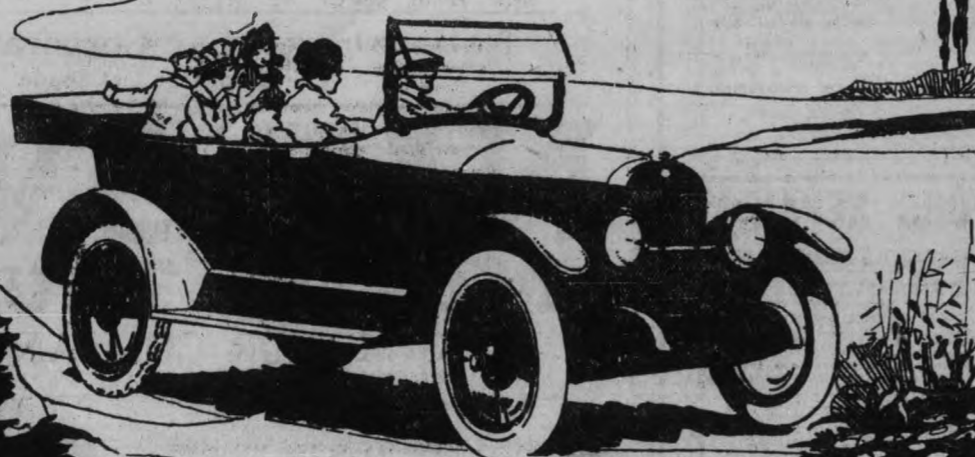

The Gray-Dort Ace, the most beautiful light car of to-day, is \$255 extra on the standard.

## CANADA NOW SECOND NATION IN AUTO TRADE

Canada is now the second nation in the world in the manufacture of automobiles, the number of cars owned and the number owned per capita. The United States is first and Great Britain third.

Figures from a Government report show that the automotive industry in Canada employs 15,000 workers and represents an investment of \$50,000,000. The total sales of cars last year amounted to \$100,000,000, and the payroll exceeded \$15,000,000. During 1919, 94,000 automobiles were manufactured in Canada, and it is believed this total will be increased 35 per cent. in 1920. Latest registration records show that about 350,000 motor vehicles are in operation throughout the Dominion.

One in every twenty-three persons in Canada owns a motor car. There are 6,000,000 automobiles in the United States, or one to every twenty inhabitants. In England there are only 180,000 cars, or one to every 268 persons. There is one automobile to every 402 people in France, to 684 people in Germany, to 1,000 people in Italy, to 27,000 people in Austria, to 53,000 in Russia.

In California there is one motor car to every 6.2 persons, according to the figures compiled from data in the department in Sacramento. This means that almost every man, woman and child rides in some sort of an automotive vehicle some time during the year.

**CONFIDENCE**

**SAVE GASOLINE IS GREAT NEED**  
 Increasing Number of Vehicles and Price of Crude Oil Demand Economy.

New York motorists, through the Dealers' Association and the National Automobile Chamber of Commerce, are urged to conserve gasoline and to co-operate in every way possible in the movement that will be launched to reduce gasoline consumption.

"The present situation is not gravely critical," says an official, "but it may become so if steps are not taken to stop fuel wastage. The constant rise in the price of crude oil is forcing up the cost of gas, and the best possible method of combating this increase, particularly with automobile sales mounting the way they are, is to practise economy."

"I think that motorists everywhere will agree that the adjustment of their carburetors, which is suggested as the first move in the campaign, should be undertaken at once, and I believe that a flat rate for the service would lead the vast majority of drivers to have this done."

"All car owners will be requested not to permit their engines to remain running while the vehicle is waiting for them. While this appeal will be addressed especially to the drivers of trucks, who are thoroughly guilty because of the lack of starters on the machines, it can also be read and acted upon by the owners of passenger cars."

"With the price of gas where it is, there can be no reasonable excuse for letting the engine run in a touring car or runabout, because such dereliction costs us all money."

**MUST RUN ON AIR**

Norway is the first country in the world to propose national legislation to specify that motor trucks up to two tons capacity must be equipped with pneumatic tires so as to prevent damage to roads and to cut down the excessive cost of highway repairs due to the use of solid tires.

**Now Is the Time to Put Your Car in Perfect Condition and Tighten Connections for Summer**

Many Little Things Need Careful Attention in The Spring: Look After Neglected Parts and Do Not Forget Your Grease Cups.  
 By Merle Shepard.

A little work put on the car at this time of year is rewarded by better riding and more quiet performance during the Summer. As the warm weather approaches the lengths of drives upon which the car is taken begin to increase and consequently parts which were able to run without very close attention during the cold months will begin to develop trouble if they are not carefully attended to during the Summer.

There are a great many car owners who delight in putting in their Sunday mornings in touching up the car from one end to the other, in order to keep it in the best possible condition. These men are rewarded by cars which run season after season without trouble and with very small repair bills.

The reason for this is that troubles which would have appeared have been nipped in the bud by careful attention, and those which would have been developed from carelessness and lack of lubrication never get a chance to start.

**Carbon and Valves.**  
 Probably the most common trouble which motorists have with their cars is caused by the old demon, carbon. With the newest types of engines with the detachable heads it is possible to scrape the cylinders out very readily by removing the head and cleaning the combustion chambers directly. On the older types of engines with the fixed heads and on those which have not adopted the detachable head construction, it is not so easy to scrape the carbon, and burning out with oxygen is often resorted to. Many questions have been asked whether the burning should not be moved to a complete circle, but only a half circle, as stated, and frequently lifted up and moved so that the grinding will not be all in one position. After the finish is satisfactory, all of the abrasive material should be very carefully removed.

**How Grinding is Done.**  
 It is not difficult for a motorist, even though he be unskilled in the use of tools, to grind in his own valves. The exact method of procedure varies with the different engines in so far as reaching the valves and putting them in condition to grind is concerned, but once the proper steps are taken to reach the valve seat the process is about the same.

The valve grinding or abrasive is spread in a thin layer on the valve seat and the valve is rotated back and forth through about a half circle about a dozen times, then lifted, turned around slightly on the seat and the process again repeated and continued until an absolutely true contact is made between the valves and the seat. The pressure on the valves should be very light and it should not be moved to a complete circle, but only a half circle, as stated, and frequently lifted up and moved so that the grinding will not be all in one position. After the finish is satisfactory, all of the abrasive material should be very carefully removed.

**Gasoline Pipes Clog.**  
 Another important step to take in the conditioning of the car is to clean out the gasoline line. In the commercial car bought from the average curb pumping station there is always a certain amount of sediment and dirt. If your car has a strainer in the gasoline line this strainer should be taken out and cleaned also the contents of the float bowl should be removed and all parts of the gasoline line to the tank to the carburetor put in thorough clean condition in order that there will be no obstructions.

**Special Parts Need Oil.**  
 A point which is neglected very frequently is to put a drop or two of oil at the proper points in the generator and starting motor, also in the ignition system.

The instruction book which comes with your car should be carefully read on this matter, so that the proper apparatus to get the lubrication attention which it requires. All too frequently this is neglected. A drop or two of oil at the proper points on the generator and starting motor is so equipped, and possibly on the fan bearings, also, should be given. On some makes of cars these two points do not require attention, but they should be borne in mind by owners of other cars. This same inspection to lubricating points should be given to the front and rear chassis and particularly the driving shafts from the rear end of the transmission back to the rear axle and, in fact, out to the rear wheels.

**Adjusting Brakes.**  
 The brakes should be adjusted, if necessary, and if the adjustments have been carried as far as they can be carried, it is advisable to have the brakes relined. No motorist should drive about the country with brakes upon which he cannot rely. He should be sure that the surfaces of the brakes are not greasy and slippery, preventing them from taking proper hold on the drums, and also that the fabric is not worn down below the rivets, giving a metallic squeal every time the brakes are applied. The grease cups on all parts should be refilled and turned up, and on the clevises, which are the little yoke joints at the brake rods and other connections, a few drops of oil should be used and the dirt cleaned from them.

Unless the owner is too dignified, or perhaps too stout, he should sacrifice his pride for the time being and get beneath his car and remove the dirt from the working parts, particularly around the universal joints and around the transmission. This dirt accumulates and is by no means beneficial to the car, but quite the contrary.

**Idle Truck is Big Loss to Its Owner**  
 To Get Maximum Service, Attention Must Be Paid to Cutting Down-Overhead.

The idle truck not only earns no profits, but represents a steady loss. To obtain a maximum return on the investment a maximum of work must be produced by the truck.

Overhead expense, including depreciation, interest on investment, insurance, garage charges, etc., is constant, whether the truck be on the road or in the repair shop. But when the truck is working, this overhead is swelled by driver's wages, gasoline, oil and the cost and similar items. It is obvious that the greater the amount of actual work accomplished, the more this cost is dissipated.

Owners increasingly are giving their attention to methods or devices that reduce a truck's idle time. Primarily, the truck must be maintained in good mechanical condition. This condition attained, it becomes a problem of increasing the number and frequency of paying loads.

Systematic and expert inspection should anticipate nearly every mechanical trouble, barring those caused by accidents. Through frequent lubrication is the most effective preventative against the many seemingly insignificant troubles which cause costly delay.

Little portable alcohol stoves are convenient for roadside meals.

**To Users of the Larger Size Tires**

**MOTOR TRUCKS SAVE DOLLARS**  
 Will Handle Much Perishable Products This Year From Farm to Consumer.

Through the economies of the motor truck, expensive and inconvenient handling and special packings of produce that are involved in shipping by rail are eliminated. Goods are transported from the producer to the consumer more quickly and in better condition than is possible under present methods.

The motor truck goes right out among the farmers, gets their produce and brings it directly to the buyers in the city, without the loss of time on the part of the farmer to take it to the railroad station and on the part of the buyer to call for it at the terminal. The result is an actual saving in dollars and cents in transportation costs, and with perishable products, such as milk, fresh fruits and vegetables, the saving is tremendous. According to an investigation, people pay more than \$500,000,000 a year in excessive costs for transportation of food products, and it is estimated that fully 50 per cent of the perishable food products in Canada and the United States are wasted through insufficient methods of transportation.

The use of motor trucks by farmers also allows the maintaining of men and horses on the farm that are ordinarily utilized in driving to market with produce. For the farmer who does not ship in large purchase of one or more trucks, the

rural motor express gives him all the convenience of a personally-owned truck without the cash outlay. It not only hauls his product to the market, but brings him on the return load the daily requisites of the farm.

To have food and fuel we must have adequate transportation, capable of keeping up with increased production as it is demanded. Every new step in national progress is born of necessity, and it is this necessity that points ahead to a steady and tremendous growth of motor truck transportation that will bring with it prosperity and a better standard of living.

Detroit, May 8.—Automobile dealers who represent factories in Lansing, Detroit and Indianapolis were notified early last week not to send out driving crews to take cars away, because there was no gasoline to spare. Food shortages and coal shortages are bad enough, but after

**NOTICE**

It has come to my notice that men, unconnected with me, are offering for sale, and charging exorbitant prices for what they claim is Miracle Motor Gas. There is only one man on Vancouver Island who is supplied direct with the genuine Miracle Motor Gas; that man is E. W. Archer of 921 Fort Street. The motoring public are asked, for their own sakes, to have nothing whatever to do with anyone offering Miracle Motor Gas for sale that does not bear his stamp. The genuine Miracle Motor Gas can be had from the above \$1.00 per gal. post free.

**E. W. ARCHER, 921 FORT ST., VICTORIA.**

All to an enthusiastic motorist there is no tragedy like a fuel shortage. It has always been our impression that gasoline traveled in pipe lines, and that rail traffic disturbances made absolutely no difference. Apparently we are wrong, because the shortage of fuel is ascribed to the general upset conditions of freight.

Of course, it probably is the condition at terminals that is making gasoline hard to get—that is, the difficulty of shipping it from the end of the pipe line to the various retail customers.

This is indeed a very serious situation, because the motor truck and the automobile must be depended upon when E. W. Archer is forcing the railroads to lay up. If there is a shortage of fuel we will soon come down to a condition of use only for necessary purposes, or else all goods to be transported will be tied up as completely as the most enthusiastic Bolshevik could desire.

# OF SPECIAL INTEREST TO WOMEN AND THE HOME

## Practical Appeal For Help to Young Mothers on the Farm

Mrs. J. D. Gordon Tells Story of Settling Newcomers on Farms, Fresh From City Conditions in Old World.

Illumination on the difficulties which beset the returned soldier and his war-bride in their new lives as settlers in the outlying districts of British Columbia and of the part played by the Homes Branch of the Soldier Settlement Board in helping the new settlers to remedy these problems was given by Mrs. J. D. Gordon, in the course of an intensely interesting address on "the Canadian Birthright" before the Women's Canadian Club on Tuesday.

"There is a wide difference between the old countries and old, and neither has either all the benefits nor all the drawbacks. Canada is still in the making, and what it will be will depend largely on the sort of people allowed to enter and become part of the state.

"The people of older civilizations have developed among them a far greater appreciation of art, music and literature than is to be found in new countries. Among them we find the dwellers in the dreamland of art, who express themselves and their times through art, and who stamp their impress on the world for all times, in their own surroundings too.

"In education, we follow closely the methods adopted by European universities, because of the culture attained. The student should begin to work with a knowledge of culture, which is admirable for the moneyed classes, enabling them through this, to add much to the enjoyment of life.

"Adaptability the keynote. In new countries, men are more adaptable because they must be, they cannot survive unless they fit themselves into their environment. They take whatever they find and create with it.

"The pioneer women have converted the thing at her hand into the thing she needed in a most marvellous way; a beer bottle filled with ice, made an admirable rolling pin, while a few yards of calico, soap boxes, flour sacks and a rusty tin have been largely furnished many a cabin on the frontier of settlement.

"We can take a considerable number of the peasant class of Europe at every year, and develop them into good and prosperous Canadians in course of time, because they know how to do one thing well, and are willing to work hard enough to get it done.

"It is a mistake to allow misfits to enter Canada, whether moneyed or otherwise, for this is a time of production, and money and land are not enough for a man to bring to Canada. He must be able to contribute productive work to be a useful citizen.

farm is giving adequate returns. In the meantime, while the farmer is working, it is quite at a loss on attempting to manage a farm for himself, and the ease with which losses can occur seems quite appalling.

Many Difficulties. "Many a man who has worked successfully on a farm, managed by another, is quite at a loss on attempting to manage a farm for himself, and the ease with which losses can occur seems quite appalling.

"The overseas woman goes on the farm gladly, and does not seem to object to the lack of conveniences, isolation, or any of the drawbacks which built so largely in the eye of the Canadian girl.

**HOMELY HINTS**

Allow cabbage water to get cold before pouring it down drains or sinks. It will then leave no unpleasant smell behind.

A good-sized linned-meal poultice, hot, with eight or ten drops of laudanum in the middle, will cure the most severe ear-ache.

To prevent water from collecting at the bottom of a vegetable dish place a piece of stale bread in the dish. This will soak up all the moisture.

Camphor, so frequently used to preserve furs, will keep away moths, but is liable to impair the beauty of the furs by dimming the tint and gloss.

An idea for pudding-basin cloths is to cut a round of material, hem the edges, and run a piece of string through. Then the cloth need only be smoothed on the basin, and the string drawn and tied as tightly under the rim as possible.

Put a piece of mutton fat between a brown paper, and run the bottom of your hot iron over it. Wipe the iron carefully to remove all grease. You will be surprised at how it passes over the clean clothes.

Cakes should not be left to cool in the tins in which they were baked, neither should they be placed flat on a solid surface. Take them out of the tins and put on a sieve, or tilt them up so that the steam can escape.

Obtain some white spirit varnish and paint over the linoleum or flooring with a brush. The spirit varnish dries in a few minutes, and the result is a brilliant polish, but not a slippery one, which will last for months.

When flour is genuine or the best kind, it will be found to be much more squeezed by the hand and shows the impression of the finger-marks and even marks of the skin much longer than when it is bad or adulterated; the dough is very sticky and elastic, easily kneaded, and may be elongated, flattened, and drawn in every direction without breaking.

Those who have to use brown sugar is place of white may need to know one thing that was a common-place to our grandmothers; that it should be stored where it is damp rather than dry.

A cheap water filter can be made in the following manner. Get a large new, common, flower pot, seal it out, and steep it in several waters; fill the hole with a piece of clean flannel, and the pot with alternate layers of sand, small pieces of charcoal, and small pebbles.

Prompt and cheerful service is half the battle, often doing the sick as well as the healthy. When one is ill and weary waiting for things is very hard to bear; we are inclined to make mountains out of mole hills, and the little aids and devices of the experienced are practised.

Cheerful Service. Very often all the nursing required is to take temperature, give medicine regularly, make the patient comfortable in bed, bathe and give nourishment on time.

Never tell a sick mother the wrong side of the household affairs. Even trifles of an unpleasant nature should be kept from her. Nor should the father of the family be told of things that are not in his power to remedy, for it irritates him to realize his helplessness.

Put a ban on "practising" for the time being, also on the phonograph.

## COLORS OF SPRING ARE IN SPORTS COSTUME

flannel has won milady's favor. The later the time the softer the material, and the daintier the colorings and, it may be, the more ornate the finish.

## SERVICE IN THE SICK-ROOM

Suggestions That Will Help the Inexperienced Nurse to "Take Hold" and "Carry on" in Case of Emergency.

Sometimes one finds persons absolutely panic stricken when confronted for the first time with the necessity of caring for their sick.

Anticipated Wishes. It is well, if possible, to anticipate the wants of the sick, for people are sometimes inclined to go without a much needed comfort rather than ask for it, reluctant to give trouble.

WHERE DIVORCE IS BOTH CHEAP AND EASY

Advocates of speedy and inexpensive divorce will see the practice in full action if they care to adventure as far as Kashgar.

Remember if you take cold there may be two patients instead of one in the hands of the family. Seize some quiet moments during the day to rest and relax.

In Favor of Recovery. Ask the co-operation of the family in eliminating unnecessary noises. The smallest child can be made to understand the reason for quiet, that the sick one may have the much needed sleep that we often hear is better than food.

One decided advantage on the woman's side is that if her husband divorces her she may take all the movables in the house, and as in the case of a merchant much of his wealth consists of carpets and brass utensils, he often finds it cheaper to take a second wife rather than divorce.

## Women Relate Story of Hardships Endured in Bolshevik Territories

To the strains of "Home, Sweet Home," played by a military band, the Admiralty transport, Tagus docked at Southampton, where she landed 267 repatriated British subjects from Russia.

But the refugees had no ears for the music; they scanned the throngs at the quayside in the hope of finding loved ones from whom the Russian Terror had separated them for two years and more.

The Tagus brought to England 154 women, 34 men, and 25 children. And as for the country they left, all tell the same tale; it varies but in detail.

Lord French's Kinswoman. Miss Kathleen French, a relative of Lord de Freyne and a distant kinswoman of Lord French, the Viceroy of Ireland, told how she was reduced to poverty.

Then the Bolsheviks accused her of being a spy, because, as they said, she was related to the Field Marshal, and they added, to her surprise, that they knew she had a cousin in Helmsingford who was a military officer.

She was thrown into prison. "While I was in prison the Bolsheviki Government was in a state of confusion, and I was allowed to go to the washroom, and to see to my own washing, and to get up at any hour of the night to go to the latrine, and to get street-cleaning, if they refuse they are imprisoned.

Eventually Miss French, who is an elderly woman, was allowed to go to Moscow, where she endured many hardships and was forced to work at translations to earn a bare existence.

voice the first, who would make a clean sweep of the "bits and pieces" of household plenishing.

The missionaries told Miss Sykes that most of the women in Kashgar had been married several times, and that this meant divorce led to the wives taking whatever they could from their husbands and putting it by against a rainy day.

When it comes to sports wrap—which it does sooner or later—there are any number of wonderfully good looking effects.

Suede lends tone to the cape in the same way that it does to the coat and in either case appears in color that contrasts pleasantly with the fabric of which the garment is fashioned.

There's nothing quite so distressing to the feminine mind and pocket-book than when milady needs must get up to see to a scarf every time she goes out of an evening, all dressed up to dance.

Tulle costs a lot more these days than it used to. That is one reason and then it is such a bother. But

Substitute for Scarf of Tulle

## RHUBARB A HOMELY AID TO BEAUTY

Very few women realize that the humble rhubarb is the greatest friend to female beauty, that has ever been discovered, or that its use is of infinitely greater value than any number of so-called complexion creams or expensively concocted "washes" for the skin.

Old-time beauties understood the inestimable properties of rhubarb. They knew nothing of the modern astringent lotions or the steam-bath fad for the complexion.

They used rhubarb in its most delicious form, the most delectable of which was known as rhubarb sherbet. The secret of this delicious drink was brought from the East, where one meets it in every bazaar.

It is made as follows: Boil eight sticks of peeled rhubarb in a quart of water for about ten minutes, the resultant liquor to be then strained into a jug containing the peel of one lemon cut or grated very fine, and two tablespoonfuls of castor sugar.

The decoction should be allowed to stand for six hours before being drunk, or a spoonful of sugar added, being effervescent, and certainly more acceptable to a great many people.

SEEKING SUGAR; A MORAL.

A Boston real estate dealer, after his family had used molasses on their cereal for about a week, for lack of sugar, recently drove in his automobile to store after stores in four or five cities and towns, finally bringing up at a large store in Boston, but not a spoonful of sugar could he buy.

Arriving at his office, he received a telephone call from a client, who, in the course of conversation, said that she had just received from her son, a civil engineer in Cuba, a letter in which he wrote: "Why, in the name of reason, does not the United States take away this sugar?"

"The wharves are so loaded down with it, during shipment, that they are nearly breaking up under the weight."—Christian Science Monitor, Boston.

Do not discard a veil in which there is a hole or two. It may be mended in the following way: Thread a needle with two strands of hair as near the shade of the veil as possible. Draw the strands through the mesh and pull the veil together. Tie the hair securely and clip the ends. If carefully done the mend will be scarcely noticeable.

SHADE ECONOMY.

One mother writes that she had half a dozen white linen window shades that were soiled beyond using, so she washed them in cold water and let them starch out, then boiled and blue them. They made pretty little dresses for her little girl and were of better material than she could have bought at present prices.

MENTING VEILS.

# SERVICES IN THE CITY CHURCHES

**St. Paul's Presbyterian**  
 Corner Henry and Mary Streets, Victoria West.  
 DR. H. N. MACLEAN, Car 4 or 5 to Henry St.

 Mothers' Sunday.  
 2.30 p.m.: Sunday School.  
 7.30 p.m.: "THE INDIGNATION OF JESUS."

**The Centenary of Medical Missions**  
 By Dr. Chas. W. Service, Chengtu, West China.

It is customary to celebrate great historical events, national, scientific, ecclesiastical, or other. Not the least important are those which definitely and directly concern the progress and the welfare of humanity. Among these is the Centenary of Medical Missions which occurs this year. This celebration is of interest to universal Christendom, for it demonstrates the beginning of the effort of the Christian Church to make the compassion of Christ a reality to all men. The Church is following closely the example of her Master in using medical missions for physical and spiritual healing. The healing of the nations in its broadest application lies along the line of the ministry which the medical, dental and nursing professions are rendering. The work of medical missions does not discriminate between races or religions and gives proof that applied Christianity is worth while. Members of the three healing professions responded with alacrity and a joyful spirit of sacrifice to the appeals of the Red Cross during the war, but a greater war is on and the real conquest of the world for the Prince of Peace has just begun. To ensure this peaceful world conquest for Christ R has been conclusively demonstrated that the interpreters of Christ's healing ministry constitute an essential arm of service. The celebration of one hundred years of a crusade of compassion for the healing of the nations by these "ministers of mercy who follow the way of the Good Physician" is a notable event and arouses attention at a time when men's hearts and minds are especially prepared to consider suffering and the possibility of its alleviation where there is now no medical aid.

**UNITY CENTRE**  
 600 Campbell Building.  
 Service, 8 p.m.  
 Speaker, Mrs. Gordon Grant.  
 Subject, "THE IMAGE AND RESURRECTION."  
 Service every Thursday at 8 p.m.  
 Office 603 Campbell Building.  
 Hours for consultation, 2 to 4 every afternoon except Saturday, and by appointment.

**ST. ANDREW'S CHURCH**  
 Douglas and Broughton Streets.  
 REV. W. LESLIE CLAY, D. D., Minister.

SUNDAY, MAY 9  
 11.00 a.m.—Preacher, REV. W. W. PECK, M.A., of Kamloops.  
 2.30 p.m.—Sabbath School.

 7.30 p.m.—Service of Song.  
 Soloists—Misses Kate Heming, Edna Dorrell, Dorothy Dorrell and Mr. Edmund Fitch.  
 A cordial invitation to all.  
 Monday, 8 p.m.—Musical Y.P.S.

**QUARTERLY BOARD OF WILKINSON ROAD METHODIST CHURCH**

The fourth quarterly meeting of the Board of Wilkinson Road Church was a source of much gratification to the members present, as the reports given by the different departments of the Church showed the year just closed to be the most prosperous in the history of this Church.

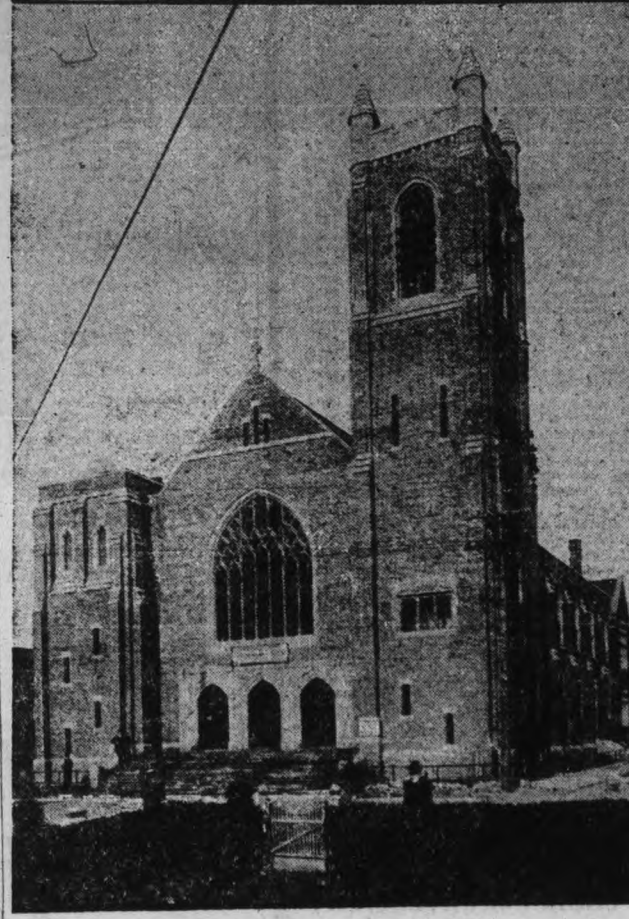

Over \$1,300 has been subscribed towards the paying off of the mortgage, over \$1,200 of which has already been paid in. The \$700 objective for the Forward Movement has also been slightly exceeded.

At the preceding meeting of the Board the pastor, Rev. D. M. Perley was unanimously and heartily invited to remain for the fourth year. At the annual Easter meeting of the W. M. S., Mrs. Perley was presented by the members with a W. M. S. Life Membership and pin.

During Mr. Perley's pastorate a Men's Brotherhood has been organized, the membership of the Sunday School has doubled, fifteen of the young people have been received into the Church on approbation or profession of faith.

Will Visit Here.—Arrangements have been made by Rev. J. G. Inkster for the three days' Bible conference by Rev. Dr. William Evans, who will be accompanied by Mr. Young, his soloist and leader of singing here. The conference will commence on May 19.

FIFTH ANNIVERSARY OF NEW FIRST PRESBYTERIAN CHURCH, AND 59TH OF ORGANIZATION IN THIS CITY

To-morrow will be the fifth anniversary of the transfer of the congregation of the First Church to its handsome home on Quadra Street, and the 59th of the organization of Presbyterianism in this province. The special preacher will be Rev. Alex Esler, M.A., who is a well-known divine. The visitor was born in Ireland, and educated at Princeton, N. J.

He was called to Philadelphia, where during a ministry extending over fifty years he built a new stone church, and doubled the membership. From Philadelphia Mr. Esler was called to the famous Cook Church, Toronto. In seven years he raised the membership from 500 to 1700. From there he was called back to Philadelphia to be Presbytery Evangelist. After 2 1/2 years at this work, Mr. Esler was called to a new cause in Grace Church, Calgary. He began in a small wooden church, with 125 members and after eight years left a splendid new church seating

1,300 people and a membership of 1,000.

Mr. Esler is now beginning a similar work in a small cause at Grandview, Vancouver, in Robertson Memorial Church, where the congregation is already preparing for enlargement.

Outside of his regular pastoral and ministerial work, Mr. Esler has carried on a good deal of special work for which he is specially qualified.

For ten years, during the Summer months, he conducted Tent work in Philadelphia in connection with the John H. Converse mission, the man who organized and financed the great Wilbur Chapman campaigns. Mr. Esler's messages to men have always been delivered to immense audiences such as the Baldwin Locomotive works and theatre meetings Philadelphia. Cook's Church gentry Brigades in Toronto, and the Boyd meetings for students of Queen's University, Kingston Ontario.

This is Mr. Esler's second visit to Victoria, and there are many who will want to hear his message.

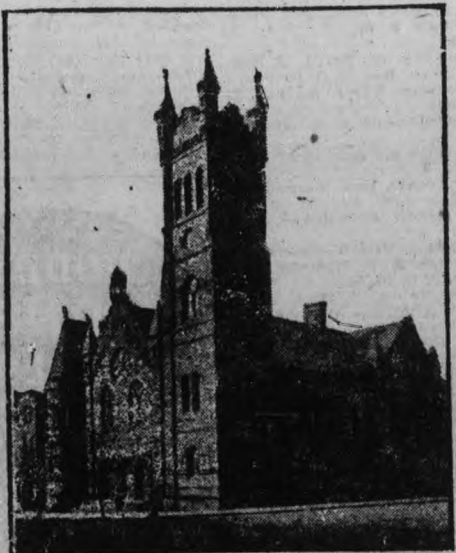

**SCENE OF MEETING OF PRESBYTERIAN SYNOD OF BRITISH COLUMBIA**

The colors of the 2nd C. M. R. have been placed in All Saints' Church, Vernon, and at last Sunday morning the rector spoke of the work accomplished by the battalion during the years of the great war. It was on August 10, 1914, that the 30th B. C. Horse, of Vernon, and the Independent Squadron of Horse at Victoria were mobilized, and on November 6 were turned into the 2nd C. M. R. After training at the Willows Camp in Victoria the battalion left for England where, after three more months of training, they went over to France and in September, 1915, were in the trenches, where they won great glory at a heavy loss.

At the close of his address the rector spoke of the honor felt by the congregation in having the colors in their parish church, and reference was made to the noble men who had served the colors, and laid down their lives for the Empire.

At the close of his address the rector spoke of the honor felt by the congregation in having the colors in their parish church, and reference was made to the noble men who had served the colors, and laid down their lives for the Empire.

At intervals and during the meetings of the Synod held this week at Victoria, Presbytery held several meetings for the transaction of business. The Rev. Dr. Macrae, after having held the clerkship for a period approaching thirty years asked to be relieved from the responsibilities of

**DEAN QUANTON ON NEW PSYCHIC CULTS**

Says Church Will Have to Readjust Ideas to Keep Abreast of Times

Vancouver, May 8.—"Some of the best of the minds to be found following new cults, Christian Science, Theosophy and others, are doing so because they think they can get what, apparently, we have failed to give them—a spiritual interpretation of life."

This was one of the statements made by Dean Quanton, of Victoria, speaking at the convention of the new Anglican Theological College, at St. Paul's Hall, Wednesday evening. The Dean made a particularly eloquent and forceful address, not unmarked with humor at times. Another statement was, "Whatever we may say about the Christian Scientists—and if Mrs. Eddy says there is no matter, it would appear to be little matter what Mrs. Eddy says—they have made a real attempt to restore the healing ministry of the Church and we ordinary clergy should have more people in our midst who believe that Christ can heal the sins of the body. At present our environment renders us skeptical with reference to the power of Christ to heal, but we shall have to adjust our attitude towards disease. Many of us believe that ignorance, sin and disease are not of God's will. There must be a closer alliance between the doctor and the priest and we must acquire a greater control of thought."

The subject of the dean's address was, "The Call of Men to the Church," and while asserting that the "bad" type of clergyman, like Rev. Robert Spalding in "The Private Secretary," had ceased to exist, he expressed the opinion that the clergy of to-day should be men, physical men, spiritual men, and should carry salvation in no meagre sense of the word. They should be men even before they were priests. They must be prepared to adopt the matured results of modern critical research.

"Truth is coming to us by many different roads," asserted the speaker, "and not simply by the road of the infallible Church and Book and we must learn to regard the old story of Jonah and the whale as a parable. There are many degrees of inspiration." They must realize the imminence of God in man; that there was a certain divineness in the human.

Why was it, asked the speaker, that in Canada the ranks of the aspirants for the ministry were so denuded? That was one of the great problems they had to face. A lack of idealism in the home was, possibly, at the root of this. The question, "How much is there in it?" was too frequently asked.

Touching upon mysticism, Dean Quanton asserted that "mysticism was too often becoming mistiness. All some people wanted was the experience of what they called being psychic. That was not Christian mysticism. The man who was out simply for the purpose of psychic experience was not the man who wanted to be one with God."

**CONGREGATIONAL CHURCH**  
 Corner Quadra and Mason.  
 Pastor, REV. W. D. SPENCE, 11 a.m., REV. H. HOBBS, 7.30 p.m., "THE GOLDEN RULE."

**ANGELICAN MISSIONER TO VISIT WEDNESDAY**

Rev. Frederick King, M. C., Will Conduct Services at St. Barnabas

To give Anglican churchpeople in Victoria the opportunity of special services and an afternoon retreat, Rev. Frederick King, M.C., of the Community of the Resurrection, Mirfield, England, will visit the city next week, after the conclusion of a ten day's mission conducted in St. James' Church, Vancouver. The services will be held in St. Barnabas' Church, corner Cook Street and Calcutta Avenue, next Wednesday afternoon and evening, the occasion being also the eve of Ascension Day. The first service in the afternoon will begin at three o'clock, and the missionary will probably give two or three addresses in the course of the afternoon. Evening service will be conducted at eight o'clock in St. Barnabas' Church, with an address. The general subject of the addresses is announced to be "The Vision of God."

Was at Gallipoli  
 Rev. Frederick King acted as chaplain with the Imperial forces during the war, first at Gallipoli, where he took part in both the landing and the evacuation of troops, and later served in France, at one period being with a division to which Canadian troops were attached. The missionary is a member of the Community of the Resurrection, which is one of the best-known Church of England communities for clergymen and laymen in England, being founded by Bishop Gore, and has included many outstanding teachers and scholars of the Anglican communion. He will spend a day in Victoria before returning to the East, and thence to England.

**"MODERN YOUTH"**  
 Mr. Spence will try to picture young men "as others see them." What they are. What they may be. A special invitation to young men.

**ANNIVERSARY SERVICES FIRST PRESBYTERIAN CHURCH**

 Visitors Always Welcome.

1870 Our Golden Jubilee 1920

### Retrospect and Prospect!

THE Mutual Life of Canada this year celebrates its Golden Jubilee, having been brought into being fifty years ago in the town of Waterloo, Ontario.

But in celebrating its 50th Anniversary the Mutual is looking forward, not backward. The fifty years that have passed are inspiring because they are full of promise for the future.

We are not satisfied with "past glories" but "future prospects" do allure us. Useful and successful as the Company has been during the last half century it aspires to be incalculably more useful in the new day that is dawning.

It required financial genius and many years to establish The Mutual Life Assurance Company so that much of the early history of the organization is a record of struggle.

But once past the difficult years, the momentum increased with great rapidity. For example—

The yearly increase in assets at present is equal to the total assets acquired during the first twenty-five years.

The same may be said of the business written. As much new business is now written in a single year as was accumulated during the first twenty-five years.

What the future holds in store for the Company may be confidently anticipated from the facts above cited. As the years pass the rate of increase grows with great rapidity.

The influence of The Mutual is extending in ever widening circles and will one day, we believe, touch practically every home in Canada. That is our aim—to have

A Mutual Policy in Every Home in Canada

### The Mutual Life of Canada

Dundas—11 a. m., Rev. W. C. Mawhinney; 7.30 p. m., Rev. J. H. Herdman.

Vancouver Heights—11 a. m., Rev. J. R. Hewitt, B. A., B. D.; 7.30 p. m., Rev. J. F. Shaw.

Trinity—11 a. m., Rev. D. M. Perley, B. A., B. D.; 7.30 p. m., Rev. E. D. Braden.

Robson Memorial—11 a. m., Rev. R. W. Lee; 7.30 p. m., Rev. T. Keyworth.

Grace—11 a. m., Rev. W. R. Welch; 7.30 p. m., Rev. J. D. Hobden.

Ferris Road—11 a. m., Rev. G. B. Ridland; 7.30 p. m., Rev. T. C. Colwell, M. C.

Wilson Heights—11 a. m., Rev. H. E. Horton; 7.30 p. m., Rev. W. P. Ewing.

Collingwood—11 a. m., Rev. R. Wilkinson; 7.30 p. m., Rev. T. G. Griffiths.

North Burnaby—3 p. m., Rev. J. Stoddley.

North Vancouver—11 a. m., Rev. S. Cook; 7.30 p. m., Rev. T. H. Nuttall, B. A.

Lynn Valley—7.30 p. m., Rev. C. M. Lancaster.

West Vancouver—11 a. m., Rev. W. B. Willan; 7.30 p. m., Rev. L. N. Richardson, B. A.

Mountain View—11 a. m., Rev. H. A. Ireland; 7.30 p. m., Rev. R. Hughes.

Beaconsfield—11 a. m., Rev. H. A. Ireland; 7.30 p. m., Rev. A. E. Stephenson.

Sanford—11 a. m., Rev. J. H. Robbins; 7.30 p. m., Rev. P. R. Kelly.

River Avenue—7.30 p. m., Rev. H. E. Livingston.

East Burnaby—11 a. m., Rev. H. Wilson.

Jubilee—7.30 p. m., Rev. J. C. Spencer, M. A.

Queen's Avenue, New Westminster.—11 a. m., Rev. C. E. Batzold, M. M.; 7.30 p. m., Rev. W. E. Galloway, B. A., B. D.

Sixth Avenue, New Westminster.—11 a. m., Rev. J. P. Westman; 7.30 p. m., Rev. J. D. Clarke.

Sapperton—11 a. m., Rev. W. H. Pierce; 7.30 p. m., Rev. D. W. Scott.

On May 1, 1865, Dr. Hills, the first Bishop of Columbia, consecrated the Church of St. Mary, the Virgin, Sapperton. Anniversary services were held on Sunday to mark this event as St. Mary's church, at New Westminster, is one of the historic buildings in British Columbia, and is the second oldest building now standing in the province.

Some school libraries contain at least a ton of tedium for every ounce of entertainment.—Rt. Hon. A. L. Fisher, M. P.

### COLLECTIONS SHOWN BY DIOCESAN TOTALS

Anglican Forward Movement Had Remarkable Results

To illustrate the widespread response to the Anglican Forward movement in the recent campaign, Commissioner Maars, who was here recently, gives the following table of diocesan objectives and reports to date, pointing out that the Diocese of Columbia was given credit for \$31,000, being the equivalent of its contribution of \$25,000 plus the amount "earned" on its allotment, but not returned to the diocese on account of other arrangements, and explained that several of the northern and prairie dioceses are continuing the canvass now that weather conditions are more favorable. In the table, the name of the diocese is given, then the original objective allotted, and next the total subscriptions reported.

Algonia	35,000	60,000
Althabasca	10,000	800
Caledonia	10,000	4,000
Calgary	70,000	57,000
Cariboo	10,000	4,500
Columbia	31,000	21,000
Edmonton	25,000	5,000
Fredericton	90,000	130,000
Huron	225,000	410,000
Keewatin	10,000	5,000
Kootenay	20,000	30,000
Mackenzie River	1,000	1,050
Montreal	275,000	315,000
Moosonee	25,000	42,000
New Westminster	25,000	125,000
Niagara	180,000	302,000
Nova Scotia	180,000	156,000
Ontario	90,000	147,000
Ottawa	125,000	242,000
Qu'Appelle	90,000	55,000
Quebec	90,000	189,000
Rupert's Land	180,000	197,000
Saskatchewan	80,000	48,000
Toronto	350,000	740,000

On feature of resulting activity from the recent campaign is evidenced by the extension work planned by the Brotherhood of St. Andrew, a leading organization of laymen in pre-war days. Lieut. Walter Burd, D. C. M., for four years overseas with the 28th Canadian Infantry Battalion, is the new general secretary for the Brotherhood of St. Andrew in Canada. It is intended to open a head office again in Toronto at an early date, and to complete the Dominion organization as rapidly as possible.

### FAMOUS MAINLAND CHURCH ANNIVERSARY

Present Victoria Residents Were Among First Children Christened

St. Mary's Church, Sapperton, New Westminster, was consecrated by Bishop Hills, the first Bishop of Columbia, on May 1, 1865, and its anniversary has recently been celebrated. Sappers who settled near the barracks, after the Royal Engineers were disbanded, sought their own church and through the effort of Archdeacon Wright, the church was built by contract let to two sappers, from the design of Lieutenant Lemire.

The first incumbent was Rev. Percival Jenks, who after about a year went to Victoria and became Rector of leading St. John's church, where he remained over fifty years, until the new church was erected, and died about three years ago.

The first baptism in St. Mary's was that of Henry George, son of Daniel Richards, carpenter, and the first marriage was between Thomas Henry Judin and Ellen McEwan.

Some of those baptized in the early years were: a son of Captain Grant, Sylvia Gertrude Jenns, Francis J. O'Reilly, Lindley Crease, Francis C. Wolfenden, H. L. Edmonds, P. R. Peelle, while of present families long connected with St. Mary's there occurred the names of Hume, Hutchison, DeVoy, Munday and Digby.

The Parish Hall was erected about 1892 and the Vicarage built in 1907. The present church building stands very much the same as when it was built fifty-six years ago and is a testimony to the quality of work and material used.

### KNOX CHURCH TO HOLD ANNIVERSARY SERVICES

The congregation of Knox Church, Stanley Park, will celebrate the eleventh anniversary of their emancipation from a mission into a self-supporting church on Sunday, when special services will be held in commemoration of the event. The Rev. Joseph McCoy, M.A., was called to the pastorate when the church was founded and has been in charge ever since so that Sunday's celebrations will assume a dual importance.

Rev. H. R. Grant, of Prince Rupert, the pioneer minister who is the original of Ralph Connor's "Sky Pilot," will preach at both services: in the morning on "The Issues of Life" and in the evening on the subject "Christ the Truth." Special music will be given by an augmented choir under the direction of F. J. Mitchell, choirmaster.

The celebrations will close on Monday evening with a social gathering, for which an excellent program is being prepared.

DIPLOMAS TO NURSES. Nanaimo—Three nurses who have been trained at the local hospital were graduated Thursday night at a well-attended ceremony in the Odd Fellows' Hall. They are Miss McGill, Miss McInnes and Miss Campbell.

### Active Men

FOR men who work hard and play hard Holeproof is as dependable for vigorous sport wear as it is good looking for special dress occasions. In these days of uncertain quality and value, satisfaction in hosiery is merely a matter of finding the store that sells Holeproof. Offered in staple and fancy colorings in Pure Silk, Silk Faced and Lusterized Lisle for Men and Women.

HOLEPROOF HOSIERY COMPANY, Limited  
London, Ontario

# Holeproof Hosiery

### BREAD vs POTATOES

#### Daily Diet

He spends as much as a family of 5

Daily requirements 2500 calories

Protein	275 Calories	for the	same sum	they each get	Protein	270 Calories
Fat	25 Calories	he gets			Fat	120 Calories
Starch	2200 Calories				Starch	2110 Calories

THE illustration above shows the comparative cost of about equal nutriment values in potatoes and in bread. The picture is based on the present market price of potatoes and of bread and the number of calories or food units yielded by each.

Food values are measured by calories. A calorie is the amount of heat required to raise one pound of water four degrees Fahrenheit. To sustain life 2500 a day are required and 10 per cent. of them must be furnished by protein.

EVERY day the H. C. L. takes another leap upwards. Among the articles of daily diet which parade up luxury street, "prince" potato, a nouveau riche, takes the lead, while bread, the food aristocrat of the ages, but today most democratic of all and of most genuine merit, remains behind in dignity. Potatoes are still soaring. Bread is still 11c an 18-oz. loaf.

As the article above, reprinted from the Daily Province graphically shows, the potato eater is a spendthrift who wastes on his starches and proteins, a sum that spent for bread would comfortably keep a family of five.

family while securing from the bread well over the necessary 250 calories of protein, also receives 120 calories of heat and energy-producing fat against 25 calories in the potato diet.

Thus it will be seen that bread in the day of high living costs is more than ever the "staff of life," furnishing the necessary protein and starch of the daily diet at a cost approximately one-fifth of that necessary by the use of potatoes.

In the above calculations, the waste from bad potatoes is not considered. This would make the comparisons still more odious, the obvious moral for those who wish to practise economy being "Eat more bread"—now an international slogan. M.D.

Heads of families will be interested in this comparison of food values and will see the force of the slogan: "Eat More Bread," now being taken up by sensible people all over this continent. SHELLY'S 4-X is a scientifically mixed and carefully baked bread, high in gluten and of fine flavor. Housewives should see that there is always an extra loaf of Shelly's 4-X in the bin, for so many delicious desserts, toasts, rusks and dainty puddings can be made that there never need be any waste. So tell your grocer to send you an extra loaf or phone Shelly Bros. Limited, Phone 444.

### Now It's PLAY for Dainty Hands---

### Wild Rose Returns

NOT a bit like work, Milady, even for the most delicate hands, to mix and fashion dainty pastries from WILD ROSE PASTRY FLOUR. This special product of soft-kernelled wheat makes pastry-baking a delight because of easily attained success. Delectable pies and tarts and those scrumptious little French cakes are quite simple for wife who courts HIS approval of her goodies by using WILD ROSE. Quite different it is from ordinary flour, milled from hard wheat, and requires 25 per cent. less shortening, too.

Wild Rose has not been procurable for some time, but is now on the market again as good as ever. This is welcome news to housewives who have abandoned pastry cooking. Yes, all you have to do is phone your grocer for a 10-lb. sack. He will be glad to send it.

# PLAN TO START ON SALT WATER BATHS WITHIN TWO MONTHS

Seaview Company Announces  
Option on Land and New  
Plans For Project

Installation of salt swimming baths on property near the new athletic stadium will commence within two months if plans outlined to The Times to-day by W. F. Best, of the Seaview Salt Water Swimming Bath Company, mature.

Some time ago negotiations between the company and the City Council on the question of swimming baths failed to reach a satisfactory conclusion. Since that time, however, the company has been pursuing its object further, and has been able to secure an option on land on Belleville Street between Blanshard and Douglas Streets, upon which it proposes to establish the baths. Under the plan contemplated the city would pipe the water to the baths from Dallas Road. As a matter of fact, Mr. Best states, the City Council has agreed to lay this pipe as soon as the company spends \$40,000 on the baths. The laying of the pipe line it is estimated, would cost \$12,000.

The total cost of the baths, details of which have been published before, will be \$120,000. Already the C. F. R. Mr. Best states, has agreed to purchase \$20,000 worth of stock in return for which the company will allow certain privileges to the guests of the Empress Hotel, and other promises of purchase have been received. To interest the public in the project, Mr. Best announces, a public meeting will be held in the Y. M. C. A. next Wednesday.

Since the last occasion on which reference was made in the press to the plans of the Seaview Company, it has been decided to build a gallery about the baths capable of seating 600 people. This, like the rest of the bath pavilions, will be of reinforced concrete and will be fire-proof.

### FIREMEN'S INSURANCE.

Vancouver, May 8.—Having successfully arranged a blanket insurance scheme for the police force which has been formally adopted and approved by the Police Commission,

LIVEN UP  
THE LIVER  
**PARMELEE'S  
VEGETABLE  
PILLS**

A HIGHLY EFFICIENT CORRECTIVE FOR REGULATING THE ACTION OF THE LIVER AND ASSISTING THE DIGESTIVE ORGANS TO PERFORM THEIR FUNCTIONS AND ELIMINATING IRREGULARITIES IN THE DIGESTIVE TRACT.

Mayor Gale now intends to turn his attention to endeavoring to arrange a similar benefit for the members of the fire department.

## HEAVY WORK OF SESSION TO BEGIN

Budget and Franchise Bill in  
Ottawa Commons Next  
Week

Ottawa, May 8.—(Canadian Press).—With the budget coming down on Wednesday and the Franchise Bill to be discussed possibly two or three evenings of next week, members of the Commons feel to-day that the really heavy work of the session is about to begin. Talk around the corridors to-day indicates that several matters which have failed to get into the spotlight through the regular method of the order paper will be discussed during the budget debate.

Many farmer members believe that the predictions for an unusually lengthy session are wrong and that they will be away from the capital by the middle of next month.

Wheat Board.  
Ottawa, May 8.—(Canadian Press).—Details of all expenditures incurred by the Canada Wheat Board are asked in a question for the House on Monday by H. H. Stevens, Vancouver. The Vancouver member also asks if F. Young receives a salary of \$5,000 from the Board, and whether he also receives a salary of \$10,000 from the Lake Shippers' Clearance Association.

Men are sentimental gossips. They are not practical enough. Women are. Since the beginning of time it's women that have had to do the practical things.—Mr. George Bernard Shaw.

## AT DOMINION NEXT WEEK

NAZIMOVA IN "STRONGER THAN DEATH"

## SUBWAY STRIKE IN PARIS MONDAY

Leaders of Subway and Metropolitan Line Works Call General Strike

Paris, May 8.—A general strike order effective on Monday morning on all Paris subway and metropolitan lines was sent out this afternoon.

Many Resume Work.  
Paris, May 8.—Many striking railway employees are resuming work, it was said to-day in official circles, and the service has improved. The laborites, however, assert that four-fifths of the railway men are out.

The police have made three raids and arrested five persons in connection with the circulation of a revolutionary pamphlet.

What was supposed to be a bomb was found on a subway track to-day.

## SPAIN FIELD FOR GERMAN PROPAGANDA

Madrid, May 8.—Press dispatches may be sent between Germany and

Spain by wireless, it was announced to-day. Most German correspondents, however, recently have left this country and consequently the service will be used principally for German propaganda here, it is asserted.

I am forced to the conclusion that in England to-day, as in the inn near Bethlehem two thousand years ago, there is no room for Jesus Christ.—Father Bernard Vaughan.

## The Liver Promotes Health

If the liver is right the whole system is better off. Carter's Little Liver Pills awaken your sluggish, clogged-up liver and relieve constipation, stomach trouble, inactive bowels, indigestion, sick headache and dizziness. Purely vegetable. Small Pill—Small Dose—Small Price

### A Dyspepsia Cure

M.D. advises: "Persons who suffer from severe indigestion and constipation can cure themselves by taking fifteen to thirty drops of Extract of Roots after each meal and at bedtime. This remedy is known as Mother Seigel's Curative Syrup in the drug trade." Get the genuine. 50c. and \$1.00 bottles.

## NANAIMO ELECTORS HEAR MINISTERS

Mr. Sloan and Mr. Farris Tell of Achievements of Government

Nanaimo, May 7.—Speaking here last night to the electors of Nanaimo, Hon. Wm. Sloan, Minister of Mines, and Hon. J. W. de B. Farris, Attorney General, reviewed the legislation enacted at the recent session of the Legislature and defended the attitude of the Government toward matters affecting the welfare of the Province.

Mr. Farris referred to the Dolly Varden legislation and the personal attacks which had been made on the industry, which he declared to be absolutely unfounded both in fact and supposition. He defended the actions of the administration with regard to the industrial schools, which he claimed, were in better condition to-day than they had ever been. He declared that the mothers' pension legislation was the crowning achievement of the present Government. The Provincial Labor Bureau, he said, had placed 55,000 men in positions without the charge of a single dollar.

Steel Industry.  
The Minister of Mines, Hon. Wm. Sloan, in speaking of the development of the mineral resources of the Province, declared that if no concrete proposals were forthcoming soon, the Government would go into the iron and steel business on its own account.

He believed that the changes which had been made in the Coal Mines Regulation Act would have the effect of getting rid of every Oriental employed in the mines of the Province, and it would also stop the employment in the mines of all foreigners who could not read the English language.

Referring briefly to the Settlers' Rights' Act, which had been disallowed, Mr. Sloan said that the Government had every intention of passing such legislation until such time as the right of the Province to control its properties and civil rights was conceded. He charged that the present attitude of the Dominion Government was a deliberate invasion of the rights of the Province.

## FUNERALS COST MORE IN SPOKANE

Price Increased \$7; Graves Cost More and Wages Are Higher

Spokane, May 8.—The cost of funerals here advanced \$7 each to-day, according to an announcement by local undertakers. Following notification from local cemetery associations that the cost of single graves had been advanced \$5 each, the price for opening and closing a grave has increased \$1 and the cost of grave boxes has gone up \$1 each. Increased wages for grave diggers were said by the cemetery associations to be responsible for the increase in prices.

## SOCIALISTS ATTACK WILSON'S COURSE

Prediction Made 2,000,000  
Socialist Votes Will Be  
Cast in States

New York, May 8.—An attack on the administration of President Wilson and a prediction that the Socialist Party would poll more than 2,000,000 votes in the presidential election were made to-day by Morris Hillquit, temporary chairman of the Socialist National Convention, at its opening session here to-day. He said that the party would survive the concerted attack, "unparalleled in ferocity and lawlessness," all made on it in the last year by "all the powers of darkness and oppression in the country."

No "Good Man."  
He declared that the last three years had furnished the most striking and abhorrent proof of the fallacy of the "good man" theory in politics.

"If there remained any large section of workers who put their trust in the old party machine," he said, "Woodrow Wilson must have effectively destroyed their naive faith. For he remembered that in 1916 Woodrow Wilson ran as a radical."

"He promised Socialism through the short cut of the Democratic Party and thousands of radicals throughout the country voted for him rather than throw away their votes on the hopeless candidates of the Socialist Party."

Sang Songs.  
New York, May 8.—The Socialist Party of America opened its 1920 convention here to-day with the singing of the "Internationale," the "Marseillaise" and the "Hymn of Free Russia." Two hundred delegates were present.

Formulation of the party's platform will be begun next week. The nominations for president and vice-president, it is expected, will not be made until the close of the convention.

In addition to the 200 delegates, a number of fraternal delegates are present representing sympathetic international labor bodies. The latter will be permitted to participate in the debates but will have no votes.

## DOMINION STEEL HEADED NEW MOVE

London, May 8.—(Canadian Associated Press).—Mark Workman, chairman of the Dominion Steel Corporation, has arrived in London. He said that during the war, Sir Robert Borden saw him twice and urged the importance of Canada keeping control of her great iron ore fields for the benefit of the Empire. Mr. Workman gave much time to thinking out the great empire partnership and had many consultations with the directors and Lord Furness.

To Colonel Grant Morden belonged the credit for developing the scheme, of which the Dominion Steel Corporation was the parent body, he said.

## FLAMES DESTROY HALIFAX HUTS

Halifax, May 8.—Fire of unknown origin to-day destroyed seven large huts on the North Common formerly occupied by soldiers en route to France, and which were recently sold by the Dominion Government to Fried Brothers of Glace Bay. The loss is estimated at \$30,000.

## STATES MINIMUM OF \$2,500 NEEDED

Railroad Men's Representative Says Average Family Needs That Yearly

Washington, May 8.—A minimum of \$2,500 a year is necessary for the support of a family of five in the United States. W. Jett Lauck, consulting economist for the railroad brotherhoods, asserted to-day before the Railway Labor Board.

Mr. Lauck, who yesterday charged profiteers with being chiefly responsible to-day a demand on behalf of the 2,500,000 American railroad employees for the establishment of a minimum wage throughout the industry. He presented to the Board a compilation of budgets on the cost of living in the United States, based on studies made under his supervision and by Federal and State Agents.

## BRITISH TRADE FIGURES INCREASE

London, May 8.—The Board of Trade returns for April show the following changes:  
Imports increased \$55,088,000.  
Exports of British products increased \$47,769,000.  
Re-exports increased \$7,060,000.  
Total exports increased \$59,829,000.  
Excess of imports increased \$258,000.

## RESUME WORK.

Toronto, May 8.—The moulders of six of the twenty-seven plants in this city from which they went on strike almost thirteen months ago decided yesterday to return to work. The six firms decided to accept the union's wage agreement for 90 cents an hour.

## A SMILE IN EVERY DOSE OF BABY'S OWN TABLETS

Baby's Own Tablets are a regular joy giver to the little ones—they never fail to make the cross baby happy. When baby is cross and fretful the mother may be sure something is the matter for it is not baby's nature to be cross unless he is ailing. Mothers, if your baby is cross; if he cries a great deal and needs your constant attention day and night, give him a dose of Baby's Own Tablets. They are a mild but through laxative which will quickly regulate the bowels and stomach and thus relieve constipation and indigestion, colds and simple fevers and make baby happy—there surely is a smile in every dose of the Tablets. Baby's Own Tablets are sold by medicine dealers or by mail for 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## A SORE MOUTH

Or Pylorhea Quickly Relieved By "ABSORBINE JR." Are your gums sore and tender? Do they smart or bleed when you brush them? Are they slipping away from the teeth? When your gums get in this condition, they need something to kill all germs in the mouth—something to change the spongy, bleeding flesh into firm, healthy tissue. As one dentist writes—"ABSORBINE JR." has a future for dentists in the treatment of Pylorhea.

## MARRIED IN THE AIR.

The newest thing in America is a marriage in the air—a rather fantastic marriage, perhaps, but interesting, for the bride and bridegroom were in one aeroplane and the clergyman in another, wireless telephones carrying the reading of the services from machine to machine, while the responses of the air were heard on the ground through megaphones attached to wireless telephone receivers. It must be remembered that marriage services in American States can be conducted anywhere, and not, as in England, only in a place authorized for the purpose. Often they are celebrated in private houses.—The Times.

IS SAID SHE WISHED HUSBAND KILLED

Women Aged Sixty-two Held in Oregon; Man Also Held

Salem, Ore., May 8.—Indicted by the Marion County grand jury on a charge of assault with intent to kill, Mrs. Lena Steiger, aged sixty-two, was in the county jail here to-day in default of \$5,000 bond. Mrs. Steiger was arrested last night by Sheriff W. I. Needham and deputies. Mrs. Steiger's indictment and subsequent arrest are the result of a confession made to the jury by Jesse Mullinix, aged forty, now in jail in default of \$10,000 on the same charge. According to the prosecutor, Mullinix was arrested on the night T. W. Steiger, Mrs. Steiger's husband, was shot, March 25. In Mullinix's confession to the grand jury he accused Mrs. Steiger of paying him \$100 to kill her husband, when they would then marry, and Mrs. Steiger would come into possession of Mr. Steiger's estate valued at \$70,000. Steiger recovered from the effects of the shots about three weeks later.

NEGRO FLOGGED TO DEATH IN TEXAS

Beaumont, Tex., May 8.—Charles Arline, a negro, was flogged to death by forty masked men last Tuesday on the road between Woodville and Kountze, according to a delayed message which reached here to-day. Arline was charged with having threatened to kill a white man.

BARON WALLBURG DIES IN BUDAPEST

Was Son of Late Archduke Ernest and a Peasant Girl

Budapest, May 7.—Via London, May 8.—Death has closed the romantic career of Baron Ernest Wallburg, born to a peasant girl and acknowledged as son by the late Archduke Ernest. The late Emperor Francis Joseph gave him the baron, a princely allowance and liberal education. This allowance was reduced when he married a poor girl and was cut off entirely when he attempted to obtain restitution. During the last few years the baron lived with his wife and six children in a two-room flat. At one time he served as a waiter in a coffee house, where it was the custom to give him as a tip seven silver crowns as recognition of the seven branches of his baronial crown. He died in a hospital here early this week.

ROGERS PROMOTES OLD-TIME MEETING OF CONSERVATIVES

Montreal, May 8.—Seen at the Ritz-Carlton Hotel here, Hon. Robert Rogers stated that an independent convention of supporters of the old Conservative interests would assemble in Toronto next week. The former Minister of Public Works was in an optimistic mood and claimed that this convention would represent an element that was strong and assertive right across the Dominion. He said that he would say what would be the policy of the party if again set on its feet, but affirmed that the farmers all over Canada were behind the movement for its re-establishment.

FIRE DESTROYS WORLD'S LARGEST VINEGAR PLANT

Holley, N. Y., May 8.—The cider and vinegar plant of the Duffy Mott Company in this village, said to be the largest vinegar plant in the world, was destroyed by fire late yesterday with a loss of \$200,000.

Natural History Society—Regular meeting Monday, May 10, at the Jones Building, at 8 p.m. Discussion on results of field meeting.

"Sky Pilot" will preach at Knox Church to-morrow, Rev. H. R. Grant, D. D., the "original" of Ralph Connor's book of that name, will preach at Knox Church, Stanley Avenue, to-morrow morning and evening. This marks the eleventh anniversary of the congregation rising from the status of a mission field, to that of an independent congregation, and of the induction of Rev. Joseph McCoy, M.A., as their settled minister. The choir augmented for the occasion and under the able direction of F. J. Mitchell, will render special music at both services. Soloists, Mrs. Daniel Day and Miss Purdy.

Dance—Agricultural Hall, Saanichton, under auspices Agricultural Society, on Friday, May 14, Heaton's orchestra. Dancing 9 to 1.

Dance to-night, 8:30, Caledonia Hall. Wallace's Orchestra.

FINANCIAL NEWS

SPECTACULAR ADVANCE IN OIL STOCKS

New York, May 8.—There was a sudden interest displayed in practically all of the oil stocks in the short session here to-day, especially in the last half-hour with particular has been well buying during the current week and the influential accumulation that has been in progress is reflected in the ease with which the prices of the stock advanced. An additional influence in the buying of Mexican Oil shares was the report that the Carranza Government is endeavoring to reach a compromise with the rebel parties. Short covering assumed large proportions in the last hour and several departments the supply of stocks was very limited. There seems to be a tremendous demand for oil and its by-products and the limited reserves coming under this caption will more than likely assure the producing companies important results. Consensus of opinion seems to point to further demonstrations of a bullish character in the oil section of the list.

TO-DAY'S EXCHANGE

New York, May 8.—Demand sterling to-day was \$3.52 1/2. Montreal, May 8.—New York funds to-day are 10 1/16-16 to 10 1/16-16 per cent.

SOFTNESS TO-DAY IN CHICAGO GRAINS

Chicago, May 8.—Corn: Selling at the opening induced by favorable weather and more promising outlook for increased receipts brought about a sharp decline. An overall condition developed and the market responded readily to market buying and rallied to last night's closing prices only to sell off again at the close. It is understood that there is considerable grain loaded on the track to be hauled in when the softness strike is over and it looks like the softness experienced at this time to-day will continue for the next few days.

MONTREAL STOCK EXCHANGE

Table listing various stocks and their prices, including Bell Telephone, Canadian Pacific, and others.

EXCHANGE SUMMARY

Summary of exchange rates for various currencies and commodities.

NEW YORK COTTON

Table listing cotton prices and exchange rates.

TO-DAY'S TRADING IN WINNIPEG MARKETS

Winnipeg, May 8.—The cash markets were again dull and featureless to-day, and the volume of business was exceptionally light. With a poor demand for all grades, oats spreads were unchanged to half cent wider. Barley spreads were unchanged with a fair demand for No. 2 C. W. "Flax" and rye markets were void of interest.

## A REFERENDUM ON JITNEY QUESTION URGED ON COUNCIL

Alderman Told Public Should Have Final Word on B. C. Electric Pact

### CHANGES ARE MADE IN THE AGREEMENT

The advisability of submitting to the electors a referendum on the jitney issue was urged upon the City Council yesterday afternoon by a small delegation of jitney men, and a few sympathizers. Mrs. Grace Johnston, of the Women's Independent Political Association, declared that a referendum covering the transportation problem should be submitted to the electors as a matter of simple justice. There were a number of phases of the question, she said, which were not entirely clear in the minds of the citizens. The best course, therefore, would be to negotiate an agreement between the city and the B. C. Electric, and put it as a by-law, like the Johnson Street Bridge By-Law, before the voters. W. H. Bigham who, in the absence of Andrew Gilson, President of the Jitney Association, represented the jitney men, endorsed these ideas, and said that the electors should be consulted on a question of such importance. If the Council insisted, he promised he would guarantee that a petition, asking for a referendum, would be circulated and presented to the Mayor and aldermen later.

After hearing the contentions of the jitney supporters, the Council proceeded to deliberate at length on the agreement between the city and Railway Company regarding fares, lighting rates, and so forth. The chief point of argument was the clause in the agreement which provides that at no time shall the rates charged for lighting in Victoria exceed those in Vancouver. Alderman Andros came out flat-footed against this deal, asserting that Victoria had been tied to Vancouver's apron strings long enough. He saw no reason why rates charged in Vancouver should have anything to do with those charged here. When Vancouver set out to anything, he observed, it went ahead and did it, without worrying about Victoria at all. If the proposed clause were adopted, then when rates advanced in Vancouver they also would advance here, to the disadvantage of Victoria. Alderman Patrick, Chairman of the Legislative Committee, which is negotiating the agreement, replied that the Council would have to frame a contract which, while giving the city the very best bargain possible, would be such that the B. C. Electric Company could agree to it. There was no use proposing impossible obligations to a company of such magnitude and intelligence.

No final action on the contract was taken yesterday. Indeed, it is expected that it will be many weeks before the Council will have passed on it.

#### Amendments.

Some of the more important clauses of the agreement as amended yesterday, are as follows:

"5. The location of the railway on the streets shall not be made by the company until plans thereof showing the proposed position of the rails, the style and weight of the rail to be used, and the other works on such streets have been submitted to and approved of by resolution of the Council.

"6. The company shall, to the satisfaction of the Council, place and operate, continuously on the said railway tracks cars of a modern type in such numbers as shall be fully adequate for the transportation, convenience and comfort of such passengers desiring to travel on the railway. Each car shall be numbered on the outside and inside; and, sub-

## Old Dutch Cleanser

—makes sinks clean and spotless.

Use it for ALL cleaning and scrubbing throughout the House.

Economical and Thorough

ject to the next succeeding clause, only passengers shall be carried in such cars.

"11. The payment of a fare shall entitle a passenger to one continuous trip on the car on which the fare is paid, and by means of a transfer on a connecting car, from one point to another point on the railway, but one fare or transfer thereof shall not entitle the passenger to pass over and along any portion of the same street twice, or to make a return journey to any point on the same or parallel lines. In the event of a transfer being given it must be presented at the transfer point, and must be used on the first connecting car running in the direction shown on the transfer, otherwise the company shall be entitled to charge another fare.

#### Infants in Arms.

"12. The company shall carry infants in arms free; and shall carry children under the age of twelve (12) years at the rate of two children for one regular fare, and shall issue to school children or pupils attending school tickets at a rate not to exceed twenty-five cents for ten fares, but such tickets shall only be used and entitle such school child to travel on the railway between the hours of 8 a.m. and 5 p.m., and shall not be available on Saturdays or Sundays.

"16. No car of the company shall be stopped on any street so as to obstruct traffic to or along any intersecting, abutting or cross street. No car stopping to take on or discharge passengers at any such intersecting, abutting or cross street, shall pass or cross such street before stopping, but the same shall be stopped on the "near side" thereof, and not beyond the property line of such intersecting, abutting or cross street; and no car shall be left standing on any street at any time except while taking on or discharging passengers, or while waiting at any terminal, where it shall be first designated or approved by the Council.

"(1) Every car, when approaching any such intersecting, abutting, or cross street, shall be stopped or so controlled as to give the clear right of way and passage to any person driving any motor or motor-vehicle along such intersecting, abutting or cross street and approaching such car from the left side, unless such motor or motor-vehicle is so far distant from such car as to exclude all reasonable danger, apprehension or likelihood of a collision taking place. For the purposes of this subsection, the words "motor" and "motor-vehicle" shall have the meaning from time to time assigned to them by the "Motor-Traffic Regulation Act" or amending acts, or by any act repealing the same.

#### To Announce Streets.

"19. The conductors on said cars shall announce to the passengers the names of the streets and public squares as the cars approach them.

"21. If the Council shall at any time pass a resolution by two-thirds majority of all the members requiring the construction of a new line along Pandora Street between Cook Street and the junction of the Fort Street and Oak Bay lines at or near McGregor Avenue, within the city limits, the company shall forthwith proceed to construct the same, and failure to comply with such request shall be deemed to constitute a violation of this agreement.

"31. That the rates charged users and consumers in the City of Victoria for light, gas and power shall at no time exceed those charged in the City of Vancouver."

A would-be wag entered a haberdashery and said: "Do you keep all kinds of ties here?" "Yes, sir," replied the assistant. "Then let me have a pigsty," said the witty one. "Certainly, sir," answered the ready salesman. "Just bend down your head and I'll take your size."
